THE AMERICAN JOURNAL OF OPHTHALMOLOGY is published monthly by the Ophthalmic Publishing Company, Suite 1415, 435 North Michigan Avenue, Chicago, IL 60611. The subscription rates in the United States are as follows: one year, \$43.00; two years, \$80.00. In Canada and all other foreign countries, the rates are as follows: one year, \$65.00; two years, \$123.00; paid in U.S. bank draft or international money order. Single issues are available for \$9.00 in the United States and for \$11.50 in all other countries. Subscription and Advertising Office: Ophthalmic Publishing Company, Suite 1415, 435 North Michigan Avenue, Chicago, IL 60611.

# EDWARD JACKSON MEMORIAL LECTURES

- 1944 W. H. Crisp, "Edward Jackson's place in the history of refraction"
- 1945 H. S. Gradle, "Graduate training in ophthalmology"
- 1946 A. C. Woods, "The influence of hypersensitivity on endogenous viral disease"
- 1947 F. H. Adler, "Some confusing factors in the diagnosis of the vertically acting muscles"
- 1948 J. S. Friedenwald, "A new approach to some problems of retinal vascular disease"
- 1949 W. L. Benedict, "Diseases of the orbit"
- 1950 F. B. Walsh, "Optic nerve sheath hemorrhage"
- 1951 J. H. Dunnington, "The effect of sutures and of thrombin upon ocular wound healing"
- 1952 D. G. Cogan, "A type of congenital ocular motor apraxia presenting jerky head movements"
- 1953 H. F. Falls, "Clinical detection of the carrier state in ophthalmologic pathology"
- 1954 A. B. Reese, "Persistent hyperplastic primary vitreous"
- 1955 F. C. Cordes, "Failure in congenital cataract surgery. A study of 56 enucleated eyes"
- 1956 L. J. K. von Sallman, "The lens epithelium in the pathogenesis of cataract"
- 1957 M. J. Hogan, "Ocular toxoplasmosis"
- 1958 A. Linksz, "Aniseikonia. With notes on the Jackson-Lancaster controversy"
- 1959 J. François, "Syndromes with congenital cataract"
- 1960 L. E. Zimmerman, "The Registry of Ophthalmic Pathology. Past, present, and future"
- 1961 G. K. Smelser, "Experimental studies on exophthalmos"
- 1962 J. M. McLean, "Oculomycosis"
- 1963 E. B. Dunphy, "The story of retinoblastoma"
- 1964 R. N. Shaffer, "Genetics and the congenital glaucomas"
- 1965 I. H. Leopold, "New dimensions in ocular pharmacology"
- 1966 W. B. Anderson, "Ocular lesions in rheumatoid syndromes"
- 1967 P. A. Chandler, "Surgery of congenital cataract"
- 1968 P. C. Kronfeld, "Functional characteristics of surgically produced outflow channels"
- 1969 A. E. Maumenee, "Clinical entities in uveitis"
- 1970 B. Becker, "Diabetes mellitus and primary open-angle glaucoma"
- 1971 E. S. Malbran, "Corneal dystrophies. A clinical, pathological, and surgical approach"
- 1972 E. W. D. Norton, "Intraocular gas in the management of selected retinal detachments"
- 1973 B. R. Straatsma, "Lattice degeneration of the retina"
- 1974 B. Jones, "Principles in the management of oculomycosis"
- 1975 F. C. Blodi, "The pathology of orbital bones"
- 1976 J. D. M. Gass, "Problems in the differential diagnosis of choroidal nevi and melanomas"
- 1977 W. H. Spencer, "Drusen of the optic disk and aberrant and axoplasmic transport"
- 1978 N. Ashton, "Allergic granulomatous nodules of the conjunctiva"
- 1979 H. Kaufman, "The correction of aphakia"
- 1980 C. L. Schepens, "Clinical and research aspects of open-sky vitrectomy"
- 1981 S. Mishima, "Clinical investigations on the corneal endothelium"
- 1982 A. Patz, "Clinical and experimental studies on retinal neovascularization"
- 1983 G. R. O'Connor, "Factors related to the initiation and recurrence of uveitis"
- 1984 R. Machemer, "The importance of fluid absorption, traction, intraocular currents, and chorioretinal scars in the therapy of rhegmatogenous retinal detachments"
- 1985 B. E. Spivey, "Survival with excellence: Education and the future of ophthalmology"
- 1986 J. Kinoshita, "Aldose reductase in the diabetic eye"
- 1987 G. K. von Noorden, "A reassessment of infantile esotropia"

# CUMULATIVE SUBJECT INDEX (1983-1987)

Note: Abstract Index follows Author Index

## A

### Abducent nerve

Peripheral innervation of extraocular muscles, 95:520

### Abduction

Surgical repair of medial wall fractures, 97:349

### Ablative photodecomposition

Endoexcimer laser intraocular ablative photodecomposition (letter), 99:483

Endoexcimer laser intraocular ablative photodecomposition (correspondence), 101:130

Excimer laser therapy for experimental *Candida* keratitis, 99:534

### Ablepharon macrostomia syndrome

Ablepharon macrostomia syndrome, 99:552

### *Acanthamoeba* sp.

*Acanthamoeba* keratitis associated with gas-permeable contact lens wear (letter), 103:832

*Acanthamoeba* keratitis associated with soft contact lenses, 100:396

*Acanthamoeba*—the ultimate opportunist? (editorial), 102:527

Diagnosis and management of *Acanthamoeba* keratitis, 100:389

Immunopathology and electron microscopy of *Acanthamoeba* keratitis, 103:626

Medical and surgical treatment of *Acanthamoeba* keratitis, 103:615

Medical and surgical treatment of *Acanthamoeba* keratitis (correspondence), 104:309

Medical and surgical treatment of *Acanthamoeba* keratitis (correspondence), 104:310

Microbial contamination of contact lens care systems, 104:325

Rapid resolution of early *Acanthamoeba* keratitis after epithelial debridement (letter), 104:87

Susceptibility of *Acanthamoeba* to surgical instrument sterilization techniques (letter), 99:724

### Accommodation

Apparent accommodation in pseudophakic eyes after implantation of posterior chamber intraocular lenses, 96:435

Nonaccommodative convergence excess, 101:70

Progressive-addition lenses in the treatment of accommodative esotropia, 99:56

Transient myopia and accommodative paresis following retinal cryotherapy and panretinal photocoagulation, 97:704

### Acetazolamide

Acetazolamide and advanced liver disease (letter), 101:611

Acetazolamide and advanced liver disease (correspondence), 102:672

Can the risk of acetazolamide-induced aplastic anemia be decreased by periodic monitoring of blood cell counts? (editorial), 104:654

Effect of topically administered carbonic anhydrase inhibitors on aqueous humor dynamics in rabbits, 95:222

Failure of acetazolamide to decrease intraocular pressure in patients with carbonic anhydrase II deficiency, 99:396

Immediate intraocular pressure response to argon laser trabeculoplasty (correspondence), 96:122

Local ocular hypotensive effect of topically applied acetazolamide, 98:66

Local ocular hypotensive effect of topically applied acetazolamide (correspondence), 99:92

### Acetylcholine

The effect of acetylcholine on early postoperative intraocular pressure, 103:749

Fluorescein does not alter acetylcholine metabolism (letter), 96:393

Vascular hypotension and bradycardia following intraocular injection of acetylcholine during cataract surgery, 97:40

Vascular hypotension and bradycardia following intraocular injection of acetylcholine during cataract surgery (correspondence), 97:664

Vascular hypotension and bradycardia following intraocular injection of acetylcholine during cataract surgery (correspondence), 97:799

Vascular hypotension and bradycardia following intraocular injection of acetylcholine during cataract surgery (correspondence), 97:803

### *Achromobacter* sp.

Superinfections in herpes simplex keratitis, 96:354

### Acquired immune deficiency syndrome

Acquired immune deficiency syndrome (editorial), 97:240

Acquired immune deficiency syndrome retinopathy, pneumocystis, and cotton-wool spots (editorial), 98:235

Analysis of retinal cotton-wool spots and cytomegalovirus retinitis in the acquired immunodeficiency syndrome (letter), 95:118

Antiviral therapy for cytomegalovirus retinitis in AIDS with dihydroxy propoxymethyl guanine, 101:405

Bilateral angle-closure glaucoma in association with the acquired immune deficiency syndrome, 101:419

Bilateral fungal corneal ulcers in a patient with AIDS-related complex (letter), 102:118

Confirmation of HTLV-III virus in cornea (letter), 102:390

- Conjunctival vascular changes in AIDS and AIDS-related complex (letter), 103:332
- Cytomegalovirus retinitis as the initial manifestation of the acquired immune deficiency syndrome, 103:316
- Herpes zoster ophthalmicus in patients at risk for the acquired immune deficiency syndrome (AIDS), 101:153
- HTLV-III screening by eye banks (correspondence), 101:385
- Human T-cell leukemia/lymphotropic virus type III in the conjunctival epithelium of a patient with AIDS, 100:507
- Impact of the AIDS epidemic on corneal transplantation (editorial), 100:610
- Isolation of the human T-cell leukemia/lymphotropic virus type III from the cornea, 101:149
- Microvascular aspects of acquired immune deficiency syndrome retinopathy, 98:590
- Nonreactive tuberculosis in a patient with acquired immune deficiency syndrome (letter), 102:659
- Perivasculitis of the retinal vessels as an important sign in children with AIDS-related complex (letter), 100:614
- Prevalence, pathophysiology, and treatment of rhegmatogenous retinal detachment in treated cytomegalovirus retinitis, 103:527
- Prevalence, pathophysiology, and treatment of rhegmatogenous retinal detachment in treated cytomegalovirus retinitis (correspondence), 104:312
- Prospective study of the ophthalmologic findings in the acquired immune deficiency syndrome, 97:133
- Prospective study of the ophthalmologic findings in the acquired immune deficiency syndrome in Africa, 100:230
- Risk posed by HTLV-III-infected corneal donor tissue (editorial), 101:246
- Screening for potentially pathogenic agents in cornea donors (letter), 103:104
- Spontaneous fungal corneal ulcer as an ocular manifestation of AIDS (letter), 104:302
- Toxoplasmic retinochoroiditis as an initial manifestation of the acquired immune deficiency syndrome (letter), 101:248
- Treatment of cytomegalovirus optic neuritis with dihydroxy propoxymethyl guanine (letter), 102:533
- Treatment of cytomegalovirus retinitis with dihydroxy propoxymethyl guanine, 101:95
- Use of intravitreal ganciclovir (dihydroxy propoxymethyl guanine) for cytomegalovirus retinitis in a patient with AIDS, 103:17
- Use of intravitreal ganciclovir (dihydroxy propoxymethyl guanine) for cytomegalovirus retinitis in a patient with AIDS (correspondence), 103:842
- Acquired oculomotor synkinesis**
- Czarnecki's sign as the initial finding in acquired oculomotor synkinesis (letter), 102:543
- Acyclovir**
- Acute retinal necrosis (correspondence), 97:661
- Acyclovir in the treatment of herpetic stromal disease, 98:537
- Combination therapy for dendritic keratitis with human leukocyte interferon and acyclovir, 95:346
- Herpes simplex chorioretinitis in a healthy adult, 96:788
- Oral acyclovir in the treatment of acute herpes zoster ophthalmicus (letter), 102:531
- Role of herpesvirus type 1 thymidine kinase in experimental ocular infections, 95:175
- Adduction**
- Pseudo-internuclear ophthalmoplegia after surgical paresis of the medial rectus muscle, 98:602
- Surgical repair of medial wall fractures, 97:349
- Adenocarcinoma**
- Carcinomatous retrobulbar neuropathy disclosed by cytologic study of cerebrospinal fluid (letter), 95:847
- Conjunctival map biopsy to determine pagetoid spread, 102:87
- 19-9 monoclonal antibody study of adenocarcinoma metastatic to the choroid (letter), 98:815
- Adenoma**
- Differentiation of adenoma of the iris pigment epithelium from iris cyst and melanoma, 100:678
- Nodular adenomatosis of iris pigment epithelium, 100:87
- Oncocytoma of the caruncle, 102:315
- Pituitary apoplexy associated with cardiac surgery, 98:291
- Visual status after transsphenoidal surgery at the Mayo Clinic, 1971-1982, 96:200
- Adenylate cyclase**
- Regulation of aqueous flow by the adenylate cyclase receptor complex in the ciliary epithelium, 100:194
- Adie's syndrome**
- Tadpole-shaped pupils caused by segmental spasm of the iris dilator muscle, 96:467
- Adnexa**
- Adnexa, not adnexae (correspondence), 96:412
- Angiolymphoid hyperplasia with eosinophilia (Kimura's disease) of the orbit and ocular adnexa, 96:176
- Clinical, morphologic, immunophenotypic, and molecular genetic analysis of bilateral ocular adnexal lymphoid neoplasms in 17 patients, 103:555
- Identification of T lymphocytes in ocular adnexal neoplasms by hybridoma monoclonal antibodies, 95:233
- Surgical management of orbital lymphangioma with the carbon dioxide laser, 102:308
- Tumor, nodes, and metastasis (TNM) classification of malignant tumors of the eye and ocular adnexa (editorial), 99:83

**Adrenoleukodystrophy**

Ocular histopathologic and biochemical studies of the cerebrohepatorenal syndrome (Zellweger's syndrome) and its relationship to neonatal adrenoleukodystrophy, **96:488**

Ocular histopathologic studies of neonatal and childhood adrenoleukodystrophy, **95:82**

**Aeromonas sp.**

*Aeromonas hydrophila* and *Plesiomonas shigelloides* endophthalmitis (letter), **96:403**

**Afferent pupillary defect**

Clinicopathologic study of optic neuropathies associated with intracranial mass lesions with quantification of remaining axons, **95:295**

Functional monocular temporal hemianopsia, **101:226**

Initial pupillary constriction in the alternating light test (letter), **101:120**

Pupillary defects in amblyopia, **96:609**

Pupillary defects in retinitis pigmentosa, **99:607**

Pupulography of a relative afferent pupillary defect, **101:320**

Relative afferent pupillary defect in congenital occipital hemianopia (letter), **100:345**

Return of vision following orbital decompression after 36 hours of postoperative blindness, **100:602**

**Agnosia**

Visual disturbances with focal progressive dementing disease, **100:68**

**AIDS-related complex**

Conjunctival vascular changes in AIDS and AIDS-related complex (letter), **103:332**

Impact of the AIDS epidemic on corneal transplantation (editorial), **100:610**

Peripheral corneal ulceration in a patient with AIDS-related complex (letter), **104:542**

Perivasculitis of the retinal vessels as an important sign in children with AIDS-related complex (letter), **100:614**

Prospective study of the ophthalmologic findings in the acquired immune deficiency syndrome in Africa, **100:230**

Syphilitic retinitis in a patient with acquired immunodeficiency syndrome-related complex (letter), **103:103**

**Albinism**

Albinotic characteristics in congenital nystagmus, **97:320**

Albinotic characteristics in congenital nystagmus (correspondence), **98:121**

Albinotic characteristics in congenital nystagmus (correspondence), **98:650**

**Albumin**

Effect of timolol on the concentrations of albumin and IgG in the aqueous humor of the human eye, **96:726**

Therapeutic effects of short-term plasma exchange in endogenous uveitis, **97:565**

**Aldose reductase**

Aldose reductase in the diabetic eye. XLIII Edward Jackson Memorial Lecture, **102:685**

**Alexia**

Visual disturbances with focal progressive dementing disease, **100:68**

**Allergy**

Allergic dermatconjunctivitis caused by phenylephrine (letter), **95:703**

Allergic periorbital mucopyocele in children, **96:299**

Aspirin therapy in vernal conjunctivitis, **95:502**

Cyclosporine eyedrops for the treatment of severe vernal keratoconjunctivitis, **101:278**

IgG specific antibodies to rye grass and ragweed pollen antigens in the tear secretions of patients with vernal conjunctivitis, **95:161**

Treatment of ragweed allergic conjunctivitis with cromolyn sodium 4% ophthalmic solution, **95:169**

**Allopurinol**

Allopurinol and cataracts, **98:355**

Allopurinol and cataracts (correspondence), **99:215**

Further studies on allopurinol therapy and human cataractogenesis, **97:205**

**Alström's disease**

Ophthalmologic and systemic manifestations of Alström's disease, **102:482**

**Alternation**

Lack of alternation in patients treated for strabismic amblyopia, **99:63**

**Alzheimer's disease**

Alzheimer syndromes (editorial), **104:183**

Assessment of visual impairment in patients with Alzheimer's disease, **104:113**

Visual disturbances with focal progressive dementing disease, **100:68**

**Amblyopia**

Alternating penalization in the prevention of amblyopia recurrence, **102:473**

Compliance and results of treatment for amblyopia in children more than 8 years old, **102:340**

Compliance and results of treatment for amblyopia in children more than 8 years old (correspondence), **103:342**

Congenital cataract and intraocular lenses, **96:311**

The contrast sensitivity function and childhood amblyopia, **104:64**

The contrast sensitivity function and childhood amblyopia (correspondence), **104:671**

Depth of strabismic amblyopia determined with neutral density filters, **95:763**

Depth of strabismic amblyopia determined with neutral density filters (correspondence), **97:400**

Idiopathic amblyopia, **100:214**

Juvenile myasthenia gravis and amblyopia, **101:214**

Lack of alternation in patients treated for strabismic amblyopia, 99:63

Latent nystagmus and strabismic amblyopia, 103:87

Pattern-reversal visual-evoked potentials in the diagnosis of amblyopia in children, 102:329

Pulfrich effect in anisometropic amblyopia and strabismus, 98:499

Pulfrich effect in anisometropic amblyopia and strabismus (correspondence), 99:370

Pupillary defects in amblyopia, 96:609

Visual-evoked potential in tobacco-alcohol and nutritional amblyopia, 95:307

Visual-evoked potential in tobacco-alcohol and nutritional amblyopia (correspondence), 97:110

#### **Ametropia**

Artifacts introduced by spectacle lenses in the measurement of strabismic deviations, 96:439

Direct measurement of strabismic deviation in highly ametropic patients (letter), 98:114

#### **Amikacin**

Comparative toxicity of intravitreal aminoglycoside antibiotics, 100:264

Influence of aphakia and vitrectomy on experimental retinal toxicity of aminoglycoside antibiotics, 100:840

#### **Amino acid**

Leber's congenital amaurosis in a patient with normal amino acid metabolism and fundus features characteristic of gyrate atrophy (letter), 96:806

#### **Aminocaproic acid**

Role of aminocaproic acid in lacrimal surgery in dyskeratosis congenita, 100:728

#### **Aminoglycoside**

Influence of aphakia and vitrectomy on experimental retinal toxicity of aminoglycoside antibiotics, 100:840

#### **Amiodarone**

Multiple chalazia and rosacea in a patient treated with amiodarone (letter), 103:594

#### **Amphotericin B**

Mycotic endophthalmitis caused by *Penicillium* sp. after parenteral drug abuse, 100:408

Ocular toxicity of intravitreally injected liposomal amphotericin B in rhesus monkeys, 100:259

Successful treatment of postoperative *Candida* endophthalmitis in an eye with an intraocular lens implant, 97:593

#### **Ampicillin**

Intraocular ampicillin in the treatment of endophthalmitis (letter), 100:487

#### **Amyloid**

Conjunctival involvement in primary systemic nonfamilial amyloidosis (letter), 95:845

Immunocytochemical demonstration of prealbumin in the vitreous in hereditary familial amyloidosis, 97:296

Immunoglobulin deposition in localized conjunctival amyloidosis, 98:617

Lack of evidence for protein AA reactivity in amyloid deposits of lattice corneal dystrophy and amyloid corneal degeneration, 98:216

Unusual inclusions in stromal macrophages in a case of gelatinous drop-like corneal dystrophy, 99:312

#### **Anemia**

Anemia and diabetic retinopathy, 100:434

Aplastic anemia simulating central retinal vein occlusion (letter), 100:478

Can the risk of acetazolamide-induced aplastic anemia be decreased by periodic monitoring of blood cell counts? (editorial), 104:654

#### **Anesthesia**

Absence of corneal toxicity with low-level topical anesthesia, 99:691

Comments on intravitreal sulfur hexafluoride (letter), 95:849

Contralateral amaurosis after retrobulbar injection, 101:689

Decreasing discomfort caused by retrobulbar alcohol injection (letter), 95:262

Fire risks with ophthalmic ointments (letter), 100:477

Further comments on intravitreal sulfur hexafluoride (letter), 95:849

Painless subconjunctival injections (letter), 97:394

Spraying topical ophthalmic preparations (letter), 97:245

Subarachnoid injection as a complication of retrobulbar anesthesia, 103:225

Use of xylazine-ketamine anesthetic for intraocular surgery on rabbits (letter), 99:614

Vascular hypotension and bradycardia following intraocular injection of acetylcholine during cataract surgery, 97:40

#### **Aneurysm**

Branch retinal artery occlusion after dye yellow photocoagulation of an arterial macroaneurysm (letter), 104:186

Nine cases of cavernous hemangioma of the retina, 95:383

Pupil-sparing third nerve palsies caused by aneurysm (letter), 95:395

#### **Angiogenesis**

Ocular vasodilation and angiogenesis in Potter's syndrome, 97:16

#### **Angiography**

Digital subtraction angiography in the diagnosis of retinal vascular disease, 96:632

#### **Angioid streaks**

Angioid streaks associated with hereditary spherocytosis, 97:444

Angioid streaks associated with hereditary spherocytosis (correspondence), 98:647

#### **Angiolymphoid hyperplasia**

Angiolymphoid hyperplasia with eosinophilia (Kimura's disease) of the orbit and ocular adnexa, 96:176

**Angioma**

Cavernous hemangioma of the retina, cutaneous angiomas, and intracranial vascular lesion by computed tomography and nuclear magnetic resonance imaging, **98:483**

**Angiomatosis retinae**

Rhegmatogenous retinal detachment in angiomatosis retinae, **101:187**

**Angiopathy**

Acute bilateral posterior angiopathy with influenza A viral infection, **103:289**

**Angiotensin-converting enzyme**

Eleven cases of sarcoidosis of the optic nerve, **97:62**  
The predictive value of serum angiotensin converting enzyme and lysozyme levels in the diagnosis of ocular sarcoidosis, **104:211**

**Angle-closure glaucoma**

Angle-closure glaucoma and transient ischemic attacks (letter), **99:493**

Antiglaucomatous ciliary body excision, **98:344**

Bilateral angle-closure glaucoma in association with the acquired immune deficiency syndrome, **101:419**

Corneal endothelial changes after argon laser iridotomy, **98:153**

Endothelium in primary angle-closure glaucoma, **98:103**

Hypopyon keratouveitis in acute angle-closure glaucoma (letter), **104:430**

Iridochisis associated with glaucoma and bullous keratopathy, **95:73**

Laser iridectomy in the management of chronic angle-closure glaucoma, **98:446**

Massive subretinal hemorrhage with acute angle-closure glaucoma in chronic myelocytic leukemia (letter), **103:837**

Modified technique for serial use of argon and neodymium-YAG lasers in laser iridotomy (letter), **100:485**

Neodymium-YAG laser iridectomies in glaucoma associated with closed or occludable angles, **102:41**

Pseudophakic pupillary block with angle-closure glaucoma in diabetic patients, **102:325**

- Capsulotomy**
- Anterior capsulotomy associated with a small pupil (letter), **104:666**
- Disposable cystotome-cannula (letter), **101:385**
- Effect of primary capsulotomy with extracapsular surgery on the incidence of pseudophakic cystoid macular edema, **98:166**
- Effect of sodium hyaluronate on endothelial cell damage during extracapsular cataract extraction and posterior chamber lens implantation, **98:759**
- Glare measurements before and after neodymium-YAG laser posterior capsulotomy, **100:708**
- Intermediate-term changes in intraocular pressure after neodymium-YAG laser posterior capsulotomy (letter), **100:332**
- Neodymium-YAG capsulotomy and potential blindness (letter), **98:521**
- Neodymium-YAG laser for posterior capsulotomy, **96:716**
- Neodymium-YAG laser posterior capsulotomy for the treatment of aphakic and pseudophakic pupillary block, **104:502**
- Progressive glaucomatous visual field loss after neodymium-YAG laser capsulotomy (letter), **98:632**
- Retinal detachment following late posterior capsulotomy, **95:593**
- Retinal detachment following neodymium-YAG laser capsulotomy, **97:288**
- Retinal detachment following neodymium-YAG laser capsulotomy (correspondence), **98:248**
- Retinal detachment following neodymium-YAG laser capsulotomy (correspondence), **98:249**
- Retinal detachment following neodymium-YAG laser capsulotomy (correspondence), **98:249**
- Rhegmatogenous retinal detachment after neodymium-YAG laser capsulotomy in phakic and pseudophakic eyes, **101:81**
- Watertight entry with a bent disposable needle for anterior capsulotomy (letter), **97:529**
- YAG laser capsulotomy through a lens-manipulating hole (letter), **97:797**
- Carbachol**
- The effect of intracameral carbachol on intraocular pressure after cataract extraction, **104:225**
- Carbonic anhydrase inhibitor**
- Effect of topically administered carbonic anhydrase inhibitors on aqueous humor dynamics in rabbits, **95:222**
- Hematologic reactions to carbonic anhydrase inhibitors, **100:79**
- Hematologic reactions to carbonic anhydrase inhibitors (correspondence), **100:745**
- Hematologic reactions to carbonic anhydrase inhibitors (correspondence), **101:128**
- Relationship of patient age and tolerance to carbonic anhydrase inhibitors, **96:730**
- Carcinoma**
- Bilateral carcinomas of the eyelid, **101:480**
- Bilateral glaucoma caused by nasal carcinoma obstructing Schlemm's canal (letter), **96:550**
- Clinicopathologic study of 21 cases of adenoid squamous cell carcinoma of the eyelid and periorbital region, **99:291**
- Computerized ultrasonic tissue characterization of ocular tumors, **96:165**
- Development of additional primary tumors after 62 years in the first patient with retinoblastoma cured by radiation therapy, **97:189**
- Histopathologic study of 716 unselected eyes in patients with cancer at the time of death, **95:788**
- Management of intraepithelial conjunctival tumors and squamous cell carcinomas, **95:359**
- Metastatic eyelid carcinoma (letter), **101:252**
- Orbital fine-needle aspiration biopsy, **99:547**
- Recurrence of sebaceous carcinoma of the eyelid after radiation therapy, **96:10**

Results of cryotherapy for eyelid malignancies, 97:184

Squamous cell carcinoma of the limbal conjunctiva with corneal involvement and racial melanosis in a Nigerian woman (letter), 96:106

Two cases of uveal metastasis from breast carcinoma in men, 95:208

Ultrastructural study of retinal photoreceptor degeneration associated with bronchial carcinoma, 97:277

#### **Cardiovascular effects**

Possible cardiovascular effects secondary to topical ophthalmic 2.5% phenylephrine (letter), 99:362

#### **Carotid artery**

Acute sectorial choroidal ischemia, 98:707

Digital subtraction angiography in the diagnosis of retinal vascular disease, 96:632

Experimental model of carotid artery occlusive disease, 97:168

Macular edema in association with severe carotid artery obstruction, 102:442

Neovascular glaucoma and carotid artery obstructive disease, 99:567

Pupil-sparing third nerve palsies caused by aneurysm (letter), 95:395

Reduction of retinal venous tortuosity after detachable balloon occlusion of carotid-cavernous fistula (letter), 95:841

#### **Carotid-cavernous fistula**

Recovery from total monocular blindness after balloon embolization of carotid-cavernous fistula (letter), 104:86

Reduction of retinal venous tortuosity after detachable balloon occlusion of carotid-cavernous fistula (letter), 95:841

#### **Caruncle**

Oncocytoma of the caruncle, 102:315

Types and frequency of lesions of the caruncle, 102:771

#### **Cataract**

Abnormal sensory findings secondary to monocular cataracts in children and strabismic adults, 102:349

Aldose reductase in the diabetic eye. XLIII Edward Jackson Memorial Lecture, 102:685

Allopurinol and cataracts, 98:355

Allopurinol and cataracts (correspondence), 99:215

Anterior subcapsular cataracts as a possible adverse ocular reaction to isotretinoin (letter), 103:236

Aspiration-irrigation syringe for extracapsular cataract extraction operated with one hand (letter), 101:611

Assessment of success and complications of triple procedure surgery, 104:233

Cataract extraction in the diabetic eye after vitrectomy, 104:1

Chronic bacterial postoperative endophthalmitis, 103:745

Chronic *Propionibacterium* endophthalmitis after extracapsular cataract extraction and intraocular lens implantation, 102:733

Clinicobiochemical correlations in aging-related human cataract, 97:457

Combination lens loop-spatula for nucleus delivery during planned extracapsular cataract extraction (letter), 100:333

Comparison of low- and high-volume irrigation-aspiration systems for extracapsular cataract extraction, 102:91

Comparison of the effects of Viscoat and Healon on postoperative intraocular pressure, 100:377

Congenital cataract and intraocular lenses, 96:311

Corneal shield to prevent light-induced maculopathy during cataract surgery (letter), 97:658

Corneal subepithelial deposits after use of sodium chondroitin (letter), 102:279

Disposable cystotome-cannula (letter), 101:385

Early equatorial cataracts in workers exposed to trinitrotoluene, 95:807

Echographic findings in eyes with traumatic cataracts (letter), 99:496

The effect of acetylcholine on early postoperative intraocular pressure, 103:749

Effect of applying the Honan intraocular pressure reducer before cataract surgery, 100:523

Effect of cataract surgery on intraocular pressure reduction obtained with laser trabeculoplasty, 100:373

Effect of cataract surgery on intraocular pressure reduction obtained with laser trabeculoplasty (correspondence), 101:133

The effect of intracameral carbachol on intraocular pressure after cataract extraction, 104:225

Effect of primary capsulotomy with extracapsular surgery on the incidence of pseudophakic cystoid macular edema, 98:166

Effect of sodium hyaluronate on endothelial cell damage during extracapsular cataract extraction and posterior chamber lens implantation, 98:759

Effect on the retina of an air cushion in the anterior chamber and coaxial illumination, 96:600

Effects of the Shearing posterior chamber intraocular lens on the corneal endothelium, 95:798

Epidemiologic aspects of senile cataract extraction stratified by visual acuity, age, and sex, 100:520

Excision of anterior capsular tags (letter), 101:383

Experience with intraocular lens implants in patients with diabetes, 96:94

Extracapsular cataract extraction and posterior chamber intraocular lens implantation combined with trabeculectomy in patients with glaucoma, 104:465

Factors associated with a poor visual result in endophthalmitis, 101:332

False-normal assays for galactosemia in a neonate with cataracts (letter), 100:342

Muscle inclusion cyst as a complication of strabismus surgery (letter), **100:740**

Orbital dermoid cyst of conjunctival origin, **101:726**

Treatment of acquired epithelial inclusion cyst of the conjunctiva using the YAG laser (letter), **98:807**

**Cysteamine**

Nephropathic cystinosis. Ineffectiveness of cysteamine therapy for ocular changes (letter), **95:713**

**Cysticercosis**

Failure of medical treatment in two cases of intraocular cysticercosis (letter), 97:249

Intraocular cysticercosis, 99:252

**Cystic fibrosis**

Morphologic and fluorophotometric analysis of the corneal endothelium in type I diabetes mellitus and cystic fibrosis, 100:783

Ocular findings in cystic fibrosis, 103:204

**Cystinosis**

Corneal sensitivity in nephropathic cystinosis, 104:413

Recurrent crystal deposition after keratoplasty in nephropathic cystinosis (letter), 104:190

Spatial and temporal sequence of corneal crystal deposition in nephropathic cystinosis, 104:598

**Cystoid macular edema**

Anterior surgical approach to aphakic cystoid macular edema, 95:811

Clinical, fluorescein angiographic, and electron microscopic correlation of cystoid macular edema, 100:82

Clinicopathologic studies of keratoplasty eyes obtained post mortem, 101:28

Cyclosporin A therapy in the treatment of intraocular inflammatory disease resistant to systemic corticosteroids and cytotoxic agents, 96:275

Effectiveness of ketorolac tromethamine 0.5% ophthalmic solution for chronic aphakic and pseudophakic cystoid macular edema, 103:479

Effect of primary capsulotomy with extracapsular surgery on the incidence of pseudophakic cystoid macular edema, 98:166

Hyperbaric oxygen treatment for chronic cystoid macular edema after branch retinal vein occlusion (letter), 104:301

Incidence of cystoid macular edema after retinal detachment surgery and the use of topical indomethacin, 95:451

Ocular histopathologic studies of neonatal and childhood adrenoleukodystrophy, 95:82

Penetrating keratoplasty combined with extracapsular cataract extraction, 100:129

Retinal fluorescein leakage in retinitis pigmentosa, 101:354

Significance of the pars plana exudate in pars planitis, 103:669

Vitreous fluorophotometry in pars planitis, 95:189; correction, 95:740

YAG laser treatment of cystoid macular edema, 95:589

YAG laser treatment of cystoid macular edema (correspondence), 96:407

YAG laser treatment of cystoid macular edema (correspondence), 96:556

**Cytomegalovirus**

Analysis of retinal cotton-wool spots and cytomegalovirus retinitis in the acquired immunodeficiency syndrome (letter), 95:118

Antiviral therapy for cytomegalovirus retinitis in AIDS with dihydroxy propoxymethyl guanine, 101:405

Cytomegalovirus retinitis as the initial manifestation of the acquired immune deficiency syndrome, 103:316

Prospective study of the ophthalmologic findings in the acquired immune deficiency syndrome, 97:133

Prospective study of the ophthalmologic findings in the acquired immune deficiency syndrome in Africa, 100:230

Treatment of cytomegalovirus optic neuritis with dihydroxy propoxymethyl guanine (letter), 102:533

Treatment of cytomegalovirus retinitis with dihydroxy propoxymethyl guanine, 101:95

Treatment of cytomegalovirus retinitis with dihydroxy propoxymethyl guanine (correspondence), 101:622

Use of intravitreal ganciclovir (dihydroxy propoxymethyl guanine) for cytomegalovirus retinitis in a patient with AIDS, 103:17

Use of intravitreal ganciclovir (dihydroxy propoxymethyl guanine) for cytomegalovirus retinitis in a patient with AIDS (correspondence), 103:842

**Cytomegalovirus retinitis**

Prevalence, pathophysiology, and treatment of rhegmatogenous retinal detachment in treated cytomegalovirus retinitis, 103:527

Prevalence, pathophysiology, and treatment of rhegmatogenous retinal detachment in treated cytomegalovirus retinitis (correspondence), 104:312

**D****Dacryocystitis**

Lacrimal drainage obstruction from lacrimal sac infiltration by lymphocytic neoplasia, 101:242

**Dacryocystography**

Bilateral injection of contrast medium for dacryocystography (letter), 95:117

**Dacryocystorhinostomy**

Modification of the Kerrison rongeur (letter), 101:384

**Daunorubicin**

Intraocular daunorubicin for the treatment and prophylaxis of traumatic proliferative vitreoretinopathy, 104:10

**Demodex sp.**

Demodectic infestation of the meibomian glands (letter), 95:261

Demodectic mites and chalazion (letter), 100:482

Demodex infestation of the sebaceous gland (letter), 95:843

**Dermatochalasis**

Coronal brow lift, 96:751

Simultaneous treatment of lower eyelid dermatochalasis and abnormal-appearing skin, 96:6

**Descemet's membrane**

Clinical, electron microscopic, and immunohistochemical study of the corneal endothelium and Descemet's membrane in the iridocorneal endothelial syndrome, 101:16

Clinical specular microscopy of posterior polymorphous endothelial dystrophy, 95:143

Clinicopathologic studies of keratoplasty eyes obtained post mortem, 101:28

Corneal endothelial trauma after Descemet's membranotomy with the neodymium-YAG laser (letter), 99:484

Primary corneal endotheliopathies (correspondence), 95:852

Radiating folds in Descemet's membrane as a sign of impending corneal perforation (letter), 98:625

Recurrence of macular corneal dystrophy within grafts, 95:60

Successful treatment of fungal keratitis caused by *Paecilomyces lilacinus* (letter), 98:626; correction, 98:835

Sulfur hexafluoride gas in the repair of intractable Descemet's membrane detachment (letter), 104:660

Ultrastructure of traumatic corneal endothelial rings, 101:156

#### Diabetes

Aldose reductase in the diabetic eye. XLIII Edward Jackson Memorial Lecture, 102:685

Anterior hyaloidal fibrovascular proliferation after diabetic vitrectomy, 104:607

Anterior retinal cryotherapy in diabetic vitreous hemorrhage, 100:440

Anterior retinal cryotherapy in diabetic vitreous hemorrhage (correspondence), 101:255

Cataract extraction in the diabetic eye after vitrectomy, 104:1

Clinical profile and long-term implications of anterior ischemic optic neuropathy, 96:478

Clinical significance of the reduced capillary resistance factor in the diabetic patient, 99:677

Clinicopathologic findings in anterior hyaloidal fibrovascular proliferation after diabetic vitrectomy, 104:615

Corneal endothelial changes in type I and type II diabetes mellitus, 98:401

Cyclic macular edema (correspondence), 95:403

- Juvenile myasthenia gravis and amblyopia, 101:214

Muscle inclusion cyst as a complication of strabismus surgery (letter), 100:740

#### **Extraocular muscle**

Acute and subacute orbital myositis, 96:209

Extraocular muscle surgery for dysthyroid myopathy, 95:767

Oculocardiac reflex with an orbital tumor (letter), 98:818

Peripheral innervation of extraocular muscles, 95:520

Sequelae of botulinum toxin injection, 100:305

Succinylcholine and the basic ocular deviation, 95:315

Treatment of eyelid retraction with two pedicle tarsal rotation flaps, 95:539

#### **Eyebrow**

Clues to the diagnosis of functional unilateral blepharoptosis (letter), 99:612

Treatment of blepharospasm with botulinum toxin, 99:176

#### **Eye donation**

Obtaining consent for eye donation, 103:198

#### **Eyedrops**

Absence of corneal toxicity with low-level topical anesthesia, 99:691

Allergic dermatitis conjunctivitis caused by phenylephrine (letter), 95:703

Atropine toxicity (letter), 99:613

Bacterial contamination of eyedrop dispensers, 98:548

Bilateral effects of long-term monocular timolol therapy, 104:591

Can ophthalmologists correctly identify patients defaulting from pilocarpine therapy?, 101:524

Compliance factor (editorial), 101:609

Compliance with topical pilocarpine treatment, 101:515

Corneal changes during pilocarpine gel therapy (correspondence), 101:623

Corneal white plaques caused by sulfacetamide eyedrops (letter), 98:378

Creating smaller eyedrops by reducing eyedropper tip dimensions, 99:460

Cyclosporine eyedrops for the treatment of severe vernal keratoconjunctivitis, 101:278

Design of eyedropper tips for topical beta-blocking agents (letter), 102:123

A double-masked study of timolol and pilocarpine combined, 104:587

Drop size of commercial glaucoma medications, 101:691

Drop size of commercial glaucoma medications (correspondence), 102:673

Effectiveness of ketorolac tromethamine 0.5% ophthalmic solution for chronic aphakic and pseudophakic cystoid macular edema, 103:479

Ocular beta-blockers and systemic effects (editorial), 98:623

Oculocardiac reflex during ophthalmoscopy in premature infants, 99:649

Sinus arrest associated with betaxolol ophthalmic drops (letter), 104:431

Systemic absorption and cardiovascular effects of phenylephrine eyedrops, 99:180

#### **Eyelid**

Ablepharon macrostomia syndrome, 99:552

Absent meibomian glands in the ectrodactyly, ectodermal dysplasia, cleft lip-palate syndrome, 97:496

Absolute IgG4 deficiency and recurrent bacterial blepharokeratoconjunctivitis (letter), 98:243

Actinic comedonal plaque of the eyelid (letter), 96:687

Anatomic changes in involutional blepharoptosis, 98:21

Assessing levator palpebrae superioris muscle function in infants (letter), 98:377

Associated neurologic abnormalities in congenital third nerve palsies, 97:315

Bilateral carcinomas of the eyelid, 101:480

Biofeedback therapy of essential blepharospasm (correspondence), 99:370

Blepharochalasis syndrome, 99:424

Blepharospasm associated with tegafur combination chemotherapy (letter), 97:649

Botulinum therapy for apraxia of eyelid opening (letter), 103:718

Changes in lower eyelid resting position, movement, and tone with age, 99:415

Chemical blepharitis following drug treatment (letter), 95:703

Clinical implications of bilateral microphthalmos with cyst, 97:632

Clinicopathologic study of 21 cases of adenoid squamous cell carcinoma of the eyelid and periorbital region, 99:291

Clues to the diagnosis of functional unilateral blepharoptosis (letter), 99:612

Combined viable composite graft and temporal semicircular skin flap procedure, 98:349

Correction of upper eyelid retraction using tissue removed in blepharoptosis repair, 101:600

Correction of upper eyelid retraction using tissue removed in blepharoptosis repair (correspondence), 102:406

Development of additional primary tumors after 62 years in the first patient with retinoblastoma cured by radiation therapy, 97:189

Discoid lupus erythematosus involving the eyelids, 98:32

Ectopic cilia and preseptal orbital cellulitis (letter), 98:119

Ectopic epibulbar Fordyce nodules in a buccal mucous membrane graft, 100:724

Ectropion of the eyelid punctum (letter), 96:805

Effects of eye rubbing on the conjunctiva as a model of ocular inflammation, 100:45

Eschar-induced eyelid perforation (letter), 103:336

Eyelid ecchymosis and proptosis in lymphangioma (letter), 100:486

Eyelid necrosis after spider bite (letter), 101:254

Eyelid suspension with a transposed levator palpebrae superioris muscle, 100:308

Eyelid suspension with a transposed levator palpebrae superioris muscle (correspondence), 101:131

Eyelid taping for comfortable occlusion (letter), 95:256

Fiberoptic slit-lamp attachment (letter), 101:498

Floppy eyelid syndrome and blepharochalasis, 102:376

Floppy eyelid with hyperglycemia, 98:614

Floppy eyelid with hyperglycemia (correspondence), 99:619

Floppy eyelid with hyperglycemia (correspondence), 99:620

Internal vertical shortening for the correction of diffuse or segmental postoperative blepharoptosis, 99:429

Irrigating eyelid speculum (letter), 96:549

Lagophthalmos in acquired oculomotor synkinesis, 98:747

Lower eyelid laxity and ocular symptoms, 95:545

Marginal eyelid laceration at birth (letter), 102:539

Metastasis of primary osteogenic sarcoma to the eyelid (letter), 104:659

Metastatic eyelid carcinoma (letter), 101:252

Methicillin-resistant *Staphylococcus epidermidis* blepharitis, 98:562

Myiasis palpebrarum (letter), 101:496

New corneal protector for oculoplastic surgery (letter), 100:484

Ocular findings in patients with neutrophil dysfunction, 95:598

Ocular findings in the facioauriculovertebral sequence (Goldenhar-Gorlin syndrome), 100:555

Ocular infection with orf virus, 97:601

Ocular pigmented spots and eyelid myxomas, 104:533

Oculocardiac reflex during ophthalmoscopy in premature infants, 99:649

Ophthalmic features of necrobiotic xanthogranuloma with paraproteinemia, 97:173

Periocular pigmentation in the Peutz-Jeghers syndrome (letter), 102:126

Pituitary apoplexy associated with cardiac surgery, 98:291

Polymorphic B-cell lymphoma of the eyelid (letter), 98:634

Radiation therapy for Graves' disease, 96:195

Recurrence of sebaceous carcinoma of the eyelid after radiation therapy, 96:10

Results of cryotherapy for eyelid malignancies, 97:184

Reverse Collier's sign. Pseudoblepharoptosis associated with downgaze paralysis (letter), 95:120

Simultaneous treatment of lower eyelid dermatochalasis and abnormal-appearing skin, 96:6

Spraying topical ophthalmic preparations (letter), 97:245

Surgical correction of punctal malposition (letter), 100:339

Surgical management of floppy eyelid syndrome, 99:557

Timolol-associated myasthenia gravis (letter), 98:244

Treatment of blepharospasm with botulinum toxin, 99:176

Treatment of eyelid retraction with two pedicle tarsal rotation flaps, 95:539

Unusual corneal complication of soft contact lens, 100:794

Unusual corneal complication of soft contact lens (correspondence), 101:623

Use of botulinum toxin in blepharospasm, 99:542

Vertical tarsal buckling as a complication of levator aponeurosis repair for acquired blepharoptosis, 97:93

Vertical tarsal buckling as a complication of levator aponeurosis repair for acquired blepharoptosis (correspondence), 98:645

Voluntary eversion of the eyelids (letter), 97:107

## F

### Facioauriculovertebral sequence

Ocular findings in the facioauriculovertebral sequence (Goldenhar-Gorlin syndrome), 100:555

### Familial dysautonomia

Optic atrophy in familial dysautonomia, 102:463

Optic nerve dysfunction in familial dysautonomia, 104:645

### Familial Mediterranean fever

Episcleritis associated with familial Mediterranean fever (letter), 100:337

### Fibrin

Treatment of experimental intravitreal fibrin with tissue plasminogen activator, 104:619

### Fibrinogen

Abnormal blood viscosity and erythrocyte deformability in retinal vein occlusion (letter), 96:399

### Fibroma

Clinical, computed tomographic, and histopathologic characteristics of juvenile ossifying fibroma with orbital involvement, 96:650

Congenital generalized multicentric myofibromatosis with orbital involvement, 102:779

### Fibronectin

Topical fibronectin in the treatment of persistent corneal epithelial defects and trophic ulcers, 104:494

### Fibrosis

Histopathologic and immunohistopathologic features of subretinal fibrosis and uveitis syndrome, 104:15

**Fibrous dysplasia**

Clinical, computed tomographic, and histopathologic characteristics of juvenile ossifying fibroma with orbital involvement, 96:650

**Filtering surgery**

Argon laser trabeculoplasty in younger patients with primary open-angle glaucoma, 97:292

Conjunctival forceps for glaucoma filtering surgery (letter), 104:666

Excimer laser photocoagulation in glaucoma filtering surgery (letter), 103:713

Filtering iridocyclodetraction in chronic closed-angle glaucoma, 99:340

Filtering surgery in owl monkeys treated with the antimetabolite 5-fluorouridine 5'-monophosphate entrapped in multivesicular liposomes (letter), 103:714

Gelatin implants in glaucoma filtering surgery (letter), 101:618

Graft rejection and glaucoma, 101:294

Long-term results of silicone tube in filtering surgery for eyes with neovascular glaucoma, 97:501

Long-term results of valve implants in filtering surgery for eyes with neovascular glaucoma, 95:775

Management of large filtering blebs with the argon laser, 101:695

A randomized study of 5-fluorouracil and filtration surgery, 104:218

Reopening filtration fistulas with transconjunctival argon laser photocoagulation, 98:340

Serious corneal complications of glaucoma filtering surgery with postoperative 5-fluorouracil, 103:183

Suprachoroidal hemorrhage after glaucoma filtering surgery, 103:689

Suprachoroidal hemorrhage after glaucoma filtering surgery (correspondence), 104:444

Temporary visual loss with ciliary body detachment and hypotony after attempted YAG laser repair of failed filtering surgery, 101:305

**Fistula**

Reduction of retinal venous tortuosity after detachable balloon occlusion of carotid-cavernous fistula (letter), 95:841

Reopening filtration fistulas with the neodymium-YAG laser, 102:491

Reopening filtration fistulas with transconjunctival argon laser photocoagulation, 98:340

**Fixation**

Modified corneal light reflex test with distance fixation (letter), 102:661

Pediatric audio-visual fixation system (letter), 103:722

**Flucytosine**

Mycotic endophthalmitis caused by *Penicillium* sp. after parenteral drug abuse, 100:408

**Fluorescein**

Decreased endothelial permeability in transplanted corneas, 96:362

Effect of intravenous fluorescein on fluorescent treponemal antibody testing (letter), 102:278

Fluorescein does not alter acetylcholine metabolism (letter), 96:393

Fluorescein in laser sclerostomy (letter), 104:432

Retinal fluorescein leakage in retinitis pigmentosa, 101:354

Retinal fluorescein leakage in retinitis pigmentosa (correspondence), 102:408

Retinal fluorescein leakage in retinitis pigmentosa (correspondence), 102:674

**Fluorescein angiography**

Assessment of angiographic retinal capillary non-perfusion in central retinal vein occlusion, 103:761

Correlation of choroidal subretinal neovascularization with fluorescein angiography, 99:263

Digital fluorescein tele-angiography (letter), 104:91

Expedited film processing in emergency fluorescein angiography (letter), 104:93

Experimental model of carotid artery occlusive disease, 97:168

Fluorescein angiography in massive retinal gliosis (letter), 103:593

Polaroid for fluorescein angiography (letter), 98:812

Relationship between some clinical and biological factors and incipient diabetic retinopathy diagnosed by fluorescein angiography (letter), 96:108

Subretinal hemorrhage during fluorescein angiography (letter), 103:111

Timing of color fundus photographs and intravenous fluorescein angiography (letter), 97:783

Viewing of fluorescein angiograms by closed-circuit video low-vision apparatus (letter), 98:637

**Fluorochemical**

Experimental vitreous replacement with perfluorotributylamine, 103:29

Low viscosity liquid fluorochemicals in vitreous surgery, 103:38

**Fluorometholone**

Ocular hypertensive effect of 0.25% fluorometholone in corticosteroid responders, 102:159

**Fluorophotometry**

Fluorophotometric study of anterior segment barrier functions after extracapsular cataract extraction and posterior chamber intraocular lens implantation, 97:197

Vitreous fluorophotometry in pars planitis, 95:189; correction, 95:740

**Fluorouracil**

Fluorouracil therapy for proliferative vitreoretinopathy after vitrectomy, 96:33

Ocular toxicity of fluorouracil after vitrectomy, 96:43

A randomized study of 5-fluorouracil and filtration surgery, 104:218

Toxic effect of fluorouracil on the rabbit retina, 96:641

Toxic effect of fluorouracil on the rabbit retina (correspondence), 97:398

Toxic effect of fluorouracil on the rabbit retina (correspondence), 97:533

#### Forceps

Grooved tying forceps (letter), 98:638  
Iridotomy scissor-forceps (letter), 99:609  
The pic-forceps for removal of epiretinal membranes (letter), 98:518  
Tarsorrhaphy fixation forceps (letter), 97:393

#### Fordyce nodule

Ectopic epibulbar Fordyce nodules in a buccal mucous membrane graft, 100:724

#### Fovea

Foveal cone pigments and sensitivity in young patients with Usher's syndrome, 103:150; correction, 104:98  
Foveal densitometry as a diagnostic technique in Stargardt's disease, 102:353  
Foveal densitometry in central serous choroidopathy, 98:359  
Geographic atrophy of the retinal pigment epithelium, 102:621

#### Freeman-Sheldon syndrome

Ocular abnormalities in the Freeman-Sheldon syndrome, 102:346

#### Fuchs' dystrophy

Aqueous amino acid levels in Fuchs' corneal dystrophy, 102:570  
Fuchs' dystrophy and serum fibrinogen degradation products (letter), 100:615  
Nosocomial exacerbation of Fuchs' endothelial dystrophy (letter), 98:513

#### Fuchs' heterochromic iridocyclitis

HLA antigens in Fuchs' heterochromic iridocyclitis (letter), 102:392; correction, 102:809

#### Fuchs' uveitis

Aqueous humor dynamics in Fuchs' uveitis syndrome, 95:783

#### Fundus

Acquired immune deficiency syndrome (editorial), 97:240  
Biconcave contact lens for examination and laser treatment of the fundus in normal and gas-filled phakic eyes (letter), 98:806  
Biomicroscopic examination of the ocular fundus with a +60-diopter lens (letter), 99:490  
Clinicopathologic correlation of lipidization and detachment of the retinal pigment epithelium, 101:576  
Comparison of lesions predisposing to rhegmatogenous retinal detachment by race of subjects, 96:644  
Evolution of benign concentric annular macular dystrophy, 100:73  
Fleck retina in Kjellin's syndrome (correspondence), 99:618  
Graphics composition of fundus data, 98:728  
Leber's congenital amaurosis in a patient with normal amino acid metabolism and fundus features characteristic of gyrate atrophy (letter), 96:806  
Pigmented paravenous chorioretinal atrophy, 96:338

Prospective study of the ophthalmologic findings in the acquired immune deficiency syndrome, 97:133

Senile reticular pigmentary degeneration, 98:717  
Spontaneously regressing retinoblastomas, retinoma, or retinoblastoma group 0, 96:315

Timing of color fundus photographs and intravenous fluorescein angiography (letter), 97:783

Ultrasonographic mapping of vitreoretinal abnormalities, 96:622

Ultrasonography under direct visualization (letter), 96:107

Unilateral night blindness with normal fundus (letter), 98:630

Use of the infrared fundus reflection for an identification device (letter), 98:636

#### Fundus flavimaculatus

Fleck retina in Kjellin's syndrome (correspondence), 99:738

Retinal function in Stargardt's disease and fundus flavimaculatus, 96:57

#### Fusarium sp.

Calcofluor and ink-potassium hydroxide preparations for identifying fungi, 100:719

Corneal biopsy in the diagnosis of keratomycosis, 101:288

Miconazole and ketoconazole as a satisfactory first-line treatment for keratomycosis, 101:605

Topical ketoconazole for fungal keratitis, 100:293

#### Galactosemia

False-normal assays for galactosemia in a neonate with cataracts (letter), 100:342

#### Gamma-glutamyl transpeptidase

Gamma-glutamyl transpeptidase in the prognosis of patients with uveal malignant melanoma, 95:467

Gamma-glutamyl transpeptidase in the prognosis of patients with uveal malignant melanoma (correspondence), 96:409

#### Ganciclovir

Antiviral therapy for cytomegalovirus retinitis in AIDS with dihydroxy propoxymethyl guanine, 101:405

Treatment of cytomegalovirus optic neuritis with dihydroxy propoxymethyl guanine (letter), 102:533

Treatment of cytomegalovirus retinitis with dihydroxy propoxymethyl guanine, 101:95

Treatment of cytomegalovirus retinitis with dihydroxy propoxymethyl guanine (correspondence), 101:622

Use of intravitreal ganciclovir (dihydroxy propoxymethyl guanine) for cytomegalovirus retinitis in a patient with AIDS, 103:17

Use of intravitreal ganciclovir (dihydroxy propoxymethyl guanine) for cytomegalovirus retinitis in a patient with AIDS (correspondence), 103:842

#### Gardner's syndrome

Orbital osteoma in Gardner's syndrome, 101:236

**Genetics**

- Absent meibomian glands in the ectrodactyly, ectodermal dysplasia, cleft lip-palate syndrome, 97:496
- Angioid streaks associated with hereditary spherocytosis, 97:444
- Angioid streaks associated with hereditary spherocytosis (correspondence), 98:647
- Argon laser photocoagulation for diabetic retinopathy in a patient with hemophilia (letter), 98:818
- Association of Gm allotypes with the occurrence of ankylosing spondylitis in HLA-B27-positive anterior uveitis, 98:732
- Carrier detection in tapetoretinal degeneration in association with medullary cystic disease, 95:487
- Choroidal malignant melanoma in siblings, 96:675
- Color plates to help identify patients with blue cone monochromatism, 95:741
- Congenital absence of the lacrimal gland (letter), 102:800

- Acute intraoperative choroidal effusion, **100:147**  
Anterior retinal cryotherapy in diabetic vitreous hemorrhage (correspondence), **101:255**  
Avulsed retinal veins without retinal breaks, **98:723**  
Complications of acute symptomatic posterior vitreous detachment, **97:308**  
Familial retinal arteriolar tortuosity with retinal hemorrhage (letter), **95:556**  
Interface hematoma after epikeratophakia (letter), **103:328**  
Macular hemorrhages associated with posterior vitreous detachment, **102:647**  
Massive subretinal hemorrhage with acute angle-closure glaucoma in chronic myelocytic leukemia (letter), **103:837**  
Ophthalmomyiasis interna causing visual loss, **97:605**  
Optic disk cupping and pallor measurements of patients with a disk hemorrhage, **103:505**  
Prospective study of the ophthalmologic findings in the acquired immune deficiency syndrome, **97:133**  
Prospective study of the ophthalmologic findings in the acquired immune deficiency syndrome in Africa, **100:230**  
Retinal damage from subretinal hemorrhage (correspondence), **95:568**  
Retinal neovascularization and ocular toxoplasmosis, **98:585**  
Retinal tears with total vitreous hemorrhage, **95:659**  
Subretinal hemorrhage during fluorescein angiography (letter), **103:111**  
Suprachoroidal hemorrhage after glaucoma filtering surgery, **103:689**  
Suprachoroidal hemorrhage after glaucoma filtering surgery (correspondence), **104:444**  
Unilateral and asymmetric optic disk swelling with intracranial abnormalities, **96:484**  
Vascular leakage, neovascularization, and vitreous hemorrhage in senile bullous retinoschisis, **95:826**  
Vitreotomy for nondiabetic vitreous hemorrhage, **96:517**  
Vitreous hemorrhage nontoxic to retina as a stimulator of glial and fibrous proliferation, **97:611**

**Hepatitis B antigen**

- Hepatitis B surface antigen in corneal donors, **104:255**  
Hepatitis B surface antigen in human subretinal fluid (letter), **95:712**

**Herpes simplex**

- Acyclovir in the treatment of herpetic stromal disease, **98:537**  
Congenital herpes simplex retinitis, **102:33**  
Corneal transplantation for herpes simplex keratitis, **95:645**  
Corneal transplantation for herpes simplex keratitis (correspondence), **96:557**

Effect of the herpes simplex virus genome on the response of infection to corticosteroids, **100:114**

Herpes simplex chorioretinitis in a healthy adult, **96:788**

Progressive herpetic corneal endotheliitis (letter), **100:336**

Spontaneous resolution of herpes simplex blepharconjunctivitis in children, **102:598**

Spontaneous resolution of herpes simplex blepharconjunctivitis in children (correspondence), **103:340**

Superinfections in herpes simplex keratitis, **96:354**

Viability of herpes simplex virus type 1 on the applanation tonometer, **103:48**

**Herpesvirus**

Demonstration of herpes group virus in acute retinal necrosis syndrome, **102:701**

Factors related to the initiation and recurrence of uveitis. XL Edward Jackson Memorial Lecture, **96:577**

Herpesvirus inoculation of cornea, **97:482**

Immune complex containing herpesvirus antigen in a patient with acute retinal necrosis, **101:368**

Role of herpesvirus type 1 thymidine kinase in experimental ocular infections, **95:175**

**Herpes zoster**

Herpes zoster ophthalmicus in patients at risk for the acquired immune deficiency syndrome (AIDS), **101:153**

New fundus finding in patients with zoster ophthalmicus (letter), **102:532**

Oral acyclovir in the treatment of acute herpes zoster ophthalmicus (letter), **102:531**

Penetrating keratoplasty for exogenous *Paeclomyces* keratitis followed by postoperative endophthalmitis, **98:552**

Skin test with varicella-zoster virus antigen for ophthalmic herpes zoster, **98:7**

Skin test with varicella-zoster virus antigen for ophthalmic herpes zoster (correspondence), **98:825**

**Heterophoria**

Ocular deviation after retinal detachment surgery, **99:667**

**Heterotropia**

Ocular deviation after retinal detachment surgery, **99:667**

**Hibiclens**

Hibiclens keratitis, **104:50**

Hibiclens keratitis (correspondence), **104:670**

Hibiclens keratitis (correspondence), **104:670**

**Histamine**

Aspirin therapy in vernal conjunctivitis, **95:502**

Treatment of ragweed allergic conjunctivitis with cromolyn sodium 4% ophthalmic solution, **95:169**

**Histiocytoma**

Pleomorphic fibrous histiocytoma of the corneoscleral limbus (letter), **95:560**

**Histoplasmosis**

Subretinal neovascularization after experimental ocular histoplasmosis in a subhuman primate, 100:252

Subretinal neovascularization after experimental ocular histoplasmosis in a subhuman primate (correspondence), 101:132

**History of ophthalmology**

THE AMERICAN JOURNAL OF OPHTHALMOLOGY—100 years (editorial), 97:519

Commemorating '84 (letter), 97:654

Henle, Friedrich Gustav Jacob (1809-1885) (correspondence), 99:735

Henle, Friedrich Gustav Jacob (1809-1885) (editorial), 99:360

Horner, Johann Friedrich (1831-1886) (editorial), 102:792

National Institutes of Health—100 years (editorial), 103:706

Research to Prevent Blindness. 25th anniversary (editorial), 100:474

Twenty years (editorial), 100:324

**HLA**

Association of Gm allotypes with the occurrence of ankylosing spondylitis in HLA-B27-positive anterior uveitis, 98:732

Clinical features of acute anterior uveitis, 103:137

Expression of HLA antigens by cells in the human cornea, 98:763

Expression of HLA-DR antigen on retinal pigment epithelial cells in retinitis pigmentosa, 101:584

Factors related to the initiation and recurrence of uveitis. XL Edward Jackson Memorial Lecture, 96:577

Histocompatibility antigens in sympathetic ophthalmia, 95:216

Histocompatibility antigens in sympathetic ophthalmia (letter), 98:117

HLA-A, -B, and -DR antigenic factors in ocular sarcoidosis (letter), 96:396

HLA-B12 and HLA-B27 antigens in keratoplasty (letter), 97:245

HLA-B12 and HLA-B27 antigens in keratoplasty (correspondence), 98:245

Penicillamine-induced ocular myasthenia gravis, 99:66

**Horner's syndrome**

Cocaine test in normal patients (letter), 98:808

Observations on transsynaptic changes in acquired Horner's syndrome (letter), 95:837

Tadpole-shaped pupils caused by segmental spasm of the iris dilator muscle, 96:467

**Human immunodeficiency virus**

Confirmation of HTLV-III virus in cornea (letter), 102:390

Serologic markers after the transplantation of corneas from donors infected with human immunodeficiency virus, 103:798

Serologic markers after the transplantation of corneas from donors infected with human immunodeficiency virus (correspondence), 104:445

**Hyaloid**

Neodymium-YAG laser therapy to the anterior hyaloid in aphakic malignant (ciliovitreal block) glaucoma, 98:137

**Hyaluronic acid**

Topical application of hyaluronic acid and chondroitin sulfate in the treatment of dry eyes, 103:194

**Hydrocephalus**

Hydrocephalus and transient cortical blindness (letter), 98:819

**Hydrochlorothiazide**

Effect of a diuretic (hydrochlorothiazide) on tear production in humans, 99:473

**Hydroxychloroquine**

Discoid lupus erythematosus involving the eyelids, 98:32

Hydroxychloroquine crystals in the tear film of a patient with rheumatoid arthritis (letter), 101:377

Hydroxychloroquine therapy in massive total doses without retinal toxicity, 104:139

**Hydroxypropyl methylcellulose**

Use of hydroxypropyl methylcellulose in extracapsular cataract extraction with intraocular lens implantation, 102:723

Use of hydroxypropyl methylcellulose in extracapsular cataract extraction with intraocular lens implantation (correspondence), 103:727

**Hyperglycinemia**

Floppy eyelid with hyperglycinemia, 98:614

Floppy eyelid with hyperglycinemia (correspondence), 99:619

Floppy eyelid with hyperglycinemia (correspondence), 99:620

**Hyperkeratosis**

Palmar-plantar hyperkeratosis associated with bilateral keratopathy (letter), 102:280

**Hyperornithinemia**

Bilateral keratoconus in a patient with gyrate atrophy and hyperornithinemia (letter), 95:705

**Hyperoxemia**

Hyperoxemic retinal necrosis in the premature neonate (correspondence), 103:343

Hyperoxemic retinal neuronal necrosis in the premature neonate, 102:423

Hyperoxemic retinal neuronal necrosis in the premature neonate (correspondence), 103:726

Neuronal necrosis and hyperoxemia in premature infants (correspondence), 104:96

**Hyperplasia**

Angiolymphoid hyperplasia with eosinophilia (Kimura's disease) of the orbit and ocular adnexa, 96:176

Scleral hyperplasia induced by heat, 102:25

**Hypertension**

- Clinical profile and long-term implications of anterior ischemic optic neuropathy, 96:478
- Intraocular hypertension resulting from pupillary block by silicone oil (letter), 99:87
- Lack of correlation between ocular hypertensive response to topical corticosteroids and progression of retinopathy in insulin-dependent diabetes mellitus, 96:52
- Levobunolol vs timolol for open-angle glaucoma and ocular hypertension, 99:11
- Minimum concentration of levobunolol required to control intraocular pressure in patients with primary open-angle glaucoma or ocular hypertension, 99:18
- Possible cardiovascular effects secondary to topical ophthalmic 2.5% phenylephrine (letter), 99:362
- Unilateral and asymmetric optic disk swelling with intracranial abnormalities, 96:484
- Visual field defects in idiopathic intracranial hypertension (pseudotumor cerebri), 96:654

**Hyperthermia**

- Ultrasonic hyperthermia and radiation in the management of intraocular malignant melanoma, 101:635

**Hyperthreoinemia**

- Leber's congenital amaurosis associated with hyperthreoinemia, 101:475

**Hypertropia**

- Compensatory head positions in muscle palsies (letter), 101:383

**Hyphema**

- Aspirin and recurrent hyphema after blunt ocular trauma, 96:797
- Aspirin and recurrent hyphema after blunt ocular trauma (correspondence), 97:663
- Sodium hyaluronate, hyphema, and vitreoretinal surgery (letter), 101:738

**Hypnosis**

- Practical hypnotic suggestion in ophthalmic surgery, 96:540

**Hypopyon**

- Hypopyon keratouveitis in acute angle-closure glaucoma (letter), 104:430
- Successful treatment of fungal keratitis caused by *Paccilomyces lilacinus* (letter), 98:626; correction, 98:835

**Hypotension**

- Local ocular hypotensive effect of topically applied acetazolamide (correspondence), 99:92
- Vascular hypotension and bradycardia following intraocular injection of acetylcholine during cataract surgery, 97:40

**Hypotony**

- Hypotony after rotation of an intraocular lens haptic into a cyclodialysis cleft (letter), 101:736
- Hypotony and choroidal detachment as late complications of trabeculectomy, 103:685
- Hypotony as a late complication of extracapsular cataract extraction (letter), 96:112

Temporary visual loss with ciliary body detachment and hypotony after attempted YAG laser repair of failed filtering surgery, 101:305

Treatment of a cyclodialysis cleft with argon laser photocoagulation in a patient with a shallow anterior chamber, 99:5

**Hypotropia**

Extraocular muscle surgery for dysthyroid myopathy, 95:767

**I****Imipenem**

Penetration of imipenem into human aqueous and vitreous humor, 104:649

**Immunoglobulin**

- Effect of timolol on the concentrations of albumin and IgG in the aqueous humor of the human eye, 96:726
- IgG specific antibodies to rye grass and ragweed pollen antigens in the tear secretions of patients with vernal conjunctivitis, 95:161
- Tear immunoglobulins in giant papillary conjunctivitis induced by contact lenses, 96:460
- Tear immunoglobulins in giant papillary conjunctivitis induced by contact lenses (correspondence), 97:397

**Immunology**

- Absolute IgG4 deficiency and recurrent bacterial blepharokeratoconjunctivitis (letter), 98:243
- Acquired immune deficiency syndrome (editorial), 97:240
- Acquired immune deficiency syndrome retinopathy, pneumocystis, and cotton-wool spots (editorial), 98:235
- Acute retinal necrosis in an immunosuppressed patient (letter), 98:515
- Antiviral therapy for cytomegalovirus retinitis in AIDS with dihydroxy propoxymethyl guanine, 101:405
- Association of Gm allotypes with the occurrence of ankylosing spondylitis in HLA-B27-positive anterior uveitis, 98:732
- Bilateral angle-closure glaucoma in association with the acquired immune deficiency syndrome, 101:419
- Endogenous iridocyclitis relieved during treatment with bromocriptine (letter), 100:618
- Expression of HLA antigens by cells in the human cornea, 98:763
- Expression of HLA-DR antigen on retinal pigment epithelial cells in retinitis pigmentosa, 101:584
- Factors related to the initiation and recurrence of uveitis. XL Edward Jackson Memorial Lecture, 96:577
- Graft rejection and glaucoma, 101:294
- Herpes zoster ophthalmicus in patients at risk for the acquired immune deficiency syndrome (AIDS), 101:153
- HTLV-III screening by eye banks (correspondence), 101:385

- Human T-cell leukemia/lymphotropic virus type III in the conjunctival epithelium of a patient with AIDS, **100:507**
- Immune complex containing herpesvirus antigen in a patient with acute retinal necrosis, **101:368**
- Immunocytochemical demonstration of prealbumin in the vitreous in hereditary familial amyloidosis, **97:296**
- Immunohistochemical and ultrastructural study of unusual IgM lambda lymphoplasmacytic tumor of the lacrimal gland, **101:451**
- Immunohistochemistry of retinoblastomas in humans, **97:301**
- Immunologic basis for the pathogenesis of pterygium, **98:225**
- Immunosuppressive agents in penetrating keratoplasty, **100:61**
- Immunosuppressive therapy in ocular cicatricial pemphigoid, **96:453**
- Impact of the AIDS epidemic on corneal transplantation (editorial), **100:610**
- Isolation of the human T-cell leukemia/lymphotropic virus type III from the cornea, **101:149**
- Lack of evidence for protein AA reactivity in amyloid deposits of lattice corneal dystrophy and amyloid corneal degeneration, **98:216**
- Lymphocyte subpopulations before therapy in patients with uveal malignant melanoma, **101:160**
- Lymphocyte subpopulations in uveal malignant melanoma (editorial), **101:483**
- Monoclonal antibodies in ophthalmology (editorial), **99:720**
- Natural killer cell activity in patients with Behçet's disease (letter), **98:813**
- Natural killer cells against human corneal endothelium, **99:524**
- Ocular findings in the candidiasis-endocrinopathy syndrome (letter), **99:486**
- Perivasculitis of the retinal vessels as an important sign in children with AIDS-related complex (letter), **100:614**
- Retinal vasculitis associated with autoantibodies to Sjögren's syndrome A antigen, **100:814**
- Retinitis pigmentosa associated with a defect in the production of interferon-gamma, **96:755**
- Risk posed by HTLV-III-infected corneal donor tissue (editorial), **101:246**
- Successful treatment of fungal keratitis caused by *Paecilomyces lilacinus* (letter), **98:626**; correction, **98:835**
- Treatment of cytomegalovirus retinitis with dihydroxy propoxymethyl guanine, **101:95**
- Indomethacin**
- Effect of indomethacin on the ocular hypotensive action of timolol maleate, **98:79**
- Effect of topical indomethacin and timolol maleate on intraocular pressure in normal subjects, **99:576**
- Incidence of cystoid macular edema after retinal detachment surgery and the use of topical indomethacin, **95:451**
- Influence of indomethacin on retinopathy of prematurity (letter), **96:254**
- Inhibition of the epinephrine-induced reduction of intraocular pressure by systemic indomethacin in humans, **100:169**
- Topical indomethacin therapy before argon laser trabeculoplasty, **99:571**
- Infants**
- Amniotic bands as a cause of ocular anomalies, **104:270**
- Assessing levator palpebrae superioris muscle function in infants (letter), **98:377**
- Clinical implications of bilateral microphthalmos with cyst, **97:632**
- Congenital corneal opacification secondary to Bowman's layer dysgenesis, **98:320**
- Congenital herpes simplex retinitis, **102:33**
- Corneal curvatures in premature infants (letter), **98:627**; correction, **98:835**
- Corneal ulcer caused by *Shigella flexneri* in an infant (letter), **104:90**
- False-normal assays for galactosemia in a neonate with cataracts (letter), **100:342**
- Genetic linkage analysis of autosomal dominant congenital cataracts, **101:218**
- Histopathologic and ultrastructural analysis of congenital corneal staphyloma, **95:506**
- Histopathologic study of ocular changes in a syndrome of multiple congenital anomalies, **103:701**
- Hyperoxemic retinal necrosis in the premature neonate (correspondence), **103:343**
- Hyperoxemic retinal neuronal necrosis in the premature neonate, **102:423**
- Hyperoxemic retinal neuronal necrosis in the premature neonate (correspondence), **103:726**
- Incidence of strabismus in neonates, **100:798**
- Influence of indomethacin on retinopathy of prematurity (letter), **96:254**

- Miconazole and ketoconazole as a satisfactory first-line treatment for keratomycosis (correspondence), 102:547
- Oral ketoconazole therapy for keratomycosis, 95:342
- Keratopathy**
- Aldose reductase in the diabetic eye. XLIII Edward Jackson Memorial Lecture, 102:685
- Compression keratopathy, 102:208
- Diabetic keratopathy as a manifestation of peripheral neuropathy, 96:368
- Foreign-body giant cell reaction to liquid silicone, 101:680
- Haemophilus aphrophilus* as a cause of crystalline keratopathy (letter), 104:89
- Infectious crystalline keratopathy, 97:337
- Iridoschisis associated with glaucoma and bullous keratopathy, 95:73

Keratopathy associated with the use of naproxen (letter), 99:598

Palmar-plantar hyperkeratosis associated with bilateral keratopathy (letter), 102:280

Quinidine keratopathy (letter), 97:247

Results of penetrating keratoplasty for aphakic and pseudophakic bullous keratopathy, 98:302

#### Keratoplasty

Aphakic extended-wear contact lenses after penetrating keratoplasty, 95:156

Application of mizoribine after keratoplasty and in the treatment of uveitis, 100:161

Bacterial endophthalmitis associated with vitreous wick after penetrating keratoplasty (letter), 100:854

Clinical, electron microscopic, and immunohistochemical study of the corneal endothelium and Descemet's membrane in the iridocorneal endothelial syndrome, 101:16

Clinicopathologic studies of keratoplasty eyes obtained post mortem, 101:28

Corneal curvatures in premature infants (letter), 98:627; correction, 98:835

Corneal endothelium in penetrating keratoplasty, 102:66

Corneal transplantation for herpes simplex keratitis, 95:645

Crescentic lamellar keratoplasty for pellucid marginal degeneration (letter), 96:253

Crescentic lamellar keratoplasty for pellucid marginal degeneration (correspondence), 97:250

Dental mirror for goniosynechialysis during penetrating keratoplasty (letter), 100:331

Diagnosis of epithelial downgrowth after keratoplasty, 99:697

Eccentric corneal grafts (letter), 101:113

Effect of epidermal growth factor on epithelial healing after penetrating keratoplasty in human eyes, 98:411

Effect of trephine tilt on corneal button dimensions, 101:722

Effects of retinal detachment repair on clear corneal grafts, 101:164

Endophthalmitis after penetrating keratoplasty, 95:651

Factors associated with glaucoma after penetrating keratoplasty, 96:160

Fitting gas-permeable contact lenses after penetrating keratoplasty, 99:511

Fitting gas-permeable contact lenses after penetrating keratoplasty (correspondence), 100:491

Fixation for keratoplasty trephination (letter), 103:112

Histopathologic and ultrastructural analysis of congenital corneal staphyloma, 95:506

HLA-B12 and HLA-B27 antigens in keratoplasty (letter), 97:245

HLA-B12 and HLA-B27 antigens in keratoplasty (correspondence), 98:245

Immunosuppressive agents in penetrating keratoplasty, 100:61

K-Sol corneal preservation, 100:299

Late wound dehiscence after penetrating keratoplasty in association with digital massage (letter), 102:391

Myopic shift in refraction after penetrating keratoplasty with pediatric donor tissue (letter), 101:740

*Neisseria meningitidis* conjunctivitis (letter), 97:104

Ocular concentration of gentamicin after penetrating keratoplasty, 101:44

Outpatient keratoplasty, 100:276

Outpatient keratoplasty (correspondence), 100:858

Penetrating keratoplasty after placement of a temporary keratoprosthesis during pars plana vitrectomy, 102:45

Penetrating keratoplasty combined with extracapsular cataract extraction, 100:129

Penetrating keratoplasty for exogenous *Paeclomyces* keratitis followed by postoperative endophthalmitis, 98:552

Penetrating keratoplasty with trabeculectomy, 100:593

Peristomal covering pads to avoid tape-induced skin irritation (letter), 95:567

Pigment dispersion syndrome in pseudophakic corneal transplants, 102:762

Postoperative astigmatism after central vs eccentric penetrating keratoplasties, 99:317

Precarved lyophilized tissue for lamellar keratoplasty in recurrent pterygium, 102:222

Randomized trial of pressure patching for epithelial defects after keratoplasty, 95:637

Recurrence of macular corneal dystrophy within grafts, 95:60

Recurrence of the clinical signs of lattice corneal dystrophy (type I) in corneal transplants, 97:210

Recurrent crystal deposition after keratoplasty in nephropathic cystinosis (letter), 104:190

Reduction of astigmatism after keratoplasty, 103:477

Reduction of astigmatism after keratoplasty (correspondence), 103:844

Results of penetrating keratoplasty for aphakic and pseudophakic bullous keratopathy, 98:302

Results of penetrating keratoplasty in the iridocorneal endothelial syndrome, 98:297

Rotating slit delivery system for excimer laser refractive keratoplasty, 103:474

Secondary intraocular lens implantation during or after corneal transplantation, 99:515

Serial alterations in endothelial cell shape and pattern after intraocular surgery, 98:313

**Keratoprosthesis**

Instrument for placement of temporary keratoprosthesis during pars plana vitrectomy (letter), 95:718

Spontaneous unscrewing of a Cardona keratoprosthesis (letter), 103:331

**Keratotomy**

Comparison of two methods of marking the visual axis on the cornea during radial keratotomy, 96:605

Comparison of two methods of marking the visual axis on the cornea during radial keratotomy (correspondence), 97:660

Corneal wound healing after excimer laser keratotomy in a human eye, 103:454

Corticosteroid therapy after anterior radial keratotomy in primates, 97:215

Globe rupture from blunt trauma after hexagonal keratotomy (letter), 103:241

Practical hypnotic suggestion in ophthalmic surgery, 96:540

Regional specular microscopy (letter), 96:686

**Keratouveitis**

Hypopyon keratouveitis in acute angle-closure glaucoma (letter), 104:430

**Ketamine**

Use of xylazine-ketamine anesthetic for intraocular surgery on rabbits (letter), 99:614

**Ketoconazole**

Miconazole and ketoconazole as a satisfactory first-line treatment for keratomycosis, 101:605

Miconazole and ketoconazole as a satisfactory first-line treatment for keratomycosis (correspondence), 102:547

Oral ketoconazole therapy for keratomycosis, 95:342

Topical ketoconazole for experimental *Candida* keratitis in rabbits, 102:522

Topical ketoconazole for fungal keratitis, 100:293

Treatment of *Aspergillus fumigatus* keratitis in rabbits with oral and topical ketoconazole, 99:476

Treatment of *Aspergillus fumigatus* keratitis in rabbits with oral and topical ketoconazole (correspondence), 100:356

**Kimura's disease**

Angiolymphoid hyperplasia with eosinophilia (Kimura's disease) of the orbit and ocular adnexa, 96:176

**Kjellin's syndrome**

Fleck retina in Kjellin's syndrome, 99:45

Fleck retina in Kjellin's syndrome (correspondence), 99:618

Fleck retina in Kjellin's syndrome (correspondence), 99:738

**Klebsiella sp.**

Rhinoscleroma with bilateral orbital involvement (letter), 101:381

Superinfections in herpes simplex keratitis, 96:354

**Klinefelter's syndrome**

Uveal colobomas and Klinefelter's syndrome (letter), 98:241

**Kniest dysplasia**

Ocular findings in Kniest dysplasia, 100:155

Ocular findings in Kniest dysplasia (correspondence), 100:860

**L****Labeling system**

A supplemental labeling system for topical medications (letter), 103:335

**Lacrimal apparatus**

Absent meibomian glands in the ectrodactyly, ectodermal dysplasia, cleft lip-palate syndrome, 97:496

Bilateral injection of contrast medium for dacryocystography (letter), 95:117

Complete canalicular erosion associated with silicone stents (letter), 101:382

Congenital absence of the lacrimal gland (letter), 102:800

Diagnosing sarcoidosis by transconjunctival biopsy of the lacrimal gland, 97:573

Diagnosing sarcoidosis by transconjunctival biopsy of the lacrimal gland (correspondence), 98:640

Expansion of the lacrimal gland fossa by a lymphoid tumor (letter), 96:546

Immunohistochemical and ultrastructural study of unusual IgM lambda lymphoplasmacytic tumor of the lacrimal gland, 101:451

Improved lacrimal irrigating cannula (letter), 96:120

Lacrimal drainage obstruction from lacrimal sac infiltration by lymphocytic neoplasia, 101:242

Lacrimal drainage system inflammatory masses from retained silicone tubing, 98:609

Lacrimal gland abscess (letter), 104:193

Lacrimal surgery in children, 99:27

Laser punctoplasty for the treatment of punctal stenosis (letter), 100:341

Method of removing displaced silicone tubing from the nasolacrimal duct system (letter), 99:730

New punctum plug (letter), 100:619

Ocular findings in the facioauriculovertebral sequence (Goldenhar-Gorlin syndrome), 100:555

Role of aminocaproic acid in lacrimal surgery in dyskeratosis congenita, 100:728

Silastic button for nasolacrimal intubation (letter), 97:528

Silicone intubation (correspondence), 95:570

Sodium hyaluronate (Healon) as an adjunct to lacrimal surgery (letter), 99:365

Surgical correction of punctal malposition (letter), 100:339

**Lagophthalmos**

Lagophthalmos in acquired oculomotor synkinesis, 98:747

**Lamina cribrosa**

- Extracellular matrix of the human lamina cribrosa, 104:567
- Extracellular matrix of the human optic nerve head, 102:139
- Morphologic changes in the lamina cribrosa correlated with neural loss in open-angle glaucoma, 95:673

**Laser**

- Accidental YAG laser burn (letter), 98:116; correction, 98:828
- Argon laser photocoagulation for diabetic retinopathy in a patient with hemophilia (letter), 98:818
- Argon laser photocoagulation for macular edema in branch vein occlusion, 98:271
- Argon laser photocoagulation for macular edema in branch vein occlusion (editorial), 98:374
- Argon laser photocoagulation for macular edema in branch vein occlusion (correspondence), 99:218
- Argon laser photomydriasis during vitrectomy surgery (letter), 99:366
- Argon laser trabeculoplasty as a means of decreasing intraocular pressure from "normal" levels in glaucomatous eyes, 99:704
- Argon laser trabeculoplasty in pigmentary dispersion syndrome with glaucoma, 96:721
- Argon laser trabeculoplasty in younger patients with primary open-angle glaucoma, 97:292
- Argon laser treatment of a bleeding iris vascular tuft (letter), 101:379
- Argon laser treatment of the ciliary processes in aphakic glaucoma with flat anterior chamber, 97:82
- Argon photocoagulation through the operating microscope, 102:666
- Autopsy eye model for laser trabeculoplasty and iridectomy (letter), 102:664
- Biconcave contact lens for examination and laser treatment of the fundus in normal and gas-filled phakic eyes (letter), 98:806
- Capsulectomy and membranectomy with the argon laser, 95:794
- Capsulectomy and membranectomy with the argon laser (correspondence), 96:554
- Carbon dioxide laser surgery in hemophilia (letter), 96:689
- Carbon dioxide laser therapy of *Pseudomonas aeruginosa* keratitis (letter), 97:791
- Contact laser scalpel for intraocular surgery, 102:663; correction, 103:122
- A controlled five-year follow-up study of laser trabeculoplasty as primary therapy for open-angle glaucoma, 104:334
- Corneal endothelial changes after argon laser iridotomy, 98:153
- Corneal endothelial trauma after Descemet's membranotomy with the neodymium-YAG laser (letter), 99:484
- The corneal endothelium after laser therapy for glaucoma, 103:518
- Corneal wound healing after excimer laser keratotomy in a human eye, 103:454
- Delayed choroidal vascular filling after krypton laser photocoagulation, 99:154
- Direct, indirect, and sham laser photocoagulation in the management of central serous chorioretinopathy, 95:457
- Dynamics of the ultraviolet laser ablation of corneal tissue, 103:470
- Effect of cataract surgery on intraocular pressure reduction obtained with laser trabeculoplasty (correspondence), 101:133
- Effect of trabecular photocoagulation on the aqueous humor dynamics of the human eye, 96:139
- Effects of corticosteroid pretreatment on argon laser trabeculoplasty, 96:84
- Effects of corticosteroid pretreatment on argon laser trabeculoplasty (correspondence), 96:693
- Endoexcimer laser intraocular ablative photodecomposition (letter), 99:483
- Endoexcimer laser intraocular ablative photodecomposition (correspondence), 101:130
- Endophotocoagulation in vitrectomy with a carbon dioxide laser, 101:445
- Estimation of the maximum number of argon laser burns possible in panretinal photocoagulation, 97:697
- Evolution of laser technology in ophthalmology (editorial), 99:480; correction, 99:745
- Excimer laser cut lenticles for epikeratophakia, 103:475
- Excimer laser photoablation in glaucoma filtering surgery (letter), 103:713
- Excimer laser surgery of the cornea, 96:710
- Excimer laser therapy for experimental *Candida* keratitis, 99:534
- Factors influencing the outcome of laser trabeculoplasty, 99:388
- Factors influencing the outcome of laser trabeculoplasty (correspondence), 100:620
- Fire hazard of carbon dioxide laser surgery (letter), 98:817
- Fluorescein in laser sclerostomy (letter), 104:432
- Fluorophotometric study of the effect of argon laser trabeculoplasty on aqueous humor dynamics, 99:579
- Glare measurements before and after neodymium-YAG laser posterior capsulotomy, 100:708
- Grand mal seizure during argon laser panretinal photocoagulation (letter), 103:116
- Grid photocoagulation for macular edema in patients with retinitis pigmentosa, 103:161
- High-efficiency laser iridotomy-sphincterotomy lens, 101:546
- High-efficiency laser iridotomy-sphincterotomy lens (correspondence), 102:670

- Immediate intraocular pressure response to argon laser trabeculoplasty, 95:279
- Immediate intraocular pressure response to argon laser trabeculoplasty (correspondence), 96:122
- Influence of the number of laser burns administered on the early results of argon laser trabeculoplasty, 95:287
- Intermediate-term changes in intraocular pressure after neodymium-YAG laser posterior capsulotomy (letter), 100:332
- Intraocular argon laser photocoagulation in the management of severe proliferative vitreoretinopathy, 97:434
- Intraoperative argon endophotocoagulation for recurrent vitreous hemorrhage after vitrectomy for diabetic retinopathy, 103:146
- Keratorefractive surgery with the excimer laser (letter), 100:741
- Laser interferometric prediction of postoperative visual acuity in patients with cataracts, 95:626
- Laser iridectomy in the management of chronic angle-closure glaucoma, 98:446

- Unilateral systemic lupus erythematosus retinopathy (correspondence), **96:553**
- Lymphangioma**
- Eyelid ecchymosis and proptosis in lymphangioma (letter), **100:486**
- Magnetic resonance imaging of orbital lymphangiomas (letter), **103:724**

Surgical management of orbital lymphangioma with the carbon dioxide laser, 102:308

### Lymphocyte

Cyclosporin A therapy in the treatment of intraocular inflammatory disease resistant to systemic corticosteroids and cytotoxic agents, 96:275

Factors related to the initiation and recurrence of uveitis. XL Edward Jackson Memorial Lecture, 96:577

Herpes zoster ophthalmicus in patients at risk for the acquired immune deficiency syndrome (AIDS), 101:153

HLA-B12 and HLA-B27 antigens in keratoplasty (letter), 97:245

HTLV-III screening by eye banks (correspondence), 101:385

Identification of T lymphocytes in ocular adnexal neoplasms by hybridoma monoclonal antibodies, 95:233

Iris lymphocytic infiltration in patients with clinically quiescent uveitis, 104:508

Isolation of the human T-cell leukemia/lymphotropic virus type III from the cornea, 101:149

Lymphocyte subpopulations before therapy in patients with uveal malignant melanoma, 101:160

Lymphocyte subpopulations in uveal malignant melanoma (editorial), 101:483

Natural killer cell activity in patients with Behçet's disease (letter), 98:813

Natural killer cells against human corneal endothelium, 99:524

Ocular inflammatory disease. The lymphocyte redivivus (editorial), 96:384

Retinitis pigmentosa associated with a defect in the production of interferon-gamma, 96:755

Risk posed by HTLV-III-infected corneal donor tissue (editorial), 101:246

Serologic and immunopathologic findings in temporal arteritis, 96:283

Skin test with varicella-zoster virus antigen for ophthalmic herpes zoster (correspondence), 98:825

T-lymphocyte subsets in the aqueous humor and peripheral blood of patients with acute untreated uveitis, 98:62

T lymphocyte subsets in uveitis, 95:614

Toxoplasmic retinochoroiditis as an initial manifestation of the acquired immune deficiency syndrome (letter), 101:248

### Lymphokine

Retinitis pigmentosa associated with a defect in the production of interferon-gamma, 96:755

### Lymphoma

Clinical, morphologic, immunophenotypic, and molecular genetic analysis of bilateral ocular adnexal lymphoid neoplasms in 17 patients, 103:555

Histopathologic study of 716 unselected eyes in patients with cancer at the time of death, 95:788

Immunohistochemical and ultrastructural study of unusual IgM lambda lymphoplasmacytic tumor of the lacrimal gland, 101:451

Polymorphic B-cell lymphoma of the eyelid (letter), 98:634

## M

### Macula

Abnormal glucose metabolism and parafoveal telangiectasia, 102:363

Absence of normal keratan sulfate in the blood of patients with macular corneal dystrophy, 102:561

Adult vitelliform macular detachment occurring in patients with basal laminar drusen, 99:445

Age-related macular degeneration (letter), 98:376

Alternative method of removing preretinal blood with the extrusion handpiece (letter), 96:251

Anomalous macular vessel and associated acquired paracentral scotoma (letter), 96:808

Anterior surgical approach to aphakic cystoid macular edema, 95:811

Apparent disappearance of a macular hole associated with development of an epiretinal membrane, 102:172

Argon laser photocoagulation for macular edema in branch vein occlusion, 98:271

Argon laser photocoagulation for macular edema in branch vein occlusion (editorial), 98:374

Argon laser photocoagulation for macular edema in branch vein occlusion (correspondence), 99:218

Avascular zone in the macula in cicatricial retinopathy of prematurity, 99:235

Changing perspectives on vitrectomy for complications of diabetic retinopathy (editorial), 95:115

Clinical, fluorescein angiographic, and electron microscopic correlation of cystoid macular edema, 100:82

Clinicopathologic studies of keratoplasty eyes obtained post mortem, 101:28

Corneal shield to prevent light-induced maculopathy during cataract surgery (letter), 97:658

Corneal thinning in macular corneal dystrophy (letter), 101:112

Cyclic macular edema (correspondence), 95:403

Cyclic macular edema (correspondence), 95:719

Cyclosporin A therapy in the treatment of intraocular inflammatory disease resistant to systemic corticosteroids and cytotoxic agents, 96:275

Detection of specific extracellular matrix molecules in drusen, Bruch's membrane, and ciliary body, 104:373

Diagnosis and pathogenesis of retinal pigment epithelial tears, 100:698

Diffuse drusen and associated complications, 100:119

Echographic localization of corticosteroids after periocular injection, 103:281

Effect of primary capsulotomy with extracapsular surgery on the incidence of pseudophakic cystoid macular edema, 98:166

Effect on the retina of an air cushion in the anterior chamber and coaxial illumination, 96:600

- Endodiathermy for retinal detachment with macular hole (correspondence), 95:405
- Evelution of benign concentric annular macular dystrophy, 100:73
- Experience with intraocular lens implants in patients with diabetes, 96:94

- Geographic atrophy of the retinal pigment epithelium, 102:621
- Graphics composition of fundus data, 98:728
- Grid photocoagulation for macular edema in patients with retinitis pigmentosa, 103:161
- Grid photocoagulation for macular edema in patients with retinitis pigmentosa (correspondence), 104:94
- High blood pressure in choroidal arteries as a possible pathogenetic mechanism in senile macular degeneration (letter), 96:398
- Idiopathic macular holes, 99:437
- Incidence of cystoid macular edema after retinal detachment surgery and the use of topical indomethacin, 95:451
- Intraocular cysticercosis, 99:252
- Laser interferometric prediction of postoperative visual acuity in patients with cataracts, 95:626
- Light-induced maculopathy from the operating microscope (letter), 98:628
- Lightning-induced macular hole (letter), 97:792
- Lightning-induced macular hole (correspondence), 99:89
- Macula photocoagulation lens (letter), 101:619
- Macular arteriolar occlusions in sickle cell beta-thalassemia (letter), 101:739
- Macular development in the premature infant, 101:74
- Macular edema and pregnancy in insulin-dependent diabetes, 97:154
- Macular edema in association with severe carotid artery obstruction, 102:442
- Macular hemorrhages associated with posterior vitreous detachment, 102:647
- Macular reflexes in optic atrophy, 98:494
- Management of choroidal neovascularization within the foveal avascular zone in senile macular degeneration, 95:818
- New observations on vitiligo and ocular disease, 96:16
- Ocular clinicopathologic correlation of Hallervorden-Spatz syndrome with acanthocytosis and pigmentary retinopathy, 95:369
- Ocular histopathologic studies of neonatal and childhood adrenoleukodystrophy, 95:82
- Partial occlusion of the central retinal vein, 96:330
- Penetrating keratoplasty combined with extracapsular cataract extraction, 100:129
- Peters' anomaly associated with partial deletion of the long arm of chromosome 11, 97:11
- Posterior vitreous detachment and idiopathic preretinal macular gliosis, 102:196
- Prevalence of macular drusen in postmortem eyes, 102:164
- Prevalence of macular drusen in postmortem eyes (correspondence), 102:801
- Pulfrich stereo-illusion phenomenon in serous sensory retinal detachment of the macula, 100:576
- Recurrence of macular corneal dystrophy within grafts, 95:60
- Recurrences and bilaterality in the multiple evanescent white-dot syndrome (correspondence), 101:388
- Relationship of senile macular degeneration to ocular pigmentation, 99:185
- Results of penetrating keratoplasty for aphakic and pseudophakic bullous keratopathy, 98:302
- Retinal fluorescein leakage in retinitis pigmentosa, 101:354
- Role of the vitreous in idiopathic preretinal macular fibrosis, 101:166
- Senile reticular pigmentary degeneration, 98:717
- Serous detachments of the macula associated with presumed small choroidal melanomas, 102:176
- Simplified method of treating retinal detachment with macular hole (letter), 97:243
- Subretinal choroidal neovascularization in bird-shot retinoidopathy, 99:40
- Subretinal neovascularization in senile macular degeneration, 97:143
- Treatment of diabetic traction retinal detachment with the pulsed neodymium-YAG laser, 99:258
- Treatment of macular hole retinal detachments with intravitreal gas (letter), 98:811
- Use of the infrared fundus reflection for an identification device (letter), 98:636
- Vitrectomy for diabetic rhegmatogenous retinal detachment, 95:34
- Vitrectomy for diabetic traction retinal detachment involving the macula, 95:22
- Vitreous fluorophotometry in pars planitis, 95:189; correction, 95:740
- YAG laser treatment of cystoid macular edema, 95:589
- YAG laser treatment of cystoid macular edema (correspondence), 96:407
- YAG laser treatment of cystoid macular edema (correspondence), 96:556
- Maculopathy**
- Isolated exudative maculopathy in retinitis pigmentosa (letter), 103:834
- Light-induced maculopathy, 98:488
- Maculopathy associated with combination chemotherapy and osmotic opening of the blood-brain barrier, 102:626
- Welding arc maculopathy (letter), 102:394

**Magnetic resonance**

Orbital magnetic resonance imaging, 100:312

**Magnetic resonance imaging**

Cavernous hemangioma of the retina, cutaneous angiomas, and intracranial vascular lesion by computed tomography and nuclear magnetic resonance imaging, 98:483

Characterization of human uveal melanoma cells by phosphorus 31 nuclear magnetic resonance spectroscopy, 100:38

Clinicoradiographic correlation of bilateral horizontal gaze palsy and slowed vertical saccades with midline dorsal pontine lesion on magnetic resonance imaging (letter), 101:118

Incidence of subcortical lesions not increased in nonarteritic ischemic optic neuropathy on magnetic resonance imaging, 104:398

Magnetic resonance imaging in neuro-ophthalmic rostral brain-stem syndromes (letter), 103:239

Magnetic resonance imaging of craniopharyngioma, 102:242

Magnetic resonance imaging of metal loop intraocular lenses (letter), 104:427

Magnetic resonance imaging of optic gliomas, 100:596

Magnetic resonance imaging of optic tract involvement in multiple sclerosis, 104:74

Magnetic resonance imaging of orbital lymphangiomas (letter), 103:724

Metabolic imaging in hemianopsia using positron emission tomography with <sup>18</sup>F-deoxyfluoroglucose, 101:310

Nuclear magnetic resonance imaging of intraocular tumors, 102:438

Nuclear magnetic resonance imaging of subretinal fluid, 102:640

Safety of magnetic resonance imaging with intraorbital metallic objects after retinal reattachment or trauma (letter), 103:831

**Mannitol**

Comparison of the effects of Viscoat and Healon on postoperative intraocular pressure (correspondence), 101:389

**Marcus Gunn jaw-winking**

Eyelid suspension with a transposed levator palpebrae superioris muscle, 100:308

**Maxillary sinus**

Cause of enophthalmos secondary to maxillary sinus mucocoele (letter), 95:838

**Medical abbreviations**

Use of abbreviations in medical literature (letter), 101:113

**Meetings, Conferences, Symposia**

Association of Ophthalmic Alumni of the Armed Forces Institute of Pathology. Tenth biennial meeting (RODMAN, H.), 96:681

Association of Ophthalmic Alumni of the Armed Forces Institute of Pathology. 11th biennial meeting (RODMAN, H. I.), 100:627

Dedication of the A. Edward Maumenee Building of the Wilmer Ophthalmological Institute (WELCH, R. B., and PATZ, A.), 96:97

Dedication of the Joseph A. C. Wadsworth building of Duke University Eye Center (SHIELDS, M. B.), 96:98

Department of Ophthalmology, University of Toronto, 25th Annual Research Meeting (BASU, P. K.), 96:378

French Society of Ophthalmology. Centennial Celebration (SARAUX, H.), 96:246

International Council of Ophthalmology meeting, Paris, May 6, 1983 (FRANÇOIS, J.), 96:382

Keratoprosthesis conference (GIRARD, L.), 97:263

National Eye Institute. Symposium on experimental eye pathology (NEWELL, F. W.), 99:501

Ocular Microbiology and Immunology Group. 17th Annual Meeting (SMOLIN, G.), 95:246

Ocular Microbiology and Immunology Group. 18th Annual Meeting (SMOLIN, G.), 97:257

Ocular Microbiology and Immunology Group. 19th Annual Meeting (SMOLIN, G.), 99:223

Ocular Microbiology and Immunology Group. 20th Annual Meeting (SMOLIN, G.), 100:864

21st Annual Meeting of the Ocular Microbiology and Immunology Group (FRIEDLAENDER, M. H.), 103:605

13th Pupil Colloquium (THOMPSON, H. S.), 96:100

14th Pupil Colloquium (THOMPSON, H. S.), 100:497

15th Pupil Colloquium (THOMPSON, H. S.), 102:551

XIV Pan American Congress of Ophthalmology (NEWELL, F. W.), 96:377

XXIV International Congress of Ophthalmology and the American Academy of Ophthalmology Joint Meeting (NEWELL, F. W.), 95:110

XXV International Congress of Ophthalmology (NEWELL, F. W.), 101:755

**Meibomian gland**

Absent meibomian glands in the ectrodactyly, ectodermal dysplasia, cleft lip-palate syndrome, 97:496

Chemical blepharitis following drug treatment (letter), 95:703

Demodectic infestation of the meibomian glands (letter), 95:261

Recurrence of sebaceous carcinoma of the eyelid after radiation therapy, 96:10

Solitary tumors of meibomian gland origin and Torre's syndrome, 104:179

**Melanocytoma**

Iris melanocytoma with secondary glaucoma (letter), 97:797

**Melanoma**

Activation of ciliary body melanoma metastasis after abdominal surgery (letter), 99:209

Adrenochrome staining of senile plaque resembling malignant melanoma (letter), 101:380

Antigens in ocular and cutaneous melanomas (letter), 96:394

Association between iris color and iris melanocytic lesions, 100:547

- Characterization of human uveal melanoma cells by phosphorus 31 nuclear magnetic resonance spectroscopy, 100:38
- Choroidal malignant melanoma appearing as acute panophthalmitis, 101:249
- Choroidal malignant melanoma appearing as acute panophthalmitis (correspondence), 101:744
- Choroidal malignant melanoma in siblings, 96:675
- Clinical, fluorescein angiographic, and electron microscopic correlation of cystoid macular edema, 100:82
- Clinicopathologic report of successful cobalt 60 plaque therapy for choroidal melanoma, 100:828
- Color as a risk factor in iris melanoma, 98:558
- Comparison of survival rates for patients with uveal melanoma after treatment with proton beam irradiation or enucleation, 99:282
- Computerized ultrasonic tissue characterization of ocular tumors, 96:165
- Conjunctival inclusion cyst simulating malignant melanoma (letter), 100:483
- Correlation of visual field, treatment fields, and dose in helium ion irradiation of uveal melanoma, 100:658
- Differentiation of adenoma of the iris pigment epithelium from iris cyst and melanoma, 100:678
- Echographic and histologic tumor height measurements in uveal melanoma, 100:454
- Echographic and histologic tumor height measurements in uveal melanoma (correspondence), 101:124
- Echographic and histologic tumor height measurements in uveal melanoma (correspondence), 101:126
- Effect of rapid freezing on uveal melanomas, 103:66
- Effects of pre-enucleation irradiation on the development of metastases from intraocular Greene melanoma in hamsters, 100:669
- Familial occurrence of cutaneous melanoma, intraocular melanoma, and the dysplastic nevus syndrome (correspondence), 96:815
- Familial occurrence of cutaneous melanoma, intraocular melanoma, and the dysplastic nevus syndrome, 96:238
- Familial occurrence of cutaneous melanoma, intraocular melanoma, and the dysplastic nevus syndrome (correspondence), 97:114
- Familial occurrence of cutaneous melanoma, intraocular melanoma, and the dysplastic nevus syndrome (correspondence), 97:802
- Fine-needle aspirates of uveal melanomas and prognosis, 100:654
- Gamma-glutamyl transpeptidase in the prognosis of patients with uveal malignant melanoma, 95:467
- Gamma-glutamyl transpeptidase in the prognosis of patients with uveal malignant melanoma (correspondence), 96:409
- Hepatic metastasis and orbital recurrence of uveal melanoma after 42 years, 100:666
- Investigation into the association between liver damage and metastatic uveal melanoma, 100:448
- Iris melanomas, 99:638
- Iris melanoma with extensive corneal invasion and metastases (letter), 104:543
- Lack of association between intraocular melanoma and cutaneous dysplastic nevi, 98:478
- Lymphocyte subpopulations before therapy in patients with uveal malignant melanoma, 101:160
- Lymphocyte subpopulations in uveal malignant melanoma (editorial), 101:483
- Malignant melanoma of the choroid associated with melanosis oculi in a child (letter), 104:662
- Modifications of Callender's classification of uveal melanoma at the Armed Forces Institute of Pathology, 96:502
- New observations on vitiligo and ocular disease, 96:16
- Obliteration of anterior chamber caused by medium-sized choroidal malignant melanoma (letter), 95:394
- Orbital extension of choroidal melanoma within a short posterior ciliary nerve (letter), 98:517
- Orbital recurrence of choroidal melanoma 20 years after enucleation, 97:767
- Posterior uveal melanomas in aphakic and pseudophakic eyes, 101:458
- Prognostic factors in choroidal and ciliary body melanomas with extrascleral extension, 101:325
- Retinal vascular changes in malignant melanoma of the choroid, 97:411
- Serous detachments of the macula associated with presumed small choroidal melanomas, 102:176
- Squamous cell carcinoma of the limbal conjunctiva with corneal involvement and racial melanosis in a Nigerian woman (letter), 96:106
- Technique for accurate placement of episcleral iodine-125 plaques, 103:63
- Therapeutic options in uveal melanoma (editorial), 98:796
- Therapeutic options in uveal melanoma (correspondence), 99:615
- The treatment of advanced choroidal melanoma with massive orbital extension, 104:634
- Ultrasonic hyperthermia and radiation in the management of intraocular malignant melanoma, 101:635
- Uveal findings in patients with cutaneous melanoma, 95:474
- Uveal findings in patients with ocular and cutaneous melanoma (correspondence), 96:257
- Uveal melanoma necrosis after helium ion therapy, 101:643
- Melanosis**  
Bilateral melanosis of the iris (letter), 103:115
- Membranectomy**  
Capsulectomy and membranectomy with the argon laser, 95:794

**Meningioma**

Acute remitting visual loss after coronary artery bypass surgery caused by a suprasellar meningioma (letter), **104:434**

Idiopathic inflammatory peri optic neuritis simulating optic nerve sheath meningioma, **100:424**

Isolated trochlear nerve palsy secondary to cavernous sinus meningioma (letter), **104:433**

**Meningitis**

Cryptococcal endophthalmitis and meningitis associated with acute psychosis and exudative retinal detachment (letter), **104:438**

**Metamorphopsia**

Foveal densitometry in central serous choroidopathy, **98:359**

**Methicillin**

Human vitreous levels of selected antistaphylococcal antibiotics, **100:570**

Methicillin- and gentamicin-resistant *Staphylococcus epidermidis* endophthalmitis after intraocular surgery (letter), **99:725**

Methicillin-resistant *Staphylococcus epidermidis* blepharitis, **98:562**

Topical vancomycin formulation for methicillin-resistant *Staphylococcus epidermidis* blepharoconjunctivitis, **101:283**

**Methyl bromide**

Methyl bromide optic atrophy, **99:715**

**Methylcellulose**

Effect of sodium hyaluronate, chondroitin sulfate, and methylcellulose on the corneal endothelium and intraocular pressure (correspondence), **96:256**

Effects of sodium hyaluronate, chondroitin sulfate, and methylcellulose on the corneal endothelium and intraocular pressure, **95:332**

**Metric system**

Metrication (correspondence), **96:412**

Metrics (correspondence), **96:411**

**Metrizamide**

Formed visual hallucinations after metrizamide myelography, **97:78**

**Miconazole**

Effects of intravenous miconazole on fungal keratitis, **98:433**

Intravenous miconazole in the treatment of keratomycosis (letter), **97:646**; correction, **98:257**

Miconazole and ketoconazole as a satisfactory first-line treatment for keratomycosis, **101:605**

Miconazole and ketoconazole as a satisfactory first-line treatment for keratomycosis (correspondence), **102:547**

*Petridium (Allescheria) boydii* orbital and brain abscess treated with intravenous miconazole, **97:771**

Successful treatment of fungal keratitis caused by *Paecilomyces lilacinus* (letter), **98:626**; correction, **98:835**

**Microphthalmos**

Clinical implications of bilateral microphthalmos with cyst, **97:632**

Corneal transplantation in microphthalmic eyes, **104:164**

Exophthalmos secondary to massive intraocular gliosis in a patient with a colobomatous cyst (letter), **97:641**

Juvenile iridoschisis and microphthalmos, **100:437**

Juvenile iridoschisis and microphthalmos (correspondence), **101:742**

Microphthalmia and arachnoidal brain cyst (letter), **95:398**

Ocular findings in a new heritable syndrome of brain, eye, and urogenital abnormalities, **99:51**

**Microscopy**

Adaptor for low-power projection of eye sections (letter), **99:88**

**Migraine**

Bilateral sequential migrainous ischemic optic neuropathy (letter), **99:489**

Episodic unilateral mydriasis and migraine, **98:229**

Episodic unilateral mydriasis and migraine (correspondence), **99:217**

Ocular pseudomigraine after posterior chamber intraocular lens implantation (letter), **102:393**

Ophthalmoplegic migraine wrongly attributed to measles immunization (letter), **104:192**

Pediatric migraine (letter), **95:844**

Unilateral internuclear ophthalmoplegia, migraine, and supratentorial arteriovenous malformation (letter), **104:191**

**Miller Fisher syndrome**

Divergence paralysis as the initial sign in the Miller Fisher syndrome (letter), **101:741**

**Miosis**

Arecoline miosis (letter), **98:514**

Intraocular thymoxamine for miosis during surgery (letter), **103:709**

**Mizoribine**

Application of mizoribine after keratoplasty and in the treatment of uveitis, **100:161**

**Mohs' excision**

Recurrent and residual sebaceous carcinoma after Mohs' excision of the primary lesion, **103:817**

**Mooren's ulcer**

Mooren's ulcer after penetrating keratoplasty, **103:53**

Therapy of Mooren's ulcer, **98:1**

**Moraxella sp.**

Incidence of *Moraxella* conjunctival infection, **101:437**

*Moraxella nonliquefaciens* endophthalmitis after trabeculectomy, **99:343**

**Morning glory syndrome**

Treatment of total retinal detachment in morning glory syndrome, **97:596**

**Motility**

- Acute and subacute orbital myositis, 96:209
- Divergence paralysis as the initial sign in the Miller Fisher syndrome (letter), 101:741
- Ocular motility testing in the evaluation of visual hallucinations, 95:772
- Reverse Collier's sign. Pseudoblepharoptosis associated with downgaze paralysis (letter), 95:120
- Synchronism of inverse ocular bobbing and blinking (letter), 95:401; correction, 95:863

**Moxalactam**

- Human vitreous levels of cefamandole and moxalactam, 101:684

**Moyamoya disease**

- Ocular symptoms of moyamoya disease, 103:812

**Mucocele**

- Sphenoid sinus mucocele (anterior clinoid variant) mimicking diabetic ophthalmoplegia and retrobulbar neuritis, 102:111

**Mucopolipidosis III**

- Ophthalmologic findings in mucopolipidosis III (pseudo-Hurler polydystrophy), 102:592

**Mucopolipidosis IV**

- Ocular abnormalities in mucopolipidosis IV, 99:125
- Treatment of corneal opacification in mucopolipidosis IV with conjunctival transplantation, 99:137

**Mucopyocele**

- Allergic periorbital mucopyocele in children, 96:299

**Müller's cell**

- Immunohistochemistry of retinoblastomas in humans, 97:301
- Vitreous hemorrhage nontoxic to retina as a stimulator of glial and fibrous proliferation, 97:611

**Müller's muscle**

- Vertical tarsal buckling as a complication of levator aponeurosis repair for acquired blepharoptosis (correspondence), 98:645

**Multiple evanescent white-dot syndrome**

- Bilateral symptomatic multiple evanescent white-dot syndrome (letter), 101:489
- Increased serum IgM and IgG in the multiple evanescent white-dot syndrome (letter), 104:187
- Recurrences and bilaterality in the multiple evanescent white-dot syndrome, 100:29
- Recurrences and bilaterality in the multiple evanescent white-dot syndrome (correspondence), 101:388

**Multiple sclerosis**

- Improvement of uveitis and optic nerve disease by cyclosporine in a patient with multiple sclerosis (letter), 97:790
- Magnetic resonance imaging in neuro-ophthalmic rostral brain-stem syndromes (letter), 103:239
- Magnetic resonance imaging of optic tract involvement in multiple sclerosis, 104:74
- Pattern electroretinograms and visual-evoked potentials in glaucoma and multiple sclerosis, 96:72

**Myasthenia gravis**

- Juvenile myasthenia gravis and amblyopia, 101:214
- Penicillamine-induced ocular myasthenia gravis, 99:66
- Timolol-associated myasthenia gravis (letter), 98:244

**Mycobacterium sp.**

- Cluster of cases of *Mycobacterium chelonae* keratitis associated with outpatient office procedures, 97:344

*Mycobacterium chelonae* keratitis (letter), 103:595

*Mycobacterium chelonae* keratitis after radial keratotomy, 102:72

Superinfections in herpes simplex keratitis, 96:354

**Mydriasis**

- Argon laser photomydriasis during vitrectomy surgery (letter), 99:366
- Episodic unilateral mydriasis and migraine, 98:229
- Episodic unilateral mydriasis and migraine (correspondence), 99:217
- Iron mydriasis (letter), 97:794
- Mydriasis and conjunctival paresthesia from local gentamicin (letter), 99:723

**Myelography**

- Formed visual hallucinations after metrizamide myelography, 97:78

**Myeloma**

- Lack of evidence for protein AA reactivity in amyloid deposits of lattice corneal dystrophy and amyloid corneal degeneration, 98:216

**Myokymia**

- Oscillopsia associated with eyelid myokymia (letter), 102:662

**Myopia**

- Aphakic extended-wear contact lenses after penetrating keratoplasty, 95:156
- Comparison of lesions predisposing to rhegmatogenous retinal detachment by race of subjects, 96:644

- Orf virus**  
Ocular infection with orf virus, 97:601
- Oscillopsia**  
Oscillopsia associated with eyelid myokymia (letter), 102:662  
Two cases of downbeat nystagmus and oscillopsia associated with carbamazepine, 103:221
- Osteoma**  
Choroidal osteoma after intraocular inflammation, 96:759  
Orbital osteoma in Gardner's syndrome, 101:236
- Outflow facility**  
Comparison of standard and computerized tonography instruments on human eyes, 99:403  
Fluorophotometric study of the effect of argon laser trabeculoplasty on aqueous humor dynamics, 99:579  
Regulation of aqueous flow by the adenylate cyclase receptor complex in the ciliary epithelium, 100:194
- Oxacillin**  
Human vitreous levels of selected antistaphylococcal antibiotics, 100:570
- Oxalosis**  
Oxalosis (letter), 95:397
- P**
- Pachymetry**  
Fluorophotometric study of anterior segment barrier functions after extracapsular cataract extraction and posterior chamber intraocular lens implantation, 97:197
- Paecilomyces sp.**  
Penetrating keratoplasty for exogenous *Paecilomyces* keratitis followed by postoperative endophthalmitis, 98:552  
Successful treatment of fungal keratitis caused by *Paecilomyces lilacinus* (letter), 98:626; correction, 98:835

**Paget's disease**

Optic neuropathy in Paget's disease, 97:505

**Panophthalmitis**

*Bacillus cereus* panophthalmitis appearing as acute glaucoma in a drug addict (letter), 100:334

*Bacillus cereus* panophthalmitis manifesting as an orbital cellulitis (letter), 103:105

Choroidal malignant melanoma appearing as acute panophthalmitis, 101:249

Choroidal malignant melanoma appearing as acute panophthalmitis (correspondence), 101:744

**Panuveitis**

Epstein-Barr viral antibodies in multifocal choroiditis and panuveitis, 103:659

**Papilledema**

Papilledema in late-onset citrullinemia (letter), 97:242

Unilateral and asymmetric optic disk swelling with intracranial abnormalities, 96:484

Unilateral and asymmetric optic disk swelling with intracranial abnormalities (correspondence), 97:253

**Papilloma**

Clinical and pathologic description of 17 cases of corneal intraepithelial neoplasia, 97:547

Detection of human papillomavirus DNA sequences in conjunctival papilloma, 96:670

Interferon-alpha therapy of recurrent conjunctival papillomas, 103:294

Papillomavirus in human conjunctival papillomas, 95:364

**Paresthesia**

Mydriasis and conjunctival paresthesia from local gentamicin (letter), 99:723

**Parinaud's syndrome**

Gaze palsy associated with viral syndrome, 100:468

Reverse Collier's sign. Pseudoblepharoptosis associated with downgaze paralysis (letter), 95:120

**Pars plana**

Management of the lens capsule during pars plana lensectomy (letter), 103:109

**Pars plana vitrectomy**

Cover slip lens (letter), 95:848

Factors influencing final visual results in severely injured eyes, 97:715

Instrument for placement of temporary keratoprosthesis during pars plana vitrectomy (letter), 95:718

Management of fibrin pupillary-block glaucoma after pars plana vitrectomy with intravitreal gas injection, 103:180

Pars plana vitrectomy for severe penetrating injury with posterior segment involvement, 103:549

Penetrating keratoplasty after placement of a temporary keratoprosthesis during pars plana vitrectomy, 102:45

Retinal tear localization following fluid-gas exchange during pars plana vitreoretinal surgery (letter), 97:390

Surgical treatment of giant retinal tears with inverted posterior retinal flaps, 98:463

Surgical treatment of retinal detachments complicated by proliferative vitreoretinopathy, 98:694

Sutureless self-retaining infusion cannula for pars plana vitrectomy (letter), 99:612

Tilted convex mirror for viewing the tip of a pars plana infusion cannula (letter), 102:399

Vitrectomy for nondiabetic vitreous hemorrhage, 96:517

Vitreous opacification after cataract extraction, 103:276

**Pars planitis**

Enigma of pars planitis (editorial), 103:828

Pars planitis and autoimmune endotheliopathy, 102:633

Pars planitis and autoimmune endotheliopathy (correspondence), 103:599

Pars planitis and autoimmune endotheliopathy (correspondence), 104:311

Significance of the pars plana exudate in pars planitis, 103:669

Vitreous fluorophotometry in pars planitis, 95:189; correction, 95:740

**Patching**

Peristomal covering pads to avoid tape-induced skin irritation (letter), 95:567

Randomized trial of pressure patching for epithelial defects after keratoplasty, 95:637

**Pellucid marginal degeneration**

Crescentic lamellar keratoplasty for pellucid marginal degeneration (letter), 96:253

**Pemphigoid**

Ocular cicatricial pemphigoid associated with hyperproliferation of the conjunctival epithelium, 98:37; correction, 98:388

**Penetrating keratoplasty**

Aphakic extended-wear contact lenses after penetrating keratoplasty, 95:156

Assessment of success and complications of triple procedure surgery, 104:233

Bacterial endophthalmitis associated with vitreous wick after penetrating keratoplasty (letter), 100:854

*Candida albicans* endophthalmitis after penetrating keratoplasty, 104:57

Clinical, electron microscopic, and immunohistochemical study of the corneal endothelium and Descemet's membrane in the iridocorneal endothelial syndrome, 101:16

Clinicopathologic studies of keratoplasty eyes obtained post mortem, 101:28

Corneal curvatures in premature infants (letter), 98:627; correction, 98:835

Corneal endothelium in penetrating keratoplasty, 102:66

Corneal transplantation for herpes simplex keratitis, 95:645

Dental mirror for goniosynechialysis during penetrating keratoplasty (letter), 100:331

- Effect of epidermal growth factor on epithelial healing after penetrating keratoplasty in human eyes, **98:411**
- Effects of retinal detachment repair on clear corneal grafts, **101:164**
- Endophthalmitis after penetrating keratoplasty, **95:651**
- Factors associated with glaucoma after penetrating keratoplasty, **96:160**

- Variation in visual field measurements with an automated perimeter, **97:328**
- Variation in visual field measurements with an automated perimeter (correspondence), **97:801**
- Periorbital cellulitis**
- Periorbital cellulitis after eyebrow tweezing (letter), **102:534**
- Periphlebitis**
- Retinal periphlebitis as an early sign of bacterial endophthalmitis, **96:66**

**Persistent hyperplastic primary vitreous**

Changes in the contralateral eye in uncomplicated persistent hyperplastic primary vitreous in adults, **99:122**

**Peters' anomaly**

Corneal perforation at birth secondary to Peters' anomaly (letter), **104:303**

Peters' anomaly associated with partial deletion of the long arm of chromosome 11, **97:11**

Peters' anomaly in a father and son (letter), **104:545**

Peters' anomaly in association with ring 21 chromosomal abnormality, **100:733**

Wound healing of grafts in congenitally opaque infant corneas, **95:641**

**Petriellidium sp.**

*Petriellidium (Allescheria) boydii* orbital and brain abscess treated with intravenous miconazole, **97:771**

**Peutz-Jeghers syndrome**

Periocular pigmentation in the Peutz-Jeghers syndrome (letter), **102:126**

**Phacoemulsification**

Nd:YAG laser photodisruption of the lens nucleus before phacoemulsification, **104:382**

**Phenylephrine**

Allergic dermatconjunctivitis caused by phenylephrine (letter), **95:703**

Possible cardiovascular effects secondary to topical ophthalmic 2.5% phenylephrine (letter), **99:362**

Systemic absorption and cardiovascular effects of phenylephrine eyedrops, **99:180**

Tadpole-shaped pupils caused by segmental spasm of the iris dilator muscle, **96:467**

**Philophthalmus sp.**

Human conjunctivitis caused by the bird parasite *Philophthalmus*, **104:417**

**Photocoagulation**

Age-related macular degeneration (letter), **98:376**

Argon laser photocoagulation for diabetic retinopathy in a patient with hemophilia (letter), **98:818**

Argon laser photocoagulation for macular edema in branch vein occlusion, **98:271**

Argon laser photocoagulation for macular edema in branch vein occlusion (editorial), **98:374**

Argon laser photocoagulation for macular edema in branch vein occlusion (correspondence), **99:218**

Argon photocoagulation through the operating microscope, **102:666**

Avoiding gas-fluid exchange in postvitrectomy photocoagulation (letter), **104:86**

Branch retinal artery occlusion after dye yellow photocoagulation of an arterial macroaneurysm (letter), **104:186**

Delayed choroidal vascular filling after krypton laser photocoagulation, **99:154**

Effect of trabecular photocoagulation on the aqueous humor dynamics of the human eye, **96:139**

Endophotocoagulation in vitrectomy with a carbon dioxide laser, **101:445**

Estimation of the maximum number of argon laser burns possible in panretinal photocoagulation, **97:697**

Grand mal seizure during argon laser panretinal photocoagulation (letter), **103:116**

Grid photocoagulation for macular edema in patients with retinitis pigmentosa, **103:161**

Grid photocoagulation for macular edema in patients with retinitis pigmentosa (correspondence), **104:94**

Improved visualization of the retina during endophotocoagulation (letter), **98:805**

Intraocular argon laser photocoagulation in the management of severe proliferative vitreoretinopathy, **97:434**

Intraoperative argon endophotocoagulation for recurrent vitreous hemorrhage after vitrectomy for diabetic retinopathy, **103:146**

Macula photocoagulation lens (letter), **101:619**

Macular edema and pregnancy in insulin-dependent diabetes, **97:154**

Noncontact retinal photocoagulation at the slit-lamp biomicroscope, **104:290**

Panretinal photocoagulation and retinal oxygenation in normal and diabetic cats, **101:657**

Photographic slides for teaching laser photocoagulation (letter), **103:590**

Potential laser hazards to the clinician during photocoagulation, **103:758**

Reopening filtration fistulas with transconjunctival argon laser photocoagulation, **98:340**

Repeater unit for laser surgery (letter), **97:104**

Retinal neovascularization and ocular toxoplasmosis, **98:585**

Retinal pigment epithelial rip during krypton red laser photocoagulation, **98:700**

Serous detachments of the macula associated with presumed small choroidal melanomas, **102:176**

Transient myopia and accommodative paresis following retinal cryotherapy and panretinal photocoagulation, **97:704**

Treatment of a cyclodialysis cleft with argon laser photocoagulation in a patient with a shallow anterior chamber, **99:5**

Xenon endophotocoagulation under air using sodium hyaluronate (letter), **97:785**

**Photophobia**

Lower eyelid laxity and ocular symptoms, **95:545**

Palmar-plantar hyperkeratosis associated with bilateral keratopathy (letter), **102:280**

Quinidine keratopathy (letter), **97:247**

**Photopsia**

Risk of retinal tears in patients with vitreous floaters, **96:783**

**Photoreceptor cell**

Photoreceptor outer segments in the aqueous humor in rhegmatogenous retinal detachment, 101:673

Ultrastructural study of retinal photoreceptor degeneration associated with bronchial carcinoma, 97:277

**Pigment dispersion syndrome**

Argon laser trabeculoplasty in pigmentary dispersion syndrome with glaucoma, 96:721

Pigmentary glaucoma associated with posterior chamber intraocular lenses, 100:385

Pigment dispersion syndrome in pseudophakic corneal transplants, 102:762

**Pigmented paravenous chorioretinal atrophy**

Pigmented paravenous chorioretinal atrophy, 96:338

Pigmented paravenous chorioretinal atrophy (correspondence), 97:113

**Pigment epithelium**

Acute posterior multifocal placoid pigment epitheliopathy with unilateral retinal lesions and bilateral disk edema (letter), 104:548

Acute sectorial choroidal ischemia, 98:707

Adult vitelliform macular detachment occurring in patients with basal laminar drusen, 99:445

Age-related changes in the ultrastructure of Bruch's membrane, 100:686

Bilateral symptomatic multiple evanescent white-dot syndrome (letter), 101:489

Clinicopathologic correlation of lipidization and detachment of the retinal pigment epithelium, 101:576

Clinicopathologic results of vitreous surgery for epiretinal membranes in patients with combined retinal and retinal pigment epithelial hamartomas, 100:806

Comparative toxicity of intravitreal aminoglycoside antibiotics, 100:264

Diagnosis and pathogenesis of retinal pigment epithelial tears, 100:698

Diagnosis and pathogenesis of retinal pigment epithelial tears (correspondence), 101:502

Differentiation of adenoma of the iris pigment epithelium from iris cyst and melanoma, 100:678

Diffuse drusen and associated complications, 100:119

Digoxin in the subretinal spaces of humans with rhegmatogenous retinal detachments (letter), 100:490

Expression of HLA-DR antigen on retinal pigment epithelial cells in retinitis pigmentosa, 101:584

Fleck retina in Kjellin's syndrome (correspondence), 99:618

Fluid dynamics in eyes with rhegmatogenous retinal detachments, 99:673

Fluorescein angiography in reticular degeneration of the pigment epithelium, 100:202

Formation of drusen in the human eye, 101:342

Foveal densitometry in central serous chorioidopathy, 98:359

Geographic atrophy of the retinal pigment epithelium, 102:621

Idiopathic macular holes, 99:437

Importance of fluid absorption, traction, intraocular currents, and chorioretinal scars in the therapy of rhegmatogenous retinal detachments. XLI Edward Jackson Memorial Lecture, 98:681

Multiple recurrent serosanguineous retinal pigment epithelial detachments in black women, 100:560

New observations on vitiligo and ocular disease, 96:16

Nodular adenomatosis of iris pigment epithelium, 100:87

Ocular clinicopathologic correlation of Hallervorden-Spatz syndrome with acanthocytosis and pigmentary retinopathy, 95:369

Ocular histopathologic and biochemical studies of the cerebrohepatorenal syndrome (Zellweger's syndrome) and its relationship to neonatal adrenoleukodystrophy, 96:488

Punctate inner choroidopathy, 98:572

Recurrences and bilaterality in the multiple evanescent white-dot syndrome (correspondence), 101:388

Recurrences of acute posterior multifocal placoid pigment epitheliopathy, 98:203

Retinal damage from a Q-switched YAG laser, 96:326

Retinal fluorescein leakage in retinitis pigmentosa, 101:354

Retinal hamartoma, acquired retinoschisis, and retinal hole (letter), 99:604

Retinal pigment epithelial rip during krypton red laser photocoagulation, 98:700

Rubeola retinopathy and pigmented paravenous retinochoroidal atrophy (letter), 99:605

Subretinal neovascularization in senile macular degeneration, 97:143

Tear of the retinal pigment epithelium and serous retinal detachment (letter), 100:488

**Pilocarpine**

Can ophthalmologists correctly identify patients defaulting from pilocarpine therapy?, 101:524

Compliance with topical pilocarpine treatment, 101:515

Compliance with topical pilocarpine treatment (correspondence), 102:547

Corneal changes during pilocarpine gel therapy, 101:13

Corneal changes during pilocarpine gel therapy (correspondence), 101:623

A double-masked study of timolol and pilocarpine combined, 104:587

One-year multicenter clinical trial of pilocarpine gel, 97:723

Pilocarpine and the increase in intraocular pressure after trabeculoplasty (letter), 97:647

- Piloplex**  
Dose-response study of piloplex for duration of action, 99:23
- Pinguecula**  
Clinical and pathologic description of 17 cases of corneal intraepithelial neoplasia, 97:547
- Piperacillin**  
Piperacillin levels in human tears and aqueous humor, 98:17  
Piperacillin levels in human tears and aqueous humor (correspondence), 98:821
- Plasminogen**  
Treatment of experimental intravitreal fibrin with tissue plasminogen activator, 104:619
- Platelet**  
Aspirin and recurrent hyphema after blunt ocular trauma, 96:797  
Platelet function in bilateral acute retinal necrosis, 96:27
- Plesiomonas* sp.**  
*Aeromonas hydrophila* and *Plesiomonas shigelloides* endophthalmitis (letter), 96:403
- Pneumocystis**  
Acquired immune deficiency syndrome retinopathy, pneumocystis, and cotton-wool spots (editorial), 98:235
- Polyarteritis nodosa**  
Polyarteritis nodosa diagnosed by temporal artery biopsy (letter), 102:541
- Posterior capsule**  
Neodymium-YAG laser for posterior capsulotomy, 96:716
- Posterior chamber**  
Comparison of the effects of Viscoat and Healon on postoperative intraocular pressure, 100:377  
Effects of the Shearing posterior chamber intraocular lens on the corneal endothelium, 95:798  
Healon (sodium hyaluronate) in posterior chamber lens implantation (letter), 97:389  
Inexpensive irrigating pusher for posterior chamber lens implantation (letter), 99:86  
Pigmentary glaucoma associated with posterior chamber intraocular lenses, 100:385  
Pigmentary glaucoma associated with posterior chamber intraocular lenses (correspondence), 101:500  
Subconjunctival dislocation of a posterior chamber intraocular lens (letter), 99:85
- Posterior multifocal placoid pigment epitheliopathy**  
Recurrences of acute posterior multifocal placoid pigment epitheliopathy, 98:203
- Posterior segment**  
Pars plana vitrectomy for severe penetrating injury with posterior segment involvement, 103:549
- Potter's syndrome**  
Ocular vasodilation and angiogenesis in Potter's syndrome, 97:16
- Praziquantel**  
Failure of medical treatment in two cases of intraocular cysticercosis (letter), 97:249
- Prednisolone**  
Wegener's granulomatosis with destructive ocular manifestations, 98:736
- Prednisone**  
Immunosuppressive therapy in ocular cicatricial pemphigoid, 96:453
- Preeclampsia**  
Ocular manifestations of preeclampsia, 103:309
- Preretinal membrane**  
Ultrastructural characteristics of preretinal membranes from human eyes filled with silicone oil, 103:770
- Presbyopia**  
Progressive-addition lenses in the treatment of accommodative esotropia (correspondence), 99:497
- Presumed ocular histoplasmosis**  
Subretinal neovascularization after experimental ocular histoplasmosis in a subhuman primate, 100:252
- Prism**  
A simple device for holding ophthalmic prisms (letter), 104:548
- Proliferative vitreoretinopathy**  
Anterior retinal cryotherapy in diabetic vitreous hemorrhage, 100:440  
Effect of triamcinolone acetonide on a refined experimental model of proliferative vitreoretinopathy, 99:686  
Experimental and clinical observations of the intraocular toxicity of commercial corticosteroid preparations, 101:190  
Intraocular argon laser photocoagulation in the management of severe proliferative vitreoretinopathy, 97:434  
Pathophysiology of proliferative vitreoretinopathy in its management, 100:188  
Perfluoropropane gas in the management of proliferative vitreoretinopathy, 98:180  
Proliferative vitreoretinopathy (editorial), 99:593  
Results of conventional vitreous surgery for proliferative vitreoretinopathy, 100:141  
Results of conventional vitreous surgery for proliferative vitreoretinopathy (correspondence), 100:859  
Silicone oil for retinal detachment with advanced proliferative vitreoretinopathy following failed vitrectomy for proliferative diabetic retinopathy, 101:181  
Spontaneous reattachment of the retina despite proliferative vitreoretinopathy, 97:428  
Surgical treatment of retinal detachments complicated by proliferative vitreoretinopathy, 98:694  
Temporary silicone oil tamponade in the management of retinal detachment with proliferative vitreoretinopathy, 100:239

**Proparacaine**

Absence of corneal toxicity with low-level topical anesthesia, 99:691

**Propionibacterium sp.**

Anaerobic endophthalmitis caused by *Propionibacterium acnes* (letter), 101:114

Chronic *Propionibacterium* endophthalmitis after extracapsular cataract extraction and intraocular lens implantation, 102:733

Endophthalmitis associated with sequestered intraocular *Propionibacterium acnes* (letter), 104:428

**Proptosis**

Acute and subacute orbital myositis, 96:209

Clinical, computed tomographic, and histopathologic characteristics of juvenile ossifying fibroma with orbital involvement, 96:650

Cytologic diagnosis of myeloid sarcoma (letter), 99:496

Determination of the normal range of exophthalmometric values for black and white adults, 98:438

Dynamic proptosis, 102:104

Enlargement of the optic disk in childhood optic nerve tumors, 97:627

Eyelid ecchymosis and proptosis in lymphangioma (letter), 100:486

Intraosseous capillary hemangioma of the frontal bone, 103:824

Orbital osteoma in Gardner's syndrome, 101:236

Radiation therapy for Graves' disease, 96:195

Self-inflicted proptosis misdiagnosed as orbital malignancy (letter), 96:812

**Prostaglandin**

Aspirin therapy in vernal conjunctivitis, 95:502

Effects of corticosteroid pretreatment on argon laser trabeculoplasty (correspondence), 96:693

**Prosthesis**

Evisceration with eversion of the scleral shell and muscle cone positioning of the implant, 104:265

**Proteus sp.**

Superinfections in herpes simplex keratitis, 96:354

**Pseudoblepharoptosis**

Reverse Collier's sign. Pseudoblepharoptosis associated with downgaze paralysis (letter), 95:120

**Pseudoexfoliation**

Effect of trabecular photocoagulation on the aqueous humor dynamics of the human eye, 96:139

**Pseudomonas sp.**

Antimicrobial properties of alkyl-2-cyanoacrylate tissue adhesives in vitro (letter), 95:125

Bacterial contamination of eyedrop dispensers, 98:548

Carbon dioxide laser therapy of *Pseudomonas aeruginosa* keratitis (letter), 97:791

Corneal ulcers associated with extended-wear soft contact lenses, 97:476

Corneal ulcers in patients with cosmetic extended-wear contact lenses, 96:705

Extended-wear contact lenses and pseudomonal corneal ulcers (editorial), 101:372

Human vitreous levels of cefamandole and moxalactam, 101:684

Microbial contamination of contact lens care systems, 104:325

Multistrain comparison of three antimicrobial prophylaxis regimens in experimental postoperative *Pseudomonas* endophthalmitis, 100:404

Nosocomial *Pseudomonas* keratitis in a critical-care nurse (letter), 101:612

*Pseudomonas aeruginosa* ophthalmia neonatorum (letter), 98:801

*Pseudomonas* corneoscleritis, 103:90

*Pseudomonas* corneoscleritis (correspondence), 103:725

*Pseudomonas* keratitis (letter), 95:566

*Pseudomonas* keratitis and folliculitis from whirlpool exposure, 101:41

Superinfections in herpes simplex keratitis, 96:354

Treatment of contact lens-associated corneal erosions (letter), 104:306

Ulcerative keratitis associated with contact lens wear, 101:429

**Pseudoproptanomaly**

Foveal densitometry in central serous choroidopathy, 98:359

**Pseudotumor cerebri**

Pseudotumor cerebri, 98:741

Unilateral and asymmetric optic disk swelling with intracranial abnormalities (correspondence), 97:253

Visual field defects in idiopathic intracranial hypertension (pseudotumor cerebri), 96:654

**Pterygium**

Clinical and pathologic description of 17 cases of corneal intraepithelial neoplasia, 97:547

Immunologic basis for the pathogenesis of pterygium, 98:225

Immunologic basis for the pathogenesis of pterygium (correspondence), 99:216

Precarved lyophilized tissue for lamellar keratoplasty in recurrent pterygium, 102:222

**Pulfrich effect**

Pulfrich effect in anisometropic amblyopia and strabismus, 98:499

Pulfrich effect in anisometropic amblyopia and strabismus (correspondence), 99:370

**Pulfrich phenomenon**

Pulfrich stereo-illusion phenomenon in serous sensory retinal detachment of the macula, 100:576

**Punctate inner choroidopathy**

Punctate inner choroidopathy, 98:572

**Pupil**

Anterior capsulotomy associated with a small pupil (letter), 104:666

Apparent accommodation in pseudophakic eyes after implantation of posterior chamber intraocular lenses, 96:435

Argon laser photomydriasis during vitrectomy surgery (letter), 99:366

- Associated neurologic abnormalities in congenital third nerve palsies, 97:315
- Cocaine test in normal patients (letter), 98:808
- Contraction anisocoria resulting from half-field illumination, 97:577
- Effect on the retina of an air cushion in the anterior chamber and coaxial illumination, 96:600
- Episodic unilateral mydriasis and migraine, 98:229
- Episodic unilateral mydriasis and migraine (correspondence), 99:217
- Functional monocular temporal hemianopsia, 101:226
- Glare disability in eyes with intraocular lenses, 97:43
- Initial pupillary constriction in the alternating light test (letter), 101:120
- Intracranial oculomotor nerve paresis with anisocoria and pupillary parasympathetic hypersensitivity, 104:401
- Intraocular hypertension resulting from pupillary block by silicone oil (letter), 99:87
- Iron mydriasis (letter), 97:794
- Management of fibrin pupillary-block glaucoma after pars plana vitrectomy with intravitreal gas injection, 103:180
- Mydriasis and conjunctival paresthesia from local gentamicin (letter), 99:723
- Observations on transsynaptic changes in acquired Horner's syndrome (letter), 95:837
- Ocular findings in leprosy in the United States, 100:411
- Paralysis of convergence caused by mushroom poisoning (letter), 102:124
- Pupillary block after intraocular lens implantation, 95:55
- Pupillary block with flexible anterior chamber intraocular lenses (letter), 99:603
- Pupillary defects in amblyopia, 96:609
- Pupillary defects in retinitis pigmentosa, 99:607
- Pupillography of a relative afferent pupillary defect, 101:320
- Pupil-sparing third nerve palsies caused by aneurysm (letter), 95:395
- Relative afferent pupillary defect in congenital occipital hemianopia (letter), 100:345
- Return of vision following orbital decompression after 36 hours of postoperative blindness, 100:602
- Spontaneous contractions of the pupillary sphincter in traumatic ophthalmoplegia (letter), 102:543
- Tadpole-shaped pupils caused by segmental spasm of the iris dilator muscle, 96:467

#### **Pupillary-block glaucoma**

- Irreversible intraocular lens vaulting with pupillary-block glaucoma (letter), 101:735
- Neodymium-YAG laser posterior capsulotomy for the treatment of aphakic and pseudophakic pupillary block, 104:502

- Pupillary-block glaucoma associated with childhood cystinosis, 101:700

## **Q**

### **Quinidine**

- Quinidine keratopathy (letter), 97:247

## **R**

### **Radial keratotomy**

- Blepharoptosis after radial keratotomy (letter), 102:800
- Color vision and contrast sensitivity testing after radial keratotomy, 103:468
- Comparison of two methods of marking the visual axis on the cornea during radial keratotomy, 96:605
- Comparison of two methods of marking the visual axis on the cornea during radial keratotomy (correspondence), 97:660
- Consecutive series (1982-1985) of radial keratomies performed with the diamond blade, 103:417
- Corticosteroid therapy after anterior radial keratotomy in primates, 97:215
- Delayed wound healing after radial keratotomy (letter), 99:485
- Effect of radial keratotomy on the corneal endothelium, 100:538
- Histologic study of a pair of human corneas after anterior radial keratotomy, 100:281
- Mycobacterium chelonae* keratitis after radial keratotomy, 102:72
- Overcorrected visual acuity improved by antiglaucoma medication after radial keratotomy (letter), 101:374
- Practical hypnotic suggestion in ophthalmic surgery, 96:540
- Regional specular microscopy (letter), 96:686
- Repeated radial keratotomy in the prospective evaluation of radial keratotomy study, 103:423
- Slit-lamp microscopic appearance of corneal wound healing after radial keratotomy, 100:218
- Stellate iron lines in the corneal epithelium after radial keratotomy, 98:416
- Stellate iron lines in the corneal epithelium after radial keratotomy (correspondence), 99:219
- Ultrastructural and histochemical study of long-term wound healing after radial keratotomy, 103:432
- 30-Year follow-up of posterior radial keratotomy (letter), 103:330

### **Radiation therapy**

- Acute and chronic keratitis with ulceration after corneal exposure to helium ion irradiation (letter), 104:189
- Acute and subacute orbital myositis, 96:209
- Clinicopathologic report of successful cobalt 60 plaque therapy for choroidal melanoma, 100:828
- Comparison of survival rates for patients with uveal melanoma after treatment with proton beam irradiation or enucleation, 99:282
- Correlation of visual field, treatment fields, and dose in helium ion irradiation of uveal melanoma, 100:658

Development of additional primary tumors after 62 years in the first patient with retinoblastoma cured by radiation therapy, 97:189

Effects of pre-enucleation irradiation on the development of metastases from intraocular Greene melanoma in hamsters, 100:669

Ocular neuromyotonia after radiation therapy, 102:766; correction, 103:253

Radiation therapy for Graves' disease, 96:195

Radiation therapy for thyroid eye diseases, 99:633

Recurrence of sebaceous carcinoma of the eyelid after radiation therapy, 96:10

Retrospective review of 26 cases of dysthyroid optic neuropathy, 96:190

Two cases of uveal metastasis from breast carcinoma in men, 95:208

Ultrasonic hyperthermia and radiation in the management of intraocular malignant melanoma, 101:635

Unknown giant cell lesion 11 years after successful treatment of retinoblastoma (letter), 97:652

Uveal melanoma necrosis after helium ion therapy, 101:643

#### **Rectus muscle**

Adaptation to tilting of the visual environment in cyclotropia, 96:229

Bilateral medial rectus muscle recession and lateral rectus muscle resection in the treatment of congenital esotropia, 95:528

Computed tomography in penetrating injury to the eye, 97:583

Lagophthalmos in acquired oculomotor synkinesis, 98:747

Multivariate analysis of prognostic factors in penetrating ocular injuries, 98:467

Nonaccommodative convergence excess, 101:70

Oculocardiac reflex during ophthalmoscopy in premature infants, 99:649

Peripheral innervation of extraocular muscles, 95:520

Pseudo-internuclear ophthalmoplegia after surgical paresis of the medial rectus muscle, 98:602

Pseudo-internuclear ophthalmoplegia after surgical paresis of the medial rectus muscle (correspondence), 99:737

Randomized comparison of surgical procedures for infantile esotropia, 98:50

Randomized comparison of surgical procedures for infantile esotropia (correspondence), 98:642

Randomized comparison of surgical procedures for infantile esotropia (correspondence), 98:643

Surgical treatment of congenital esotropia, 96:218

Surgical treatment of lateral rectus muscle paralysis, 97:511

Sustained increases in intraocular pressure during strabismus surgery, 101:308

Traumatic laceration of the inferior rectus muscle, 100:855; correction, 101:256

#### **Refraction**

Device for testing malingering and binocular refraction (letter), 101:613

Effect of refractive correction on automated perimetric thresholds, 101:706

Myopic shift in refraction after penetrating keratoplasty with pediatric donor tissue (letter), 101:740

A simple device for holding ophthalmic prisms (letter), 104:548

Stenopeic strip (letter), 103:116

Why patients return after refraction (letter), 96:690

#### **Refractive surgery**

Color vision and contrast sensitivity testing after radial keratotomy, 103:468

Consecutive series (1982-1985) of radial keratotomies performed with the diamond blade, 103:417

Corneal topography in myopic patients undergoing epikeratophakia, 103:404

Corneal wound healing after excimer laser keratotomy in a human eye, 103:454

Dynamics of the ultraviolet laser ablation of corneal tissue, 103:470

Epikeratophakia in aphakic children, 103:465

Excimer laser cut lenticules for epikeratophakia, 103:475

Interface hematoma after epikeratophakia (letter), 103:328

Nationwide study of epikeratophakia for aphakia in adults, 103:358

Nationwide study of epikeratophakia for aphakia in children, 103:366

Nationwide study of epikeratophakia for myopia, 103:375

The nationwide study of epikeratophakia for myopia (correspondence), 104:315

Nonfreeze epikeratophakia for the correction of myopia, 103:397

Ophthalmic excimer laser for corneal surgery, 103:472

Reduction of astigmatism after keratoplasty, 103:477

Refractive surgery (editorial), 103:355

Refractive surgery with the excimer laser, 103:469

Relaxing incisions with augmentation sutures for the correction of postkeratoplasty astigmatism, 103:441

Repeated radial keratotomy in the prospective evaluation of radial keratotomy study, 103:423

Rotating slit delivery system for excimer laser refractive keratoplasty, 103:474

Secondary intraocular lens implantation vs epikeratophakia for the treatment of aphakia, 103:384

Secondary intraocular lens implantation vs epikeratophakia for the treatment of aphakia (correspondence), 104:194

Specular microscopy of corneal epithelium after epikeratophakia, 103:392

Ultrastructural and histochemical study of long-term wound healing after radial keratotomy, **103:432**

Ultrastructural comparison of conventional surgical and argon fluoride excimer laser keratectomy, **103:448**

30-Year follow-up of posterior radial keratotomy (letter), **103:330**

## Retina

Ablepharon macrostomia syndrome, **99:552**

Abnormal blood viscosity and erythrocyte deformability in retinal vein occlusion (letter), **96:399**

Acute posterior multifocal placoid pigment epitheliopathy with unilateral retinal lesions and bilateral disk edema (letter), **104:548**

Acute retinal necrosis (editorial), **96:683**

Acute retinal necrosis (correspondence), **97:661**

Acute retinal necrosis in an immunosuppressed patient (letter), **98:515**

Acute sectorial choroidal ischemia, **98:707**

Analysis of retinal cotton-wool spots and cytomegalovirus retinitis in the acquired immunodeficiency syndrome (letter), **95:118**

Anomalous macular vessel and associated acquired paracentral scotoma (letter), **96:808**

Anterior retinal cryotherapy in diabetic vitreous hemorrhage, **100:440**

Anterior retinal cryotherapy in diabetic vitreous hemorrhage (correspondence), **101:255**

Aplastic anemia simulating central retinal vein occlusion (letter), **100:478**

Argon laser photocoagulation for macular edema in branch vein occlusion, **98:271**

Argon laser photocoagulation for macular edema in branch vein occlusion (editorial), **98:374**

Argon laser photocoagulation for macular edema in branch vein occlusion (correspondence), **99:218**

Assessment of angiographic retinal capillary non-perfusion in central retinal vein occlusion, **103:761**

Avulsed retinal veins without retinal breaks, **98:723**

Avulsed retinal veins without retinal breaks (correspondence), **99:739**

Bilateral keratoconus in a patient with gyrate atrophy and hyperornithinemia (letter), **95:705**

Bilateral symptomatic multiple evanescent white-dot syndrome (letter), **101:489**

Branch retinal artery occlusion after dye yellow photocoagulation of an arterial macroaneurysm (letter), **104:186**

Carrier detection in tapetoretinal degeneration in association with medullary cystic disease, **95:487**

Cavernous hemangioma of the retina, cutaneous angiomas, and intracranial vascular lesion by computed tomography and nuclear magnetic resonance imaging, **98:483**

Central retinal artery occlusion during cardiac catheterization, **99:586**

Central retinal artery occlusion in Sneddon's disease associated with antiphospholipid antibodies, **102:37**

Chorioretinal damage in onchocerciasis (letter), **98:519**

Clindamycin in the treatment of toxoplasmic retinochoroiditis, **95:605**

Clinical, fluorescein angiographic, and electron microscopic correlation of cystoid macular edema, **100:82**

Clinicopathologic correlation of lipidization and detachment of the retinal pigment epithelium, **101:576**

Clinicopathologic results of vitreous surgery for epiretinal membranes in patients with combined retinal and retinal pigment epithelial hamartomas, **100:806**

Color vision and retinal nerve fiber layer in early glaucoma, **101:208**

Comparative toxicity of intravitreal aminoglycoside antibiotics, **100:264**

Congenital trichomegaly, pigmentary retinal degeneration, and short stature (letter), **101:490**

Contraction anisocoria resulting from half-field illumination, **97:577**

Correlation of functional and structural measurements in glaucoma patients and normal subjects, **102:612**

Demonstration of herpes group virus in acute retinal necrosis syndrome, **102:701**

Diagnosis and pathogenesis of retinal pigment epithelial tears, **100:698**

Diagnosis and pathogenesis of retinal pigment epithelial tears (correspondence), **101:502**

Diffuse and localized nerve fiber loss in glaucoma, **98:566**

Diffuse drusen and associated complications, **100:119**

Digital subtraction angiography in the diagnosis of retinal vascular disease, **96:632**

Direct, indirect, and sham laser photocoagulation in the management of central serous chorioretinopathy, **95:457**

Disappearance of myelinated retinal nerve fibers after a branch retinal artery occlusion (letter), **103:835**

Distribution of pattern-evoked potentials in the facial area, **96:734**

Effect of refractive correction on automated perimetric thresholds, **101:706**

Effect of scleral buckling on vector forces caused by epiretinal membranes, **102:449**; correction, **104:667**

Effect of triamcinolone acetonide on a refined experimental model of proliferative vitreoretinopathy, **99:686**

Effect on the retina of an air cushion in the anterior chamber and coaxial illumination, **96:600**

Effect on the retina of an air cushion in the anterior chamber and coaxial illumination (correspondence), **97:399**

- Estimation of the maximum number of argon laser burns possible in panretinal photocoagulation, **97:697**
- Evulsion of the retina associated with optic nerve evulsion, **104:5**; correction, **104:209**
- Experimental and clinical observations of the intraocular toxicity of commercial corticosteroid preparations, **101:190**
- Experimental epiretinal proliferation induced by intravitreal red blood cells, **102:188**
- Experimental model of carotid artery occlusive disease, **97:168**
- Expression of HLA-DR antigen on retinal pigment epithelial cells in retinitis pigmentosa, **101:584**
- Familial retinal arteriolar tortuosity with retinal hemorrhage (letter), **95:556**
- Fireworks burn of choroid and retina (letter), **97:643**
- Fleck retina in Kjellin's syndrome, **99:45**
- Fleck retina in Kjellin's syndrome (correspondence), **99:618**
- Fleck retina in Kjellin's syndrome (correspondence), **99:738**
- Fluorescein angiography in massive retinal gliosis (letter), **103:593**
- Fluorescein angiography in reticular degeneration of the pigment epithelium, **100:202**
- Foreign-body giant cell reaction to liquid silicone, **101:680**
- Formation of drusen in the human eye, **101:342**
- Foveal densitometry in central serous chorioidopathy, **98:359**
- Fresh preparation of subretinal fluid aspirations in Coats' disease (letter), **100:327**
- Geographic atrophy of the retinal pigment epithelium, **102:621**
- Hepatitis B surface antigen in human subretinal fluid (letter), **95:712**
- High-resolution photography of the retinal nerve fiber layer, **96:535**; correction, **96:824**
- High-resolution photography of the retinal nerve fiber layer (correspondence), **97:252**
- Histopathologic and immunohistopathologic features of subretinal fibrosis and uveitis syndrome, **104:15**
- Histopathology of ocular changes in chronic granulomatous disease (letter), **96:810**
- Hydroxychloroquine therapy in massive total doses without retinal toxicity, **104:139**
- Hyperoxemic retinal necrosis in the premature neonate (correspondence), **103:343**
- Hyperoxemic retinal neuronal necrosis in the premature neonate, **102:423**
- Hyperoxemic retinal neuronal necrosis in the premature neonate (correspondence), **103:726**
- Immune complex containing herpesvirus antigen in a patient with acute retinal necrosis, **101:368**
- Immunohistopathologic study of trilateral retinoblastoma, **103:776**
- Importance of fluid absorption, traction, intraocular currents, and chorioretinal scars in the therapy of rhegmatogenous retinal detachments. XLI Edward Jackson Memorial Lecture, **98:681**
- Improved visualization of the retina during endophotocoagulation (letter), **98:805**

- Vitrectomy for advanced stages of retinopathy of prematurity, 102:710
- Retinopexy**
- Experimental transvitreal cyanoacrylate retinopexy, 102:199
- Experimental transvitreal cyanoacrylate retinopexy in a primate model, 103:782
- Experimental transvitreal cyanoacrylate retinopexy through silicone oil, 102:717
- Staphylococcus epidermidis* endophthalmitis after pneumatic retinopexy (letter), 103:720
- Transvitreal cyanoacrylate retinopexy in the management of complicated retinal detachment, 104:127
- Retinoschisis**
- Degenerative retinoschisis with giant outer layer breaks and retinal detachment, 99:114
- Degenerative retinoschisis with giant outer layer breaks and retinal detachment (correspondence), 99:740
- Retinal hamartoma, acquired retinoschisis, and retinal hole (letter), 99:604
- Vascular leakage, neovascularization, and vitreous hemorrhage in senile bullous retinoschisis, 95:826
- Retrobulbar space**
- Autoimmune retrobulbar optic neuritis (correspondence), 104:195
- Surgical approach to the medial retrobulbar space, 96:1
- Retrolental fibroplasia**
- Retrolental fibroplasia in full-term infants without exposure to supplemental oxygen, 97:148
- Retrolental fibroplasia in full-term infants without exposure to supplemental oxygen (correspondence), 98:124
- Rhinoscleroma**
- Rhinoscleroma with bilateral orbital involvement (letter), 101:381
- Rifampin**
- Methicillin-resistant *Staphylococcus epidermidis* blepharitis, 98:562
- Rod**
- 11-Cent test for low-illumination visual dysfunction (nyctalopia) (letter), 99:733
- Color plates to help identify patients with blue cone monochromatism, 95:741
- Evolution of benign concentric annular macular dystrophy, 100:73
- Ultrastructural study of retinal photoreceptor degeneration associated with bronchial carcinoma, 97:277
- Rosacea**
- Multiple chalazia and rosacea in a patient treated with amiodarone (letter), 103:594
- Ocular rosacea in blacks, 101:441
- Ocular rosacea in blacks (correspondence), 102:284

Tear studies in ocular rosacea, **99:530**

Tear studies in ocular rosacea (correspondence), **100:742**

#### **Roth spot**

Prospective study of the ophthalmologic findings in the acquired immune deficiency syndrome in Africa, **100:230**

#### **Rubeola**

Rubeola retinopathy and pigmented paravenous retinochoroidal atrophy (letter), **99:605**

#### **Rubeosis iridis**

Experience with intraocular lens implants in patients with diabetes, **96:94**

Radiation retinopathy as an experimental model for ischemic proliferative retinopathy and rubeosis iridis, **103:790**

### **S**

#### **Saccades**

Clinicoradiographic correlation of bilateral horizontal gaze palsy and slowed vertical saccades with midline dorsal pontine lesion on magnetic resonance imaging (letter), **101:118**

Indirect ophthalmoscope lens and eye movement disorders (letter), **99:491**

Ocular motility testing in the evaluation of visual hallucinations, **95:772**

#### **Saldino-Mainzer syndrome**

Leber's congenital amaurosis associated with familial juvenile nephronophthisis and cone-shaped epiphyses of the hands (the Saldino-Mainzer syndrome), **97:233**

#### **Sarcoidosis**

Choroidal granuloma in sarcoidosis, **97:419**

Conjunctival biopsy in sarcoidosis, **99:68**

Conjunctival biopsy in sarcoidosis (correspondence), **100:346**

Conjunctival biopsy in sarcoidosis (correspondence), **100:347**

Diagnosing sarcoidosis by transconjunctival biopsy of the lacrimal gland, **97:573**

Diagnosing sarcoidosis by transconjunctival biopsy of the lacrimal gland (correspondence), **98:640**

Eleven cases of sarcoidosis of the optic nerve, **97:62**

HLA-A, -B, and -DR antigenic factors in ocular sarcoidosis (letter), **96:396**

Incidence of granulomatous lesions in postmortem conjunctival biopsy specimens, **104:605**

Intralesional triamcinolone for cutaneous palpebral sarcoidosis, **99:561**

Involvement of orbital tissues by sarcoid, **102:302**

Ocular involvement in chronic sarcoidosis, **102:297**

The predictive value of serum angiotensin converting enzyme and lysozyme levels in the diagnosis of ocular sarcoidosis, **104:211**

Role of the ophthalmologist in the management of sarcoidosis (editorial), **103:99**

#### **Sarcoma**

Acquired immune deficiency syndrome (editorial), **97:240**

Acquired immune deficiency syndrome retinopathy, pneumocystis, and cotton-wool spots (editorial), **98:235**

Cytologic diagnosis of myeloid sarcoma (letter), **99:496**

Metastasis of primary osteogenic sarcoma to the eyelid (letter), **104:659**

Prospective study of the ophthalmologic findings in the acquired immune deficiency syndrome, **97:133**

#### **Schlemm's canal**

Bilateral glaucoma caused by nasal carcinoma obstructing Schlemm's canal (letter), **96:550**

#### **Schnyder's dystrophy**

Unesterified cholesterol in Schnyder's corneal crystalline dystrophy, **104:157**

#### **Sclera**

Evisceration with eversion of the scleral shell and muscle cone positioning of the implant, **104:265**

Extracellular matrix of the human lamina cribrosa, **104:567**

Long-term results of scleral reinforcement surgery, **103:544**

Long-term results of scleral reinforcement surgery (correspondence), **104:442**

Long-term results of scleral reinforcement surgery (correspondence), **104:554**

Observations on long-term follow-up of posterior scleritis (correspondence), **102:671**

Scleral canal size and optic nerve head drusen, **99:356**; correction, **99:745**

Scleral flap surgery for modification of corneal astigmatism, **104:259**

Scleral hyperplasia induced by heat, **102:25**

#### **Scleral buckle**

Effect of scleral buckling on vector forces caused by epiretinal membranes, **102:449**; correction, **104:667**

Factors influencing final visual results in severely injured eyes, **97:715**

Lincoff temporary balloon buckle, **101:646**

Modified Watzke sleeve spreader (letter), **104:308**

Mountain travel and intraocular gas bubbles (letter), **104:546**

New polyvinyl alcohol hydrogel as a scleral buckling material (letter), **100:328**

Pathophysiology of proliferative vitreoretinopathy in its management, **100:188**

Physical activity after retinal detachment surgery, **98:171**

Removal of solid silicone rubber explants after retinal detachment surgery, **95:495**

Results of conventional vitreoretinal surgery for proliferative vitreoretinopathy, **100:141**

Retinal circulatory changes after scleral buckling procedures, **95:182**

- Scleral buckling for retinal detachment in patients with retinoblastoma, 98:473
- Silicone oil and its influence on electrophysiologic findings, 99:201
- Surgical treatment of retinal detachments complicated by proliferative vitreoretinopathy, 98:694
- Vitrectomy without scleral buckling for primary rhegmatogenous retinal detachment, 99:275
- Wedge implant used as explant (letter), 101:488
- Scleritis**
- Observations on long-term follow-up of posterior scleritis, 101:570
- Ophthalmic features of necrobiotic xanthogranuloma with paraproteinemia, 97:173
- Syphilitic episcleritis and scleritis, 104:595
- Scleroplasty**
- Scleroplasty after evisceration and ball implant (letter), 97:530
- Sclerostomy**
- Fluorescein in laser sclerostomy (letter), 104:432
- Scotoma**
- Anomalous macular vessel and associated acquired paracentral scotoma (letter), 96:808
- Comparison of visual field defects in normal-tension glaucoma and high-tension glaucoma, 101:204
- Demonstration of scotoma on an Amsler grid examination (letter), 100:740
- Diffuse visual field loss in chronic open-angle and low-tension glaucoma, 104:577
- Mode of progression of visual field defects in glaucoma, 98:443
- Optical hazards of intraocular lenses during vitreous surgery (letter), 97:386
- Punctate inner choroidopathy, 98:572
- Rate of progression of scotomas in glaucoma, 101:1
- Retinopathy associated with acute pancreatitis, 100:246
- Scintillating scotoma as the first symptom of systemic lupus erythematosus (letter), 99:607
- Scintillating scotomas relieved with topical timolol (letter), 104:432
- Use of different-sized stimuli in automated perimetry, 101:710
- Use of the red amsler grid and red-green lenses in detecting spurious paracentral visual field defects (letter), 103:338
- Sebaceous carcinoma**
- Recurrent and residual sebaceous carcinoma after Mohs' excision of the primary lesion, 103:817
- Sebaceous gland**
- Demodex* infestation of the sebaceous gland (letter), 95:843
- Senile bullous retinoschisis**
- Vascular leakage, neovascularization, and vitreous hemorrhage in senile bullous retinoschisis, 95:826
- Senile macular degeneration**
- High blood pressure in choroidal arteries as a possible pathogenetic mechanism in senile macular degeneration (letter), 96:398
- Management of choroidal neovascularization within the foveal avascular zone in senile macular degeneration, 95:818
- Senile reticular pigmentary degeneration, 98:717
- Subretinal neovascularization in senile macular degeneration, 97:143
- Senile reticular pigmentary degeneration**
- Senile reticular pigmentary degeneration, 98:717
- Senior-Loken syndrome**
- Carrier detection in tapetoretinal degeneration in association with medullary cystic disease, 95:487
- Leber's congenital amaurosis associated with familial juvenile nephronophthisis and cone-shaped epiphyses of the hands (the Saldino-Mainzer syndrome), 97:233
- Senior-Loken syndrome (familial renal-retinal dystrophy) and Coats' disease, 100:822
- Serratia sp.**
- Bilateral uveitis during *Serratia marcescens* sepsis (letter), 96:402
- Corneal ulcers in patients with cosmetic extended-wear contact lenses, 96:705
- Superinfections in herpes simplex keratitis, 96:354
- Shigella sp.**
- Corneal ulcer caused by *Shigella flexneri* in an infant (letter), 104:90
- Shotgun injury**
- Bilateral ocular shotgun injury, 103:695
- Sickle cell trait**
- Macular arteriolar occlusions in sickle cell beta-thalassemia (letter), 101:739
- Silicone**
- Complete canalicular erosion associated with silicone stents (letter), 101:382
- Lacrimal drainage system inflammatory masses from retained silicone tubing, 98:609
- Ultrasonic findings after treatment of retinal detachment by intravitreal silicone instillation, 98:369
- Silicone oil**
- Endophthalmitis in a silicone oil-filled eye (letter), 102:660
- Experimental transvitreal cyanoacrylate retinopexy through silicone oil, 102:717
- Intraocular hypertension resulting from pupillary block by silicone oil (letter), 99:87
- Long-term results of successful vitrectomy with silicone oil for advanced proliferative vitreoretinopathy, 103:24
- Long-term results of vitrectomy and silicone oil in 500 cases of complicated retinal detachments, 104:624
- New silicone oil pump (letter), 99:210

- Silicone oil and its influence on electrophysiologic findings, **99:201**
- Ultrastructural characteristics of preretinal membranes from human eyes filled with silicone oil, **103:770**
- Sinus**
- Sphenoid sinus mucocele (anterior clinoid variant) mimicking diabetic ophthalmoplegia and retrobulbar neuritis, **102:111**
- Sinus histiocytosis**
- Globe involvement in sinus histiocytosis (letter), **95:124**
- Sjögren's syndrome**
- Chronic anterior and posterior uveitis and primary Sjögren's syndrome, **104:346**
- Retinal vasculitis associated with autoantibodies to Sjögren's syndrome A antigen, **100:814**
- Sjögren's syndrome and thymoma (letter), **104:90**
- Slit lamp**
- Noncontact retinal photocoagulation at the slit-lamp biomicroscope, **104:290**
- Projection microscopy with the slit lamp and an eyepiece (letter), **102:401**
- Using a slit lamp for the neuro-ophthalmologic evaluation of old photographs (letter), **95:558**
- Wheelchair biomicroscopy (letter), **95:716**
- Sneddon's disease**
- Central retinal artery occlusion in Sneddon's disease associated with antiphospholipid antibodies, **102:37**
- Socket syndrome**
- Scleroplasty after evisceration and ball implant (letter), **97:530**
- Sodium chondroitin**
- Corneal subepithelial deposits after use of sodium chondroitin (letter), **102:279**
- Sodium hyaluronate**
- Comparison of the effects of Viscoat and Healon on postoperative intraocular pressure, **100:377**
- Comparison of the effects of Viscoat and Healon on postoperative intraocular pressure (correspondence), **101:389**
- Comparison of the effects of Viscoat and Healon on postoperative intraocular pressure (correspondence), **102:404**
- Corneal endothelial loss with new intraocular lenses, **98:157**
- Effect of sodium hyaluronate, chondroitin sulfate, and methylcellulose on the corneal endothelium and intraocular pressure (correspondence), **96:256**
- Effect of sodium hyaluronate on endothelial cell damage during extracapsular cataract extraction and posterior chamber lens implantation, **98:759**
- Effects of sodium hyaluronate, chondroitin sulfate, and methylcellulose on the corneal endothelium and intraocular pressure, **95:332**
- Healon (sodium hyaluronate) in posterior chamber lens implantation (letter), **97:389**
- Intraocular foreign body from a Healon syringe (letter), **104:427**
- Obstruction of aqueous outflow by sodium hyaluronate in enucleated human eyes, **95:668**
- Procoagulant effects of intraocular sodium hyaluronate (letter), **100:479**
- Sodium hyaluronate (Healon) as an adjunct to lacrimal surgery (letter), **99:365**
- Sodium hyaluronate (Healon) for protection of the corneal endothelium during nuclear expression in extracapsular cataract extraction (letter), **103:591**
- Sodium hyaluronate, hyphema, and vitreoretinal surgery (letter), **101:738**
- Surgical wound leaks associated with sodium hyaluronate (Healon) (letter), **95:714**
- Use of hydroxypropyl methylcellulose in extracapsular cataract extraction with intraocular lens implantation, **102:723**
- Xenon endophotocoagulation under air using sodium hyaluronate (letter), **97:785**
- Spectacles**
- Artifacts introduced by spectacle lenses in the measurement of strabismic deviations, **96:439**
- Artifacts introduced by spectacle lenses in the measurement of strabismic deviations (correspondence), **99:91**
- Multipurpose low-vision aid, **95:243**
- Progressive-addition lenses in the treatment of accommodative esotropia, **99:56**
- Progressive-addition lenses in the treatment of accommodative esotropia (correspondence), **99:497**
- Why patients return after refraction (letter), **96:690**
- Spherocytosis**
- Angioid streaks associated with hereditary spherocytosis, **97:444**
- Angioid streaks associated with hereditary spherocytosis (correspondence), **98:647**
- Sphincterotomy**
- High-efficiency laser iridotomy-sphincterotomy lens (correspondence), **102:670**
- Squamous cell carcinoma**
- Management of intraepithelial conjunctival tumors and squamous cell carcinomas, **95:359**
- Squamous cell carcinoma of the limbal conjunctiva with corneal involvement and racial melanosis in a Nigerian woman (letter), **96:105**
- Staphylococcus sp.**
- Absolute IgG4 deficiency and recurrent bacterial blepharokeratoconjunctivitis (letter), **98:243**

- Surgical treatment of congenital esotropia (correspondence), **97:112**
- Strabismus**
- Abnormal sensory findings secondary to monocular cataracts in children and strabismic adults, **102:349**
- Anterior segment ischemia after strabismus surgery in a child (letter), **103:833**
- Artifacts introduced by spectacle lenses in the measurement of strabismic deviations, **96:439**
- Artifacts introduced by spectacle lenses in the measurement of strabismic deviations (correspondence), **99:91**
- Congenital cataract and intraocular lenses, **96:311**
- Depth of strabismic amblyopia determined with neutral density filters, **95:763**
- Depth of strabismic amblyopia determined with neutral density filters (correspondence), **97:400**
- Direct measurement of strabismic deviation in highly ametropic patients (letter), **98:114**
- Graphic analysis of paralytic strabismus with the Lancaster red-green test, **97:587**
- Incidence of strabismus in neonates, **100:798**
- Juvenile myasthenia gravis and amblyopia, **101:214**
- Lack of alternation in patients treated for strabismic amblyopia, **99:63**
- Latent nystagmus and strabismic amblyopia, **103:87**
- Marking suture for use in adjustable strabismus surgery (letter), **101:614**
- Modified placement of adjustable strabismus sutures (letter), **103:723**
- Muscle inclusion cyst as a complication of strabismus surgery (letter), **100:740**
- Nonaccommodative convergence excess, **101:70**
- Ocular abnormalities in the Freeman-Sheldon syndrome, **102:346**
- Ocular features of Down's syndrome, **99:659**
- Oculocardiac reflex during manipulation of adjustable sutures after strabismus surgery, **104:61**
- Oculocardiac reflex during manipulation of adjustable sutures after strabismus surgery (correspondence), **104:551**
- Prolonged apnea caused by inherited cholinesterase deficiency after strabismus surgery (letter), **96:392**
- Pulfrich effect in anisometropic amblyopia and strabismus, **98:499**
- Pulfrich effect in anisometropic amblyopia and strabismus (correspondence), **99:370**
- Sequelae of botulinum toxin injection, **100:305**
- Simple technique to tighten loose sutures during strabismus surgery (letter), **101:123**
- Succinylcholine and the basic ocular deviation, **95:315**
- Succinylcholine and the basic ocular deviation (correspondence), **96:120**; correction, **96:417**
- Surgical treatment of lateral rectus muscle paralysis, **97:511**
- Sustained increases in intraocular pressure during strabismus surgery, **101:308**
- Streptococcus sp.**
- Infectious crystalline keratopathy, **97:337**
- Penicillin-resistant *Streptococcus pneumoniae* keratitis (letter), **97:388**
- Superinfections in herpes simplex keratitis, **96:354**
- Stroma**
- Acyclovir in the treatment of herpetic stromal disease, **98:537**
- Successful treatment of fungal keratitis caused by *Paecilomyces lilacinus* (letter), **98:626**; correction, **98:835**
- Subclavian artery**
- Digital subtraction angiography in the diagnosis of retinal vascular disease, **96:632**
- Subretinal fluid**
- Digoxin in the subretinal spaces of humans with rhegmatogenous retinal detachments (letter), **100:490**
- Fresh preparation of subretinal fluid aspirations in Coats' disease (letter), **100:327**
- Nuclear magnetic resonance imaging of subretinal fluid, **102:640**
- Retinal perforator for internal drainage (letter), **97:786**

**Succinylcholine**

Prolonged apnea caused by inherited cholinesterase deficiency after strabismus surgery (letter), 96:392

Succinylcholine and the basic ocular deviation, 95:315

Succinylcholine and the basic ocular deviation (correspondence), 96:120; correction, 96:417

**Sulfacetamide**

Corneal white plaques caused by sulfacetamide eyedrops (letter), 98:378

Erythema multiforme after use of topical sulfacetamide, 99:465

Treatment of *Nocardia* keratitis with topical trimethoprim-sulfamethoxazole (letter), 99:601

**Sulfamethoxazole**

Treatment of *Nocardia* keratitis with topical trimethoprim-sulfamethoxazole (letter), 99:601

**Sulfanilamide**

Transient myopia associated with vaginal sulfanilamide suppositories (letter), 98:120

**Sulfate**

Topical application of hyaluronic acid and chondroitin sulfate in the treatment of dry eyes, 103:194

**Sulfonamide**

Transient myopia induced by sulfonamides (letter), 101:495

Transient myopia induced by sulfonamides (correspondence), 102:283

**Sulfur hexafluoride**

Comments on intravitreal sulfur hexafluoride (letter), 95:849

Further comments on intravitreal sulfur hexafluoride (letter), 95:849

Results of sulfur hexafluoride gas in vitreous surgery (correspondence), 96:405

Sulfur hexafluoride gas in the repair of intractable Descemet's membrane detachment (letter), 104:660

**Superficial temporal artery**

Use of the Doppler probe to detect the course of the superficial temporal artery (letter), 97:526

**Surgery**

Integration of vitreoretinal instrumentation (letter), 100:856

Intraocular thymoxamine for miosis during surgery (letter), 103:709

Modified flute needle (letter), 96:548

New drape support for ophthalmic surgery (letter), 97:391

**Suture**

Bacterial endophthalmitis associated with exposed monofilament sutures following corneal transplantation, 99:111

Changes in corneal curvature induced by sutures and incisions, 98:773; correction, 98:835

Changes in corneal curvature induced by sutures and incisions (correspondence), 99:497

Complications of exposed monofilament sutures, 95:515

Marking suture for use in adjustable strabismus surgery (letter), 101:614

Modified placement of adjustable strabismus sutures (letter), 103:723

Suture cutter-remover device (letter), 98:639

Use of a cautery for trimming exposed nylon sutures (letter), 96:691

Use of the argon laser in suture removal after cataract surgery (letter), 97:393

**Sympathetic ophthalmia**

Effect of corticosteroid treatment and enucleation on the visual prognosis of sympathetic ophthalmia, 96:290

Histocompatibility antigens in sympathetic ophthalmia, 95:216

Histocompatibility antigens in sympathetic ophthalmia (letter), 98:117

**Syphilis**

Syphilitic episcleritis and scleritis, 104:595

Syphilitic neuroretinitis, 95:480

Syphilitic retinitis in a patient with acquired immunodeficiency syndrome-related complex (letter), 103:103

**T****Tamoxifen**

Tamoxifen retinopathy at low dosage (letter), 104:185

**Tapetoretinal degeneration**

Carrier detection in tapetoretinal degeneration in association with medullary cystic disease, 95:487

**Tarsorrhaphy**

Advantages of partial patching or tarsorrhaphy over complete eyelid closure (letter), 103:339

Tarsorrhaphy fixation forceps (letter), 97:393

**Tarsus**

Combined viable composite graft and temporal semicircular skin flap procedure, 98:349

Surgical management of floppy eyelid syndrome, 99:557

Treatment of eyelid retraction with two pedicle tarsal rotation flaps, 95:539

Vertical tarsal buckling as a complication of levator aponeurosis repair for acquired blepharoptosis, 97:93

Vertical tarsal buckling as a complication of levator aponeurosis repair for acquired blepharoptosis (correspondence), 98:645

**T cell**

Cyclosporin A therapy in the treatment of intraocular inflammatory disease resistant to systemic corticosteroids and cytotoxic agents, 96:275

Expression of HLA-DR antigen on retinal pigment epithelial cells in retinitis pigmentosa, 101:584

Herpes zoster ophthalmicus in patients at risk for the acquired immune deficiency syndrome (AIDS), 101:153

HTLV-III screening by eye banks (correspondence), 101:385

Human T-cell leukemia/lymphotropic virus type III in the conjunctival epithelium of a patient with AIDS, 100:507

Identification of T lymphocytes in ocular adnexal neoplasms by hybridoma monoclonal antibodies, 95:233

Isolation of the human T-cell leukemia/lymphotropic virus type III from the cornea, 101:149

Lymphocyte subpopulations before therapy in patients with uveal malignant melanoma, 101:160

Natural killer cells against human corneal endothelium, 99:524

Ocular inflammatory disease. The lymphocyte redi-vivus (editorial), 96:384

Risk posed by HTLV-III-infected corneal donor tissue (editorial), 101:246

Serologic and immunopathologic findings in temporal arteritis, 96:283

Successful treatment of fungal keratitis caused by *Paecilomyces lilacinus* (letter), 98:626; correction, 98:835

T-lymphocyte subsets in the aqueous humor and peripheral blood of patients with acute untreated uveitis, 98:62

T lymphocyte subsets in uveitis, 95:614

Toxoplasmic retinochoroiditis as an initial manifestation of the acquired immune deficiency syndrome (letter), 101:248

## **Tear**

Avulsed retinal veins without retinal breaks (correspondence), 99:739

Comparison of lesions predisposing to rhegmatogenous retinal detachment by race of subjects, 96:644

Complications of acute symptomatic posterior vitreous detachment, 97:308

Diagnosis and pathogenesis of retinal pigment epithelial tears, 100:698

Diagnosis and pathogenesis of retinal pigment epithelial tears (correspondence), 101:502

Fluid dynamics in eyes with rhegmatogenous retinal detachments, 99:673

Importance of fluid absorption, traction, intraocular currents, and chorioretinal scars in the therapy of rhegmatogenous retinal detachments. XLI Edward Jackson Memorial Lecture, 98:681

Myopic cracks, angioid streaks, and traumatic tears in Bruch's membrane, 103:537

Photoreceptor outer segments in the aqueous humor in rhegmatogenous retinal detachment, 101:673

Plastic tack for the treatment of retinal detachment with giant tear (letter), 95:260

Postoperative positioning with a circular electric bed for a giant retinal tear in a retarded patient (letter), 98:816

Results of conventional vitreous surgery for proliferative vitreoretinopathy, 100:141

Retinal tear localization following fluid-gas exchange during pars plana vitreoretinal surgery (letter), 97:390

Retinal tears with total vitreous hemorrhage, 95:659

Risk of retinal tears in patients with vitreous floaters, 96:783

Surgical treatment of giant retinal tears with inverted posterior retinal flaps, 98:463

Tear of the retinal pigment epithelium and serous retinal detachment (letter), 100:488

Vitrectomy for nondiabetic vitreous hemorrhage, 96:517

## **Tears**

Absent meibomian glands in the ectrodactyly, ectodermal dysplasia, cleft lip-palate syndrome, 97:496

Azlocillin levels in human tears and aqueous humor, 99:469

Collection of tear samples with or without stimulation (letter), 96:115

Corneal abrasion resulting from a unit dose artificial tear dispenser (letter), 103:333

Diagnosing sarcoidosis by transconjunctival biopsy of the lacrimal gland (correspondence), 98:640

Effect of a diuretic (hydrochlorothiazide) on tear production in humans, 99:473

Hydroxychloroquine crystals in the tear film of a patient with rheumatoid arthritis (letter), 101:377

IgG specific antibodies to rye grass and ragweed pollen antigens in the tear secretions of patients with vernal conjunctivitis, 95:161

Lower eyelid laxity and ocular symptoms, 95:545

Piperacillin levels in human tears and aqueous humor, 98:17

Piperacillin levels in human tears and aqueous humor (correspondence), 98:821

Proposed mechanism for increased tear-film osmolarity in contact lens wearers, 102:505

Tear immunoglobulins in giant papillary conjunctivitis induced by contact lenses, 96:460

Tear immunoglobulins in giant papillary conjunctivitis induced by contact lenses (correspondence), 97:397

Tear studies in ocular rosacea, 99:530

Tear studies in ocular rosacea (correspondence), 100:742

Topical application of hyaluronic acid and chondroitin sulfate in the treatment of dry eyes, 103:194

## **Telangectasia**

Abnormal glucose metabolism and parafoveal telangiectasia, 102:363

Fresh preparation of subretinal fluid aspirations in Coats' disease (letter), 100:327

## **Teratoma**

Congenital orbital teratomas, 102:476

## **Terrien's marginal degeneration**

Primary surgical repair of severe peripheral marginal ectasia in Terrien's marginal degeneration, 97:332

**Terson's syndrome**

Vitrectomy for nondiabetic vitreous hemorrhage, 96:517

**Tetracycline**

*Pseudomonas* keratitis and folliculitis from whirlpool exposure, 101:41

**Thalassemia**

Sea-fan neovascularization in diabetes with thalassemia (letter), 98:800

**Thermal burns**

Management of corneal contact thermal burns (letter), 102:536

**Thymoxamine**

Intraocular thymoxamine for miosis during surgery (letter), 103:709

**Timolol**

Adverse respiratory and cardiovascular events attributed to timolol ophthalmic solution, 1978-1985, 102:606

Adverse respiratory and cardiovascular events attributed to timolol ophthalmic solution, 1978-1985 (correspondence), 103:844

Bilateral effects of long-term monocular timolol therapy, 104:591

Bilateral effects of monocular timolol treatment (letter), 102:275

Cardiovascular effects of topical beta-blockers during exercise, 99:173

Caution on the preoperative use of topical timolol (letter), 95:561

Comparison of two treatment schedules for combined timolol and dipivefrin therapy, 102:320

Compliance with topical timolol treatment, 103:188

Double-masked comparison of betaxolol vs timolol in the treatment of open-angle glaucoma, 101:535

A double-masked study of timolol and pilocarpine combined, 104:587

Effect of *d*-timolol on intraocular pressure in patients with ocular hypertension, 98:73

Effect of indomethacin on the ocular hypotensive action of timolol maleate, 98:79

Effect of timolol on aqueous humor protein concentration in humans, 95:448

Effect of timolol on the concentrations of albumin and IgG in the aqueous humor of the human eye, 96:726

Effect of topical indomethacin and timolol maleate on intraocular pressure in normal subjects, 99:576

Effects of topical betaxolol, timolol, and placebo on pulmonary function in asthmatic bronchitis, 97:86

Effects of topical betaxolol, timolol, and placebo on pulmonary function in asthmatic bronchitis (correspondence), 100:492

Effects of topical timolol on corneal endothelial cell morphology in vivo, 96:615

Levobunolol vs timolol for open-angle glaucoma and ocular hypertension, 99:11

Minimum concentration of levobunolol required to control intraocular pressure in patients with primary open-angle glaucoma or ocular hypertension, 99:18

Ocular beta-blockers and systemic effects (editorial), 98:623

Overcorrected visual acuity improved by antiglaucoma medication after radial keratotomy (letter), 101:374

Scintillating scotomas relieved with topical timolol (letter), 104:432

Side effects of topical ocular timolol (letter), 95:562

Side effects of topical ocular timolol (correspondence), 96:552

Timolol-associated myasthenia gravis (letter), 98:244

**Tobramycin**

Comparative toxicity of intravitreal aminoglycoside antibiotics, 100:264

Corneal ulcers in patients with cosmetic extended-wear contact lenses, 96:705

**Tonometry**

Acute corneal bullae produced during noncontact tonometry (letter), 101:375

Clinical evaluation of the Dicon CAT 100 applanation tonometer, 99:708

Clinical evaluation of the Oculab Tono-Pen, 104:168

Comparison of the Challenger digital applanation tonometer and the Goldmann applanation tonometer, 102:154

Disinfectant receptacle for applanation tonometers (letter), 104:307

Disposable parafilm cover for the applanation tonometer (letter), 102:397

Goldmann applanation tonometry in patients with regular corneal astigmatism, 96:90

Inadvertent intracameral air instillation during noncontact tonometry (letter), 95:708

Ocular palpation in pseudophakia (letter), 104:307

A simple simulated eye for use in tonometry training (letter), 104:541

Viability of herpes simplex virus type 1 on the applanation tonometer, 103:48

Wheelchair Shiøtz tonometry (letter), 95:400

**Torsion**

Ocular torsional movements in normal humans, 95:752

**Toxoplasma sp.**

Factors related to the initiation and recurrence of uveitis. XL Edward Jackson Memorial Lecture, 96:577

Toxoplasmic retinochoroiditis as an initial manifestation of the acquired immune deficiency syndrome (letter), 101:248

**Toxoplasmosis**

Clindamycin in the treatment of toxoplasmic retinohoroiditis, 95:605

Retinal neovascularization and ocular toxoplasmosis, 98:585

**Trabecular meshwork**

Argon laser trabeculoplasty in pigmentary dispersion syndrome with glaucoma, 96:721

Developmental immaturity of the trabecular meshwork in juvenile glaucoma, 98:82

Localization of extracellular proteins of the human trabecular meshwork by indirect immunofluorescence, 104:33

Low-dose trabeculoplasty, 95:423

**Trabeculectomy**

Extracapsular cataract extraction and posterior chamber intraocular lens implantation combined with trabeculectomy in patients with glaucoma, 104:465

Hypotony and choroidal detachment as late complications of trabeculectomy, 103:685

Limbal- vs fornix-based conjunctival trabeculectomy flaps, 104:28

Long-term results of silicone tube in filtering surgery for eyes with neovascular glaucoma, 97:501

*Moraxella nonliquefaciens* endophthalmitis after trabeculectomy, 99:343

Penetrating keratoplasty with trabeculectomy, 100:593

Reopening blocked trabeculectomy sites with the YAG laser, 95:293

Use of therapeutic ultrasound to restore failed trabeculectomies, 103:492

**Trabeculoplasty**

Argon laser trabeculoplasty as a means of decreasing intraocular pressure from "normal" levels in glaucomatous eyes, 99:704

Argon laser trabeculoplasty in pigmentary dispersion syndrome with glaucoma, 96:721

Argon laser trabeculoplasty in younger patients with primary open-angle glaucoma, 97:292

Autopsy eye model for laser trabeculoplasty and iridectomy (letter), 102:664

A controlled five-year follow-up study of laser trabeculoplasty as primary therapy for open-angle glaucoma, 104:334

Effect of cataract surgery on intraocular pressure reduction obtained with laser trabeculoplasty, 100:373

Effect of cataract surgery on intraocular pressure reduction obtained with laser trabeculoplasty (correspondence), 101:133

Effect of trabecular photocoagulation on the aqueous humor dynamics of the human eye, 96:139

Effects of corticosteroid pretreatment on argon laser trabeculoplasty, 96:84

Effects of corticosteroid pretreatment on argon laser trabeculoplasty (correspondence), 96:693

Factors influencing the outcome of laser trabeculoplasty, 99:388

Factors influencing the outcome of laser trabeculoplasty (correspondence), 100:620

Fluorophotometric study of the effect of argon laser trabeculoplasty on aqueous humor dynamics, 99:579

Immediate intraocular pressure response to argon laser trabeculoplasty, 95:279

Immediate intraocular pressure response to argon laser trabeculoplasty (correspondence), 96:122

Influence of the number of laser burns administered on the early results of argon laser trabeculoplasty, 95:287

Laser trabeculoplasty re-treatment, 99:8

Long-term results of low power, long duration laser trabeculoplasty, 104:339

Low-dose trabeculoplasty, 95:423

Pilocarpine and the increase in intraocular pressure after trabeculoplasty (letter), 97:647

Relationship of patient age and tolerance to carbonic anhydrase inhibitors, 96:730

Repeat argon laser trabeculoplasty (letter), 103:113

Topical indomethacin therapy before argon laser trabeculoplasty, 99:571

Two-stage argon laser trabeculoplasty in open-angle glaucoma, 99:392

**Trabeculotomy**

Goniotomy vs external trabeculotomy for developmental glaucoma, 95:427

**Trauma**

Corneal birth trauma managed with a contact lens (letter), 103:596

Evulsion of the retina associated with optic nerve evulsion, 104:5; correction, 104:209

Fluctuating visual loss secondary to orbital emphysema (letter), 104:664

Intraocular daunorubicin for the treatment and prophylaxis of traumatic proliferative vitreoretinopathy, 104:10

Pars plana vitrectomy for severe penetrating injury with posterior segment involvement, 103:549

Safety of magnetic resonance imaging with intraorbital metallic objects after retinal reattachment or trauma (letter), 103:831

Traumatic wound dehiscence after penetrating keratoplasty, 104:44

**Trephine**

A method for accurate centering of the Hessburg-Barron trephine (letter), 103:712

**Triamcinolone**

Effect of triamcinolone acetonide on a refined experimental model of proliferative vitreoretinopathy, 99:686

Intralesional triamcinolone for cutaneous palpebral sarcoidosis, 99:561

**Trifluoromethazolidamide**

Effect of topically administered carbonic anhydrase inhibitors on aqueous humor dynamics in rabbits, 95:222

**Trifluridine**

Trifluridine-associated conjunctival cicatrization (letter), **99:363**

**Trigeminal nerve**

Corneal edema induced by cold in trigeminal nerve palsy, **103:641**

**Trimethoprim**

Clinical evaluation of trimethoprim-containing ophthalmic solutions in humans, **98:11**

Treatment of *Nocardia* keratitis with topical trimethoprim-sulfamethoxazole (letter), **99:601**

**Trinitrotoluene**

Early equatorial cataracts in workers exposed to trinitrotoluene, **95:807**

**Trochlear nerve**

Isolated trochlear nerve palsy secondary to cavernous sinus meningioma (letter), **104:433**

Peripheral innervation of extraocular muscles, **95:520**

**Tumor**

Comparison of the prophylactic effects of 2-deoxycytidine and prednisolone for high-dose intravenous cytarabine-induced keratitis, **104:476**

Computerized ultrasonic tissue characterization of ocular tumors, **96:165**

Congenital orbital teratomas, **102:476**

Histopathologic study of 716 unselected eyes in patients with cancer at the time of death, **95:788**

Immunohistopathologic study of trilateral retinoblastoma, **103:776**

Intraosseous capillary hemangioma of the frontal bone, **103:824**

Nuclear magnetic resonance imaging of intraocular tumors, **102:438**

Recurrent and residual sebaceous carcinoma after Mohs' excision of the primary lesion, **103:817**

S-antigen immunoreactivity in trilateral retinoblastoma, **103:57**

Solitary tumors of meibomian gland origin and Torre's syndrome, **104:179**

Tumor, nodes, and metastasis (TNM) classification of malignant tumors of the eye and ocular adnexa (editorial), **99:83**

Visual status after transsphenoidal surgery at the Mayo Clinic, 1971-1982, **96:200**

**U****Ulcer**

Antimicrobial properties of alkyl-2-cyanoacrylate tissue adhesives in vitro (letter), **95:125**

Bilateral fungal corneal ulcers in a patient with AIDS-related complex (letter), **102:118**

Combination therapy for dendritic keratitis with human leukocyte interferon and acyclovir, **95:346**

Corneal ulcer caused by a biologic insecticide (*Bacillus thuringiensis*) (letter), **95:258**

Corneal ulcer caused by *Shigella flexneri* in an infant (letter), **104:90**

Corneal ulcer resulting from dental instrument injury (letter), **103:334**

Corneal ulcers associated with daily-wear and extended-wear contact lenses, **102:58**

Corneal ulcers associated with extended-wear soft contact lenses, **97:476**

Corneal ulcers in patients with cosmetic extended-wear contact lenses, **96:705**

Extended-wear contact lenses and pseudomonal corneal ulcers (editorial), **101:372**

Intravenous miconazole in the treatment of keratomycosis (letter), **97:646**; correction, **98:257**

Method of collecting culture material from corneal ulcers (letter), **97:105**

*Neisseria meningitidis* conjunctivitis (letter), **97:104**

Oral ketoconazole therapy for keratomycosis, **95:342**

Peripheral corneal ulceration in a patient with AIDS-related complex (letter), **104:542**

*Pseudomonas* keratitis and folliculitis from whirlpool exposure, **101:41**

Radiating folds in Descemet's membrane as a sign of impending corneal perforation (letter), **98:625**

Spontaneous fungal corneal ulcer as an ocular manifestation of AIDS (letter), **104:302**

Therapy of Mooren's ulcer, **98:1**

Topical fibronectin in the treatment of persistent corneal epithelial defects and trophic ulcers, **104:494**

Treatment of neurotrophic ulcers with conjunctival flaps (letter), **103:711**

Ulcerative keratitis associated with contact lens wear, **101:429**

**Ulnar nerve**

Ulnar nerve mononeuropathies after face-down positioning (letter), **102:125**

**Ultrasonography**

Computerized ultrasonic tissue characterization of ocular tumors, **96:165**

New B-scan ultrasonographic technique for observing ciliary body detachment, **95:498**

Ultrasonographic mapping of vitreoretinal abnormalities, **96:622**

Ultrasonography under direct visualization (letter), **96:107**

Use of therapeutic ultrasound to restore failed trabeculectomies, **103:492**

**Usher's syndrome**

Foveal cone pigments and sensitivity in young patients with Usher's syndrome, **103:150**; correction, **104:98**

**Uvea**

Antigens in ocular and cutaneous melanomas (letter), **96:394**

Characterization of human uveal melanoma cells by phosphorus 31 nuclear magnetic resonance spectroscopy, **100:38**

Comparison of survival rates for patients with uveal melanoma after treatment with proton beam irradiation or enucleation, **99:282**

- Correlation of visual field, treatment fields, and dose in helium ion irradiation of uveal melanoma, 100:658
- Differentiation of adenoma of the iris pigment epithelium from iris cyst and melanoma, 100:678
- Echographic and histologic tumor height measurements in uveal melanoma, 100:454
- Echographic and histologic tumor height measurements in uveal melanoma (correspondence), 101:124
- Echographic and histologic tumor height measurements in uveal melanoma (correspondence), 101:126
- Effect of rapid freezing on uveal melanomas, 103:66
- Fine-needle aspirates of uveal melanomas and prognosis, 100:654
- Gamma-glutamyl transpeptidase in the prognosis of patients with uveal malignant melanoma, 95:467
- Gamma-glutamyl transpeptidase in the prognosis of patients with uveal malignant melanoma (correspondence), 96:409
- Hepatic metastasis and orbital recurrence of uveal melanoma after 42 years, 100:666
- Investigation into the association between liver damage and metastatic uveal melanoma, 100:448
- Lymphocyte subpopulations before therapy in patients with uveal malignant melanoma, 101:160
- Lymphocyte subpopulations in uveal malignant melanoma (editorial), 101:483
- Modifications of Callender's classification of uveal melanoma at the Armed Forces Institute of Pathology, 96:502
- 19-9 monoclonal antibody study of adenocarcinoma metastatic to the choroid (letter), 98:815
- Ocular findings in a new heritable syndrome of brain, eye, and urogenital abnormalities, 99:51
- Ocular involvement in congenital leukemia, 101:730
- Posterior uveal melanomas in aphakic and pseudophakic eyes, 101:458
- Therapeutic options in uveal melanoma (editorial), 98:796
- Therapeutic options in uveal melanoma (correspondence), 99:615
- Two cases of uveal metastasis from breast carcinoma in men, 95:208
- Uveal colobomas and Klinefelter's syndrome (letter), 98:241
- Uveal findings in patients with cutaneous melanoma, 95:474
- Uveal findings in patients with ocular and cutaneous melanoma (correspondence), 96:257
- Uveal melanoma necrosis after helium ion therapy, 101:643
- Uveitic glaucoma caused by disseminated meningococemia (letter), 95:707
- Uveitis**
- Acute retinal necrosis in an immunosuppressed patient (letter), 98:515
- Application of mizoribine after keratoplasty and in the treatment of uveitis, 100:161
- Aqueous humor dynamics in Fuchs' uveitis syndrome, 95:783
- Association of Gm allotypes with the occurrence of ankylosing spondylitis in HLA-B27-positive anterior uveitis, 98:732
- Association of Gm allotypes with the occurrence of ankylosing spondylitis in HLA-B27-positive anterior uveitis (correspondence), 102:549
- Bilateral uveitis during *Serratia marcescens* sepsis (letter), 96:402
- Changing patterns of uveitis, 103:131
- Changing patterns of uveitis (correspondence), 104:96
- Chronic anterior and posterior uveitis and primary Sjögren's syndrome, 104:346
- Chronic bacterial postoperative endophthalmitis, 103:745
- Clinical features of acute anterior uveitis, 103:137
- Cyclosporin A therapy in the treatment of intraocular inflammatory disease resistant to systemic corticosteroids and cytotoxic agents, 96:275
- Diagnosis of anterior chamber metastasis by serologic marker found during anterior chamber paracentesis, 102:179

- Penetrating keratoplasty for exogenous *Paecilomyces* keratitis followed by postoperative endophthalmitis, 98:552
- Photoreceptor outer segments in the aqueous humor in rhegmatogenous retinal detachment, 101:673

The predictive value of serum angiotensin converting enzyme and lysozyme levels in the diagnosis of ocular sarcoidosis, **104:211**

A psychosomatic approach to idiopathic recurrences of anterior uveitis, **104:174**

Significance of the pars plana exudate in pars planitis, **103:669**

Therapeutic effects of short-term plasma exchange in endogenous uveitis, **97:565**

Therapeutic effects of short-term plasma exchange in endogenous uveitis (correspondence), **98:383**

T-lymphocyte subsets in the aqueous humor and peripheral blood of patients with acute untreated uveitis, **98:62**

T lymphocyte subsets in uveitis, **95:614**

Tuberculin skin test in the diagnosis of tuberculous uveitis, **96:295**

Tuberculous uveitis (correspondence), **95:126**

## V

### Valsalva maneuver

Demonstration of orbital varix with computed tomography and Valsalva maneuver (letter), **97:108**

Subperiosteal orbital hematoma induced by the Valsalva maneuver (letter), **100:617**

### Vancomycin

Methicillin-resistant *Staphylococcus epidermidis* blepharitis, **98:562**

Topical vancomycin formulation for methicillin-resistant *Staphylococcus epidermidis* blepharoconjunctivitis, **101:283**

### Varicella

New fundus finding in patients with zoster ophthalmicus (letter), **102:532**

Skin test with varicella-zoster virus antigen for ophthalmic herpes zoster, **98:7**

### Vasculitis

Cyclophosphamide in the treatment of orbital vasculitis, **102:97**

Retinal vasculitis associated with autoantibodies to Sjögren's syndrome A antigen, **100:814**

Retinal vasculitis in Crohn's disease, **103:664**

### Vasodilation

Ocular vasodilation and angiogenesis in Potter's syndrome, **97:16**

### Vernal conjunctivitis

Aspirin therapy in vernal conjunctivitis, **95:502**

Cyclosporine eyedrops for the treatment of severe vernal keratoconjunctivitis, **101:278**

IgG specific antibodies to rye grass and ragweed pollen antigens in the tear secretions of patients with vernal conjunctivitis, **95:161**

Lesions resembling Trantas dots in a patient wearing soft contact lenses (letter), **104:305**

Vernal keratoconjunctivitis and keratoconus (letter), **95:704**

Vernal keratoconjunctivitis and keratoconus (correspondence), **96:555**

### Video-ophthalmograph

Correlation between cup-disk ratio, neuroretinal rim area, and optic disk area measured by the video-ophthalmograph (Rodenstock analyzer) and clinical measurement, **101:7**

Correlation between optic disk topography measured by the video-ophthalmograph (Rodenstock analyzer) and clinical measurement, **100:417**

### Vincristine

Treatment of trilateral retinoblastoma with vincristine and cyclophosphamide, **102:650**

### Visual acuity

An analysis of the effect of intravitreal blood on visual acuity, **104:353**

Apparent accommodation in pseudophakic eyes after implantation of posterior chamber intraocular lenses, **96:435**

Apparent disappearance of a macular hole associated with development of an epiretinal membrane, **102:172**

Argon laser photocoagulation for macular edema in branch vein occlusion, **98:271**

Argon laser photocoagulation for macular edema in branch vein occlusion (correspondence), **99:218**

Automated visual acuity testing computer program using the Apple II system, **99:188**

Avascular zone in the macula in cicatricial retinopathy of prematurity, **99:235**

Clinical profile and long-term implications of anterior ischemic optic neuropathy, **96:478**

Color plates to help identify patients with blue cone monochromatism, **95:741**

Congenital cataract and intraocular lenses, **96:311**

Contralateral amaurosis after retrobulbar injection, **101:689**

Crescentic lamellar keratoplasty for pellucid marginal degeneration (letter), **96:253**

Depth of strabismic amblyopia determined with neutral density filters (correspondence), **97:400**

Distribution of pattern-evoked potentials in the facial area (correspondence), **97:665**

Draining implant for neovascular glaucoma, **96:372**

Effect of corticosteroid treatment and enucleation on the visual prognosis of sympathetic ophthalmia, **96:290**

Eleven cases of sarcoidosis of the optic nerve, **97:62**

Epidemiologic aspects of senile cataract extraction stratified by visual acuity, age, and sex, **100:520**

Experience with intraocular lens implants in patients with diabetes, **96:94**

Factors associated with a poor visual result in endophthalmitis, **101:332**

Foveal densitometry in central serous chorioidopathy, **98:359**

Functional visual loss, **100:209**

- Glare measurements before and after neodymium-YAG laser posterior capsulotomy, 100:708
- Idiopathic macular holes, 99:437
- Laser interferometric prediction of postoperative visual acuity in patients with cataracts, 95:626

# CUMULATIVE ABSTRACT INDEX (1983-1987)

## A

### Abetalipoproteinemia

- Oral vitamin E supplements can prevent the retinopathy of abetalipoproteinemia, 102:676
- Retinitis pigmentosa, ataxia, and peripheral neuropathy, 96:421

### Acanthamoeba sp.

- Acanthamoeba* keratitis in soft contact lens wearers, 104:453
- Acanthamoeba* keratitis successfully treated medically, 101:508
- 29-year-old native of India with bilateral ulcerative keratitis, 99:749

### Accommodation

- Apparent accommodation in pseudophakic eyes after implantation of posterior chamber intraocular lenses. Optical analysis, 99:504
- Botulism—clinical manifestations with emphasis on ophthalmological signs and symptoms, 99:748
- Etiologic factors in accommodative esodeviation, 96:134
- Night myopia, 99:627
- On the hydraulic suspension theory of accommodation, 104:201
- Therapy of Adie's syndrome with dilute pilocarpine hydrochloride solutions, 101:749

### Acceclidine

- Timolol and acceclidine, 101:506

### Acetazolamide

- Effects of timolol, epinephrine, and acetazolamide on aqueous flow during sleep, 101:141
- Flow of aqueous humor in the human eye, 96:132
- Hyaluronate increases intraocular pressure when used in cataract extraction, 101:397
- Ocular penetration and hypotensive activity of the topically applied carbonic anhydrase inhibitor L-645, 151, 102:678

### Acetylcholine

- Alzheimer's disease. A disorder of cortical cholinergic innervation, 96:131
- Bronchospasm following intraocular injections of acetylcholine in a patient taking metoprolol, 97:673
- Clues to Alzheimer's disease emerge, 95:737
- Pseudocholinesterase staining in the primary visual pathway of the macaque monkey, 95:133

### Achromatopsia

- Pupillary constriction to darkness, 100:631

### Acquired immune deficiency syndrome

- Acquired immunodeficiency with reversed T<sub>4</sub>/T<sub>8</sub> ratios in infants born to promiscuous and drug-addicted mothers, 96:264
- Dihydroxypropoxymethyl guanine in the treatment of AIDS related retinitis due to cytomegalovirus, 104:320

- Herpes zoster ophthalmicus in patients at risk for AIDS, 98:261

- Immune deficiency syndrome in children, 96:263

- Ocular and pericardial involvement in Legionnaire's disease, 99:503

- Retinal lesions of the acquired immune deficiency syndrome, 99:627

- Toxic keratopathy associated with suramin therapy, 102:292

- Treatment of cytomegalovirus retinitis with 9-[2-hydroxy-1-(hydroxymethyl)ethoxymethyl] guanine, 100:868

### Acrodermatitis enteropathica

- Ocular histopathology of acrodermatitis enteropathica, 103:247

### Actinomycin D

- Chiasmic optic glioma treated with chemotherapy, 101:510

### Acute hemorrhagic conjunctivitis

- Acute hemorrhagic conjunctivitis, Key West, Florida, 99:376

- Acute hemorrhagic conjunctivitis, 96:263

- Neisseria gonorrhoeae* conjunctivitis. An outbreak during an epidemic of acute hemorrhagic conjunctivitis, 96:567

- Study of the neurological disorder associated with acute hemorrhagic conjunctivitis due to enterovirus 70, 97:123

### Acyclovir

- Acyclovir halts progression of herpes zoster in immunocompromised patients, 96:569

- Comparison of topical acyclovir with steroids in the treatment of herpes zoster keratouveitis, 97:540

- Herpes simplex virus infections of the eye and their management with acyclovir, 97:542

- Oral acyclovir in herpetic keratitis, 101:511

- Oral acyclovir therapy for virologically proven intraocular herpes simplex virus disease, 97:407

- Oral acyclovir (Zovirax) in herpes simplex dendritic corneal ulceration, 102:677

- Review of acyclovir treatment of ocular herpes zoster and skin infections, 97:542

- Viral keratitis, 101:399

### Adduction

- Tenosynovitis of the superior oblique muscle (Brown syndrome) associated with juvenile rheumatoid arthritis, 100:503

### Adenovirus

- Keratoconjunctivitis associated with adenovirus type 37. An extended outbreak in an ophthalmologist's office, 96:264

**Adie's syndrome**

Therapy of Adie's syndrome with dilute pilocarpine hydrochloride solutions, 101:749

**Adnexa**

Cancer excision from eyelids and ocular adnexa. The Mohs fresh tissue technique and reconstruction, 95:579

**Afferent pupillary defect**

Afferent pupillary defects in amblyopia, 96:266  
20/20 eye in multiple sclerosis, 96:702

**Aging**

Age-related changes in human vitreous structure, 104:451  
Age-related decline of human optic nerve axon populations, 104:106  
Age-related depletion of the cell population in the human trabecular meshwork, 104:560  
Effect of age on visual acuity after cataract extraction, 104:451  
Effect of aging on sensorimotor functions of eye and hand movements, 102:554  
Impact of cataract surgery with lens implantation on vision and physical function in elderly patients, 103:850  
The light reflex in retinal vessels and its relation to age and systemic blood pressure, 104:450

**Albinism**

Hairbulb tyrosinase activity in oculocutaneous albinism, 99:625  
Minimal pigment. A new type of oculocutaneous albinism, 101:748  
Oculocutaneous albinism and anterior chamber cleavage malformations, 99:378  
Oculocutaneous albinism, platelet storage pool disease, and progressive lupus nephritis, 96:565  
Plasma 5-S-cysteinyl-dopa concentrations in oculocutaneous albinism, 100:499  
Prenatal diagnosis of oculocutaneous albinism by electron microscopy of fetal skin, 96:420  
Segregation analysis of Brown oculocutaneous albinism, 102:813  
Visual and auditory anomalies in Chediak-Higashi syndrome, 96:420

**Albuminuria**

Blood glucose control and the evolution of diabetic retinopathy and albuminuria, 98:533

**Alcohol**

Anterior segment anomalies associated with the fetal alcohol syndrome, 97:675

**Aldose reductase**

Study of aldose reductase inhibition in intact lenses by <sup>13</sup>C nuclear magnetic resonance spectroscopy, 102:557

**Alexia**

Visual anomia. A unidirectional disconnection, 96:422

**Allergy**

Cromolyn sodium in seasonal allergic conjunctivitis, 101:400  
Double-blind clinical trial with cromoglycate eye drops in patients with atopic conjunctivitis, 95:267

Double-blind evaluation of topical levocabastine, a new specific H<sub>1</sub> antagonist in patients with allergic conjunctivitis, 101:507

Double-masked comparison of ocular decongestants as therapy for allergic conjunctivitis, 96:565

Effect of anaphylaxis on conjunctival goblet cells, 101:141

Systemic contact dermatitis medicamentosa induced by topical eye lotion (sisomicin) in a patient with corneal allograft, 104:318

**Alport's syndrome**

Ocular manifestations of Alport's syndrome. A hereditary disorder of basement membranes?, 96:819

**Alzheimer's disease**

Alteration of the visual blink reflex in patients with dementia, 102:678  
Alzheimer's disease. A disorder of cortical cholinergic innervation, 96:131  
Clues to Alzheimer's disease emerge, 95:737  
Mental status changes induced by eye drops in dementia of the Alzheimer type, 103:735  
Optic-nerve degeneration in Alzheimer's disease, 102:679  
Saccadic eye movement dysfunction in Alzheimer's disease, 103:348  
Spatial vision in Alzheimer's disease, 100:750

**Amaurosis fugax**

Circulatory disturbances in retinal arteries. An urgent indication for Doppler sonography of the carotid system, 95:868

**Amblyopia**

Afferent pupillary defects in amblyopia, 96:266  
Are anisometropia and amblyopia common in Duane's syndrome?, 99:626  
Bilateral amblyopia after a short period of reverse occlusion in kittens, 103:248  
Bilateral central scotomata due to intracranial tumour, 98:830  
Evolving concept of amblyopia. A challenge to epidemiologists, 97:120  
Lateral geniculate nucleus in human anisometropic amblyopia, 96:699  
Microtropia, 95:735  
Pattern evoked electroretinogram. Its variability in normals and its relationship to amblyopia, 101:261  
Tobacco-alcohol amblyopia neuro-ophthalmological findings and clinical course, 101:259  
Treatment of periorbital infantile hemangioma with intralesional corticosteroid, 101:263

**Ametropia**

Different visual deprivations produce different ametropias and different eye shapes, 104:678

**Amphotericin B**

Case report survival from sino-orbital mucormycosis due to *Rhizopus rhizopodiformis*, 97:672  
Twenty-five years' experience treating cerebro-rhino-orbital mucormycosis, 99:103

**Amyloidosis**

Familial amyloidosis with cranial neuropathy and corneal lattice dystrophy, 101:749

IgD amyloid in IgD-lambda monoclonal conjunctival amyloidosis, 97:539

**Amyotrophic lateral sclerosis**

Eye movements in amyotrophic lateral sclerosis, 95:578

**Anesthesia**

Eye drops and apnea, 95:734

Postoperative emesis in vitreoretinal surgical patients, 97:406

**Aneurysm**

Carotid-ophthalmic artery aneurysm masquerading as optic neuritis, 102:418

Pupil-sparing oculomotor palsies with internal carotid-posterior communicating artery aneurysms, 95:864

**Angiography**

Indocyanine green angiography of choroidal neovascular membranes, 99:507

Indocyanine green angiography of submacular choroidal vessel in the human eye, 99:507

**Angle-closure glaucoma**

Coats' disease. A study of 62 histologically confirmed cases, 99:229

Prevalence of diabetes in glaucoma, 100:868

Scanning electron microscopy of rubeosis iridis, 95:136

**Anisocoria**

Diagnostic pharmacology of the pupil, 100:363

Horner's syndrome. Criteria for oculosympathetic denervation, 95:735

**Anisometropia**

Are anisometropia and amblyopia common in Duane's syndrome?, 99:626

Intraocular pressure in myopic anisometropia, 95:270

**Anisotropia**

Disinsertion of the superior oblique for A-pattern anisotropias, 103:610

**Anterior chamber**

Effects of timolol, epinephrine, and acetazolamide on aqueous flow during sleep, 101:141

Evaluations of the usefulness of viscous agents in anterior segment surgery. I. The ability to maintain the deepness of the anterior chamber, 103:248

Hyaluronate increases intraocular pressure when used in cataract extraction, 101:397

**Anterior segment**

Anterior segment and intraocular pressure measurements of the unanesthetized premature infant, 101:143

Evaluations of the usefulness of viscous agents in anterior segment surgery. I. The ability to maintain the deepness of the anterior chamber, 103:248

Important advance in microsurgery. Zeiss 0° stereo microscope for coworkers, 101:510

Thresholds for beneficial and harmful effects during use of high-power, pulsed lasers to treat problems of the anterior segment of the eye, 104:203

**Antibody**

Adult polio-like syndrome following enterovirus 70 conjunctivitis, 96:697

Antibodies to herpes simplex virus type I in intraocular fluids of patients with acute retinal necrosis, 102:288

Demonstration of a circulating autoantibody against a soluble eye-muscle antigen in Graves' ophthalmopathy, 96:421

Detection of *Chlamydia trachomatis* by direct immunofluorescence in conjunctival smears from patients with trachoma and patients with ophthalmia neonatorum using a conjugated monoclonal antibody, 102:291

Expression of the photoreceptor-specific S-antigen in human retinoblastoma, 102:289

Lymphoproliferative disorders of the orbit. An immunological approach to diagnosis and pathogenesis, 97:404

Neuroblastoma. Clinical perspectives, monoclonal antibodies, and retinoic acid, 95:411

Ocular and pericardial involvement in Legionnaire's disease, 99:503

Ocular manifestations of Graves' disease. A review, 99:748

Predictive value of SS-B precipitating antibodies in Sjögren's syndrome, 96:419

**Antigen**

Autoimmunity and the outer retina, 98:673

Cell-mediated immune reactivity to ocular antigens in rheumatoid arthritis, 95:411

Demonstration of a circulating autoantibody against a soluble eye-muscle antigen in Graves' ophthalmopathy, 96:421

Effect of prospective HLA-A and -B matching in 288 penetrating keratoplasties for herpes simplex keratitis, 98:829

Expression of the photoreceptor-specific S-antigen in human retinoblastoma, 102:289

HLA-DR antigen associated with proliferative diabetic retinopathy, 100:501

Immunocytologic methods in the diagnosis of orbital tumors, 101:629

Immunogenetic factors in inflammatory eye disease, 95:865

Immunology of autoimmune thyroid diseases, 95:415

Predictive value of SS-B precipitating antibodies in Sjögren's syndrome, 96:419

Progressive subretinal fibrosis and uveitis, 99:228

Reduced graft rejection with good HLA-A and B matching in high-risk corneal transplantation, 102:679

Retinal S antigen identified as the 48K protein regulating light-dependent phosphodiesterase in rods, 100:504

Retinal vasculitis associated with HLA DR4, 100:869

Rheumatoid arthritis and sterile corneal ulceration, 98:669

- Specific IgG in Graves' ophthalmopathy and its relation to retro-orbital and thyroid autoimmunity, 98:259
- Treatment of intraocular inflammatory disease with cyclosporin A, 96:700
- Antihistamine**
- Double-blind evaluation of topical levocabastine, a new specific  $H_1$  antagonist in patients with allergic conjunctivitis, 101:507
- Anton's syndrome**
- Anton's syndrome accompanying withdrawal hallucinosis in a blind alcoholic, 98:533
- Aphakia**
- Blood-retinal barrier in long-standing aphakic eyes after extra- and intracapsular lens extractions, 99:747
- Colour perception in pseudophakia, 95:734
- Correction of refractive errors with polysulfone corneal inlays, 100:634
- Intraocular lenses versus extended-wear contact lenses in aphakic rehabilitation. A controlled clinical study, 96:697
- Prevalence of aphakic retinal detachment, 95:865
- Vitreous fluorophotometry studies in aphakia, 99:747
- Aphasia**
- Spared musical abilities in a conductor with global aphasia and ideomotor apraxia, 100:502
- Apnea**
- Retinopathy of prematurity. Incidence and risk factors, 96:821
- Apraxia**
- Gaucher disease. Norrbottnian type ocular abnormalities, 100:629
- Spared musical abilities in a conductor with global aphasia and ideomotor apraxia, 100:502
- Aqueous humor**
- Can macrophages cause obstruction to aqueous outflow in rabbits?, 98:833

- Retinitis pigmentosa, ataxia, and peripheral neuropathy, 96:421
- Visual evoked potentials in the detection of subclinical optic toxic effects secondary to ethambutol, 97:265
- Atropine**
- Cross-over study of the cycloplegic effects of a single topical application of cyclopentolate-phenylephrine and routine atropinisation for 3.5 days, 101:506
- I.M. or I.V. atropine or glycopyrrolate for the prevention of oculocardiac reflex in children undergoing squint surgery, 95:268
- Axenfeld's anomaly**
- Anterior segment anomalies associated with the fetal alcohol syndrome, 97:675
- Axenfeld-Rieger syndrome. A theory of mechanism and distinctions from the iridocorneal endothelial syndrome, 97:811

Oculocutaneous albinism and anterior chamber cleavage malformations, 99:378

#### Axon

Optic nerve axons and acquired alterations in the appearance of the optic disc, 97:813

Pattern electroretinogram in optic nerve demyelination, 97:674

#### Azathioprine

Beneficial effects of intensive plasma exchange followed by immunosuppressive therapy in severe Graves' ophthalmopathy, 101:747

### B

#### *Bacillus* sp.

Metastatic bacterial endophthalmitis. A temporary reappraisal, 103:250

Posttraumatic endophthalmitis. The emerging role of *Bacillus cereus* infection, 103:852

#### Bacitracin

Efficacy of topical antibiotic therapy in acute conjunctivitis in children, 98:392

#### Basement membrane

Drug-induced reversal of early diabetic microangiopathy, 97:543

Ocular manifestations of Alport's syndrome. A hereditary disorder of basement membranes?, 96:819

Pathogenesis of tears of the retinal pigment epithelium, 98:831

Retinal capillaries. Basement membrane thickening by galactosemia prevented with aldose reductase inhibitor, 97:544

#### Behçet's disease

Ocular vasculitis in Behçet's disease, 100:364

Retinal vasculitis associated with HLA DR4, 100:869

Treatment and visual prognosis in Behçet's disease, 103:124

Treatment of intraocular inflammatory disease with cyclosporin A, 96:700

#### Beta-blocker

Comparative efficacy of orally and topically administered beta-blockers for chronic simple glaucoma, 99:626

Different beta-blockers and their short-time effect on break-up time, 102:134

Influence of topical beta-blockers on the breakup time, 98:834

Migraine prevention with timolol, 99:229

Ophthalmic timolol treatment causing altered hypoglycemic response in a diabetic patient, 96:818

Oral and topical adrenergic beta-receptor blockers in glaucoma treatment, 99:227

Sexual dysfunction secondary to topical ophthalmic timolol, 100:501

#### Betaxolol

Betaxolol in chronic obstructive pulmonary disease, 104:453

#### Binocularity

Binocular and monocular visual function in World Class tennis players, 102:676

Infant interocular acuity differences and binocular vision, 100:366

Overproduction and elimination of retinal axons in the fetal rhesus monkey, 96:131

#### Bleb

Acute glaucoma following Nd:YAG laser membranotomy, 97:408

#### Bleomycin

Effect of antineoplastic drugs on cell proliferation—individually and in combination, 99:506

#### Blepharoconjunctivitis

Ophthalmological effects of 13-cis-retinoic acid therapy for acne vulgaris, 95:268

#### Blepharoplasty

Dacryoadenectomy as a recognized factor in upper lid blepharoplasty, 96:822

Nonsurgical upper blepharoplasty, 101:400

Recognition of acquired ptosis in patients considered for upper-eyelid blepharoplasty, 95:136

Use of electrosurgery in blepharoplasty, 100:750

#### Blepharoptosis

Anterior segment anomalies associated with the fetal alcohol syndrome, 97:675

Botulism—clinical manifestations with emphasis on ophthalmological signs and symptoms, 99:748

Correction of lower eyelid ptosis in the anophthalmic orbit. A long-term follow-up, 97:269

Enophthalmos and Horner's syndrome, 96:818

IgD amyloid in IgD-lambda monoclonal conjunctival amyloidosis, 97:539

Levator advancement technique for eyelid ptosis, 102:293

Ocular abnormalities in the fetal alcohol syndrome, 100:630

Ocular axial length in unilateral congenital cataracts and blepharoptosis, 104:452

Recognition of acquired ptosis in patients considered for upper-eyelid blepharoplasty, 95:136

#### Blepharospasm

Blepharospasm associated with brainstem lesions, 97:268

Blepharospasm, Meige syndrome, and hemifacial spasm. Treatment with botulinum toxin, 101:143

Blepharospasm with bilateral basal ganglia infarction, 101:507

Blinking and blepharospasm, 95:270

Botulinum toxin for blepharospasm. Single-fiber EMG studies, 102:133

Botulinum toxin in the management of blepharospasm, 102:288

Myectomy for essential blepharospasm, 100:870

Neuro-ophthalmic abnormalities in Tourette's syndrome. Functional and anatomic implications, 98:132

#### Blindness

Anton's syndrome accompanying withdrawal hallucinosis in a blind alcoholic, 98:533

Blepharospasm, Meige syndrome, and hemifacial spasm. Treatment with botulinum toxin, 101:143

- Blindness following lacrimal gland surgery, 98:133
- Computed tomographic findings in septo-optic dysplasia. Discordance between clinical and radiological findings, 98:671
- Cortical blindness following bacterial meningitis. A case report with reassessment of prognosis and aetiology, 98:391
- Joubert's syndrome with retinal dysplasia. Neonatal tachypnoea as the clue to a genetic brain-eye malformation, 99:100
- Permanent visual loss after shunt malfunction, 99:505
- Reliability of ophthalmic diagnoses in an epidemiologic survey, 97:121
- Senile macular degeneration. The involvement of immunocompetent cells, 100:631
- Unilateral blindness caused by infection with the Lyme disease spirochete *Borrelia burgdorferi*, 100:868
- Unilateral occipital infarction. Evaluation of the risks of developing bilateral loss of vision, 96:265
- Visual evoked potentials in the detection of sub-clinical optic toxic effects secondary to ethambutol, 97:265
- Visual loss associated with orbital and sinus disease, 99:103
- Blink**
- Alteration of the visual blink reflex in patients with dementia, 102:678
- Blinking and associated eye movement in humans, guinea pigs, and rabbits, 99:102
- Blinking and blepharospasm, 95:270
- Blink rates in Parkinsonism, 95:864
- Development of responses by facial expressions and eye movements in neonates and young infants, 96:819
- How do tears exit?, 96:420
- Ocular surface drying and tear film osmolarity in thyroid eye disease, 96:418
- Persistence of the blink reflex to sudden illumination in a comatose patient, 98:129
- Blood-aqueous barrier**
- Opening of blood-ocular barrier demonstrated by contrast-enhancing MR imaging, 103:611
- Vitreous fluorophotometry studies in aphakia, 99:747
- Blood-retinal barrier**
- Alteration of the blood-retinal barrier and vitreous in sickle cell retinopathy, 102:555
- Blood-retinal barrier in long-standing aphakic eyes after extra- and intracapsular lens extractions, 99:747
- Blood-retinal barrier permeability to fluorescein in normal subjects and in juvenile diabetics without retinopathy, 102:553
- Effect of sorbinil on blood-retinal barrier in early diabetic retinopathy, 102:554
- Opening of blood-ocular barrier demonstrated by contrast-enhancing MR imaging, 103:611
- Blowout fracture**
- Orbital roof blow-out fractures, 95:267
- Volkman's contracture of the extraocular muscles following blowout fracture, 99:104
- Borrelia sp.**
- Unilateral blindness caused by infection with the Lyme disease spirochete *Borrelia burgdorferi*, 100:868
- Botulinum toxin**
- Blepharospasm, Meige syndrome, and hemifacial spasm. Treatment with botulinum toxin, 101:143
- Botulinum toxin for blepharospasm. Single-fiber EMG studies, 102:133
- Botulinum toxin in the management of blepharospasm, 102:288
- Botulism—clinical manifestations with emphasis on ophthalmological signs and symptoms, 99:748
- Paralytic strabismus. The role of botulinum toxin, 101:628
- Bradycardia**
- Bradycardia induced by interaction between quinine and ophthalmic timolol, 101:397
- Severe bradycardia due to interaction of timolol eye drops and verapamil, 104:320
- Brain**
- Visceral nuclei of the oculomotor complex, 97:810
- Bromhexine**
- Lacrimal and salivary secretion in Sjögren's syndrome. The effect of systemic treatment with bromhexine, 98:528
- Bromocriptine**
- Bromocriptine lowers intraocular pressure without affecting blood pressure, 97:267
- Brown's syndrome**
- Tenosynovitis of the superior oblique muscle (Brown syndrome) associated with juvenile rheumatoid arthritis, 100:503
- Bruch's membrane**
- Senile macular degeneration. The involvement of immunocompetent cells, 100:631
- Subretinal neovascularisation in eyes with localised inferior posterior staphylomas, 99:625
- Buphthalmos**
- Computed tomographic analysis of deformity and dimensional changes in the eyeball, 99:380
- Computed tomography of orbital-facial neurofibromatosis, 96:130
- C**
- Campylobacter sp.**
- Anterior uveitis associated with *Campylobacter jejuni* infection, 104:561
- Canaliculus**
- Mycobacterium chelonae* infections following eye surgery, 97:267

**Candida sp.**

*Candida albicans* endophthalmitis. Results of pars plana vitrectomy without intraocular antimycotic therapy, 98:392

*Candida* endophthalmitis. A complication of prolonged intravenous therapy and antibiotic treatment, 103:125

*Candida* endophthalmitis presenting as bilateral posterior uveitis, 96:266

Source of infection in *Candida* endophthalmitis in drug addicts, 102:289

**Canthus**

Lateral canthoplasty to change the eye slant, 99:507

**Capsule**

Pupillary block associated with posterior chamber lenses, 99:749

Role of the posterior capsule in the prevention of postoperative bacterial endophthalmitis. Experimental primate studies and clinical implications, 101:509

**Capsulotomy**

Damage to the corneal endothelium by Q-switched Nd:YAG laser posterior capsulotomy, 101:144

Posterior capsulotomy and retinal detachment following extracapsular lens surgery, 98:669

Study of the mechanism of ocular irritation following YAG laser capsulotomy in rabbits, 103:349

**Carbamazepine**

Superior oblique myokymia, 96:818

**Carbonic anhydrase inhibitor**

Ocular penetration and hypotensive activity of the topically applied carbonic anhydrase inhibitor L-645, 151, 102:678

**Carcinoma**

Abnormalities of chromosome #13 in retinoblastomas from individuals with normal constitutional karyotypes, 95:268

Cimetidine for herpes zoster, 97:808

Familial subconjunctival epithelial cysts associated with the nevoid basal cell carcinoma syndrome, 103:848

Hematoporphyrin derivative photoradiation therapy in managing nevoid basal-cell carcinoma syndrome, 98:528

Internuclear ophthalmoplegia and "optic neuritis." Paraneoplastic effects of bronchial carcinoma, 98:261

Isolation and characterization of angiogenin, an angiogenic protein from human carcinoma cells, 101:139

Muco-epidermoid carcinoma of the conjunctiva. Clinical, histologic and ultrastructural study, 97:407

Sebaceous carcinoma of the eyelid. Errors in clinical and pathologic diagnosis, 99:100

**Carotid artery**

Carotid endarterectomy for unilateral carotid system transient cerebral ischemia, 95:869

Carotid occlusive disease. Effect of bright light on visual evoked response, 95:578

Carotid-ophthalmic artery aneurysm masquerading as optic neuritis, 102:418

Circulatory disturbances in retinal arteries. An urgent indication for Doppler sonography of the carotid system, 95:868

Cotton-wool spots, 102:294

Failure of extracranial-intracranial arterial bypass to reduce the risk of ischemic stroke, 101:262

Herpes zoster ophthalmicus and delayed ipsilateral cerebral infarction, 97:268

Noninvasive conjunctival oxygen monitoring during carotid endarterectomy, 102:811

Ocular and cerebral ischemic mechanisms in disease of the internal carotid artery, 99:377

Ocular pneumoplethysmography in carotid-cavernous sinus fistulas, 96:821

Percutaneous transvascular treatment of giant carotid aneurysms. Neuro-ophthalmologic findings, 98:132

Pulsations of the eyeballs in tricuspid regurgitation, 100:752

Pupil-sparing oculomotor palsies with internal carotid-posterior communicating artery aneurysms, 95:864

**Carotid-cavernous fistula**

Carotid-cavernous fistulas. Embolization through the superior ophthalmic vein approach, 102:293

Ocular pneumoplethysmography in carotid-cavernous sinus fistulas, 96:821

**Cataract**

Associations among cataract prevalence, sunlight hours, and altitude in the Himalayas, 97:121

Autosomal dominant anterior polar cataracts associated with a familial 2;14 translocation, 98:259

Autosomal recessive eye and brain anomalies. Warburg syndrome, 96:568

Bilateral cataracts as the initial sign of insulin-dependent diabetes mellitus in a child, 96:817

Blood-retinal barrier in long-standing aphakic eyes after extra- and intracapsular lens extractions, 99:747

Cataracts after total body irradiation and marrow transplantation. A sparing effect of dose fractionation, 98:832

Cataracts in children, 97:677

Cataracts in patients heterozygous for galactokinase deficiency, 102:132

Coats' disease. A study of 62 histologically confirmed cases, 99:229

Cutaneous and ocular side-effects of oral phototherapy. Results of an 8-year follow-up study, 104:318

Development of posterior subcapsular cataracts in asthmatic children, 98:393

Direct and maternal aspects of the risk of cataract with partial disorders of galactose metabolism, 101:399

Double-blind controlled trial to compare anti-inflammatory effects of tolmetin 2%, prednisolone 0.5% and placebo in post-cataract extraction eyes, 103:348

- Effect of age on visual acuity after cataract extraction, 104:451
- Effect of indomethacin in preventing surgically induced miosis, 95:865
- Effects of irradiation on the eye and optic nerve, 96:699
- Epidemiologic aspects of cataract surgery, 96:564
- Epidemiologic associations with cataract in the 1971-1972 National Health and Nutrition Examination survey, 97:121

- Vitreous fluorophotometry studies in aphakia, 99:747
- Wavelength dependency of cataracts in albino mice following chronic exposure, 101:509
- Cat scratch disease**  
Cat scratch disease. A bacterial infection, 97:544
- Cavernous sinus**  
Acute bilateral ophthalmoplegia. 60 cases, 101:631  
Ocular pneumoplethysmography in carotid-cavernous sinus fistulas, 96:821  
Orbital fine-needle aspiration biopsy in patients with cavernous sinus syndrome, 98:131  
Orbital phlebography in patients with Tolosa-Hunt's syndrome in comparison with normal subjects, 99:746

- Pulsations of the eyeballs in tricuspid regurgitation, 100:752
- Cefazolin**  
Treatment of bacterial ulcers of the cornea in the rabbit. A comparison of administration by eye drops and subconjunctival injections, 96:132
- Ceftriaxone**  
Laboratory-acquired gonococcal conjunctivitis. Successful treatment with single-dose ceftriaxone, 98:263  
Single-dose therapy of gonococcal ophthalmia neonatorum with ceftriazone, 103:249
- Central retinal artery**  
Cilioretinal collateral circulation after occlusion of the central retinal artery, 101:508  
Sudden visual loss in pseudotumor cerebri due to central retinal artery occlusion, 99:377
- Central retinal vein**  
Central retinal vein obstruction associated with mitral valve prolapse, 96:820  
Central retinal vein occlusion and general vascular pathology, 98:532  
Randomised prospective study on treatment of central retinal vein occlusion by isovolaemic haemodilution and photocoagulation, 100:500  
Underlying medical conditions in young patients and ethnic differences in retinal vein occlusion, 100:366
- Central serous chorioretinopathy**  
Long-term study of morphological and functional developments after central serous chorioretinitis, 96:700  
Type A behavior and central serous chorioretinopathy, 104:201
- Central serous retinopathy**  
Longterm results of treatment of central serous retinopathy—a preliminary report, 103:250
- Cerebral artery**  
Clinical features and mechanism of occipital infarction, 104:560  
Transient visual obscurations, without papilloedema, 95:132
- Chalazion**  
Chalazions. The frequency of spontaneous resolution, 97:541  
Intralesional corticosteroid injection for the treatment of chalazia, 97:404  
Intralesional corticosteroid therapy of chalazia. A comparison with incision and curettage, 99:377  
Treatment of chalazions with injection of a steroid suspension, 99:377
- Chandler's syndrome**  
Clinicopathologic features of Chandler's syndrome, 96:422  
Pathogenesis of Chandler's syndrome, essential iris atrophy and the Cogan-Reese syndrome. I. Alterations of the corneal endothelium, 102:555  
Pathogenesis of Chandler's syndrome, essential iris atrophy and the Cogan-Reese syndrome. II. Estimated age at disease onset, 102:555
- Chediak-Higashi syndrome**  
Visual and auditory anomalies in Chediak-Higashi syndrome, 96:420
- Chiasm**  
Childhood chiasmal gliomas. Update on the fate of patients in the 1969 San Francisco study, 102:677  
Computed tomographic findings in septo-optic dysplasia. Discordance between clinical and radiological findings, 98:671  
Metastasis of an optic glioma through a ventriculoperitoneal shunt, 97:123
- Children**  
Acquired immunodeficiency with reversed T<sub>4</sub>/T<sub>8</sub> ratios in infants born to promiscuous and drug-addicted mothers, 96:264  
Acute non-lymphocytic leukemia following multimodality therapy for retinoblastoma, 100:363  
Afferent pupillary defects in amblyopia, 96:266  
Antiemetic effect of droperidol following outpatient strabismus surgery in children, 97:673  
Assessment of visual acuity in infancy and early childhood, 96:418  
Association of diabetes insipidus, diabetes mellitus, optic atrophy, and deafness, 101:260  
Bilateral optic neuritis, 99:228  
Blood-retinal barrier permeability to fluorescein in normal subjects and in juvenile diabetics without retinopathy, 102:553  
Bone sarcomas linked to radiotherapy and chemotherapy in children, 104:679  
Cataracts in children, 97:677  
Chiasmatic optic glioma treated with chemotherapy, 101:510  
Chorioretinal coloboma and Joubert syndrome. A nonrandom association, 99:102  
Comparison of four non-depolarizing neuromuscular blocking drugs in the suppression of the oculocardiac reflex during strabismus surgery in children, 101:627  
Cortical blindness following bacterial meningitis. A case report with reassessment of prognosis and aetiology, 98:391  
Cross-over study of the cycloplegic effects of a single topical application of cyclopentolate-phenylephrine and routine atropinisation for 3.5 days, 101:506  
Developmental dyslexia. A talent deficit, 97:541  
Development of posterior subcapsular cataracts in asthmatic children, 98:393  
Dietary management of oculocutaneous tyrosinemia in an 11-year-old child, 97:264  
Direct and maternal aspects of the risk of cataract with partial disorders of galactose metabolism, 101:399  
Early surgical alignment for congenital esotropia, 95:736  
Educational attainment of 10-year-old children with treated and untreated visual defects, 101:139

**Cyclopentolate**

Cross-over study of the cycloplegic effects of a single topical application of cyclopentolate-phenylephrine and routine atropinisation for 3.5 days, 101:506

**Cyclosporine**

Cyclosporin therapy for uveitis. Long-term follow-up, 101:749

Remission-maintaining effect of cyclosporine in endocrine ophthalmopathy, 103:126

Treatment of intraocular inflammatory disease with cyclosporin A, 96:700

Treatment of Mooren's ulcer with cyclosporin A. Report of three cases, 104:107

Treatment of severe Graves' ophthalmopathy with cyclosporin A, 101:627

Visual hallucinations and cyclosporine, 104:564

**Cysteine**

Nature of the ocular zonule, 96:135

**Cystoid macular edema**

Aphakic cystoid macular edema and the operating microscope. Is there a connection?, 101:751

Cystoid macular edema associated with limbal melanoma, 97:541

Macular pucker, 97:266

Prevention of cystoid macular edema with indomethacin eye drops, 97:676

Progressive subretinal fibrosis and uveitis, 99:228

Vitreous fluorophotometry studies in aphakia, 99:747

**Cytarabine**

Effect of antineoplastic drugs on cell proliferation—individually and in combination, 99:506

Ocular toxicity from high-dose cytosine arabinoside, 97:122

**Cytomegalovirus**

Dihydroxypropoxymethyl guanine in the treatment of AIDS related retinitis due to cytomegalovirus, 104:320

Treatment of cytomegalovirus retinitis with 9-[2-hydroxy-1-(hydroxymethyl)ethoxymethyl] guanine, 100:868

**Cytopathy**

Histopathology of mitochondrial cytopathy and the Laurence-Moon-Biedl syndrome, 103:349

**D****Dacryoadenopathy**

Dacryoadenopathy as a recognized factor in upper lid blepharoplasty, 96:822

**Dacryocystorhinostomy**

*Mycobacterium chelonae* infections following eye surgery, 97:267

**Deferoxamine**

Visual and auditory neurotoxicity in patients receiving subcutaneous deferoxamine infusions, 102:133

**Descemetocoele**

Management of corneal descemetocoeles and perforations, 99:506

**Descemet's membrane**

Clinicopathologic features of Chandler's syndrome, 96:422

Polysulfone corneal inlays. Adverse reactions, 100:634

Posterior polymorphous dystrophy of the cornea, 101:399

**Desferrioxamine**

Cerebral and ocular toxicity induced by desferrioxamine, 101:401

Ocular toxicity of high-dose intravenous desferrioxamine, 96:700

**Devic's disease**

Neuromyelitis optica in the elderly, 98:668

**Dexamethasone**

Comparative study of the intraocular pressure effects of fluorometholone 0.1% versus dexamethasone 0.1%, 97:405

Painless endophthalmitis after cataract surgery, 99:231

**Diabetes**

Association of diabetes insipidus, diabetes mellitus, optic atrophy, and deafness, 101:260

Bilateral cataracts as the initial sign of insulin-dependent diabetes mellitus in a child, 96:817

Blood-retinal barrier permeability to fluorescein in normal subjects and in juvenile diabetics without retinopathy, 102:553

Cigarette-smoking as a risk factor for macroproteinuria and proliferative retinopathy in type 1 (insulin-dependent) diabetes, 103:125

Classification of proliferative diabetic retinopathy, 104:677

Conjunctival hypoxia in diabetes mellitus, 103:247

Cotton-wool spots, 102:294

Diabetic maculopathy, 98:393

Drug-induced reversal of early diabetic microangiopathy, 97:543

Effect of strict short-term metabolic control on retinal nervous system abnormalities in newly diagnosed type 1 (insulin-dependent) diabetic patients, 96:419

Epidemiologic associations with cataract in the 1971-1972 National Health and Nutrition Examination survey, 97:121

Epidemiology of senile cataracts. A review, 97:119

Evidence for a neuropathic aetiology in the small pupil of diabetes mellitus, 95:865

Fall in intraocular pressure during acute hypoglycaemia in patients with insulin dependent diabetes, 104:320

Grid photocoagulation for diffuse macular edema, 100:754

Hypertension. A risk factor for proliferative retinopathy, 103:738

Intraocular pressure, cardiovascular risk variables, and visual field defects, 97:122

Severe bradycardia due to interaction of timolol eye drops and verapamil, **104:320**

Severe symptomatic atrioventricular block induced by pilocarpine eye drops, **104:318**

Systemic effects of eye drops, **95:578**

### Eyelid

Afferent pupil testing in orbital-facial trauma, **99:101**

Alternative surgical method for repair of the fractured orbital floor, **100:870**

"Apraxia" of eyelid opening. An involuntary levator inhibition, **99:748**

Blindness following lacrimal gland surgery, **98:133**

Blinking and blepharospasm, **95:270**

Botulism—clinical manifestations with emphasis on ophthalmological signs and symptoms, **99:748**

Cancer excision from eyelids and ocular adnexa. The Mohs fresh tissue technique and reconstruction, **95:579**

Correction of lower eyelid ptosis in the anophthalmic orbit. A long-term follow-up, **97:269**

Dacryoadenectomy as a recognized factor in upper lid blepharoplasty, **96:822**

Eyelid malpositions in Graves' ophthalmopathy, **96:135**

Herpes simplex virus latency in the rabbit trigeminal ganglia. Ganglionic superinfection, **100:366**

Human bites of the eyelid, **103:352**

Infrared radiation and cataract. III. Differences between the two eyes of glass workers, **100:362**

Intralesional corticosteroid injections for infantile hemangiomas of the eyelid, **99:103**

Lateral canthoplasty to change the eye slant, **99:507**

Levator advancement technique for eyelid ptosis, **102:293**

Myectomy for essential blepharospasm, **100:870**

Nonsurgical upper blepharoplasty, **101:400**

Ocular and orbital complications following radiation therapy of paranasal sinus malignancies, **96:262**

Painless endophthalmitis after cataract surgery, **99:231**

Palatal grafts for eyelid reconstruction, **101:143**

Percutaneous transvascular treatment of giant carotid aneurysms. Neuro-ophthalmologic findings, **98:132**

Prognosis for babies born with fused eyelids, **100:630**

Proptosis and increase of intraocular pressure in voluntary lid fissure widening, **98:670**

Recognition of acquired ptosis in patients considered for upper-eyelid blepharoplasty, **95:136**

Salvage of seeing eyes after avulsion of upper and lower lids, **99:507**

Sebaceous carcinoma of the eyelid. Errors in clinical and pathologic diagnosis, **99:100**

Tardive dystonia. Late-onset and persistent dystonia caused by antipsychotic drugs, **95:414**

Thermal orbital injuries from disposable cauteries, **98:672**

Transconjunctival lateral canthopexy in Down's syndrome patients: a nonstigmatizing approach, **104:562**

Treatment of periorbital infantile hemangioma with intralesional corticosteroid, **101:263**

Ultrasonographic visualization of the fetal eye, **101:630**

Use of electrosurgery in blepharoplasty, **100:750**

## F

### Fetal alcohol syndrome

Anterior segment anomalies associated with the fetal alcohol syndrome, **97:675**

Ocular abnormalities in the fetal alcohol syndrome, **100:630**

### Filtering surgery

Effect of antineoplastic drugs on cell proliferation—individually and in combination, **99:506**

Pattern electroretinogram and visually evoked cortical potentials in glaucoma, **99:378**

### Fistula

Carotid-cavernous fistulas. Embolization through the superior ophthalmic vein approach, **102:293**

### Flucytosine

Fungal endophthalmitis in narcotic abusers, **100:633**

### Fluorescein angiography

Adverse reactions to fluorescein angiography, **103:124**

Clinical value of fluorescein iris angiography for the early detection of vascular lesions, **101:510**

Fluorescein angiography of soft contact lens induced vascularization in penetrating keratoplasty, **99:749**

Fluorescein angiography of the choroid in health and disease, **95:866**

Low dose fluorescein angiography of the conjunctiva and episclera, **104:107**

The normal fundus fluorescein angiogram and the normal fundus photograph, **103:610**

Skin necrosis following fluorescein extravasation, **104:563**

SLE retinopathy. Evaluation by fluorescein angiography, **95:268**

**Fluorometholone**

Comparative study of the intraocular pressure effects of fluorometholone 0.1% versus dexamethasone 0.1%, **97:405**

Effect of fluorometholone (FML) on the intraocular pressure of corticosteroid responders, **98:832**

**Fluorouracil**

Effect of antineoplastic drugs on cell proliferation—individually and in combination, **99:506**

Recurrent acute toxic optic neuropathy secondary to 5-FU, **98:391**

**Fovea**

Preliminary results of proton beam irradiation of macular and paramacular melanomas, **98:831**

**Fuchs' dystrophy**

Endothelial viral inclusions in Fuchs' corneal dystrophy, **104:560**

**Fuchs' heterochromic cyclitis**

Fuchs' heterochromic cyclitis: an electron microscopy study, **102:558**

**Fundus**

Classification of proliferative diabetic retinopathy, **104:677**

Fundus changes in persistent and recurrent choroidal folds, **97:808**

Gastrointestinal bleeding with ocular and cutaneous abnormalities, **96:130**

**Iridocyclitis**

Heterochromic iridocyclitis, 100:633

Treatment of onchoceraciasis in hyperendemic communities in West Africa with small, gradually increasing doses of suramin, 98:670

**Iridology**

Iridology, 100:362

**Iridotomy**

Neodymium:YAG laser iridotomy in the cynomolgus monkey, 101:140

**Iris**

Clinical value of fluorescein iris angiography for the early detection of vascular lesions, 101:510

Clinicopathologic features of Chandler's syndrome, 96:422

Enlargement of laser iridotomies over time, 98:832

Fuchs' heterochromic cyclitis: an electron microscopy study, 102:558

Hematoporphyrin photoradiation therapy for iris neovascularization, 98:529

Hemorrhagic glaucoma. Pathogenesis and therapeutic possibilities, 97:407

Histopathological findings in necropsy eyes with intraocular lenses, 100:752

Is Urrets-Zavalía syndrome still a reality?, 97:675

Mass in the iris and a skin rash in a young man, 98:133

Minimal pigment. A new type of oculocutaneous albinism, 101:748

Pathogenesis of Chandler's syndrome, essential iris atrophy and the Cogan-Reese syndrome. I. Alterations of the corneal endothelium, 102:555

Pathogenesis of Chandler's syndrome, essential iris atrophy and the Cogan-Reese syndrome. II. Estimated age at disease onset, 102:555

Pigmentary dispersion syndrome. A biometric study, 101:747

Posterior polymorphous corneal dystrophy. A disease characterized by epithelial-like endothelial cells which influence management and prognosis, 101:751

Pseudoexfoliation syndrome, 96:421

Scanning electron microscopy of rubeosis iridis, 95:136

Ultrasonic fetal ophthalmology, 101:628

**Iritis**

Acute interstitial nephritis and iritis. Renal-ocular syndrome, 98:829

Unilateral blindness caused by infection with the Lyme disease spirochete *Borrelia burgdorferi*, 100:868

**Ischemia**

Acute multifocal ischaemic choroidopathy and the choriocapillaris, 95:866

Carotid endarterectomy for unilateral carotid system transient cerebral ischemia, 95:869

Effects of sickle cell anemia on conjunctival oxygen tension and temperature, 103:848

Failure of extracranial-intracranial arterial bypass to reduce the risk of ischemic stroke, 101:262

Ischemic lesions of the occipital cortex and optic radiations. Positron emission tomography, 100:365

Migrainous ischemic optic neuropathy, 99:506

Ocular and cerebral ischemic mechanisms in disease of the internal carotid artery, 99:377

Skin necrosis following fluorescein extravasation, 104:563

Snail track degeneration of the peripheral retina. Ultrastructural study, 101:511

Transient visual obscurations, without papilloedema, 95:132

Visual disturbances and occipital brain infarct following acute, transient hypotension in hypertensive patients, 99:503

**J****Joubert's syndrome**

Chorioretinal coloboma and Joubert syndrome. A nonrandom association, 99:102

Joubert's syndrome with retinal dysplasia. Neonatal tachypnoea as the clue to a genetic brain-eye malformation, 99:100

**K****Kayser-Fleischer ring**

Kayser-Fleischer ring during long-term treatment in Wilson's disease (hepatolenticular degeneration), 102:132

**Kearns-Sayre syndrome**

Chronic progressive external ophthalmoplegia, 96:267

Retinitis pigmentosa, ataxia, and peripheral neuropathy, 96:421

**Keratitis**

*Acanthamoeba* keratitis in soft contact lens wearers, 104:453

*Acanthamoeba* keratitis successfully treated medically, 101:508

Biosynthetic human interferon treatment of herpetic keratitis, 97:812

Combined treatment of herpetic dendritic keratitis with blunt spatula debridement and trifluorothymidine, 101:631

Corneal epithelial dysplasia after trifluridine use, 95:734

Damage of the cornea epithelium caused by ultraviolet radiation, 97:403

Effect of prospective HLA-A and -B matching in 288 penetrating keratoplasties for herpes simplex keratitis, 98:829

Granulomatous reaction in herpetic stromal keratitis. Immunohistological and ultrastructural findings, 101:507

Herpes simplex virus infections of the eye and their management with acyclovir, 97:542

Interferon- $\beta$  treatment of herpes simplex keratitis, 102:134

Keratitis nummularis (Dimmer), 97:407

Oral acyclovir in herpetic keratitis, 101:511

Schirmer test values and lysozyme content of tears in acute dendritic keratitis, 97:675

Surgical treatment for malignant exophthalmos of endocrine origin, 99:230

Viral keratitis, 101:399

29-year-old native of India with bilateral ulcerative keratitis, 99:749

#### **Keratoconjunctivitis**

Adverse external ocular effects of topical ophthalmic therapy. An epidemiologic, laboratory, and clinical study, 97:812

Beneficial effect of artificial tears made with autologous serum in patients with keratoconjunctivitis sicca, 98:390

Keratoconjunctivitis associated with adenovirus type 37. An extended outbreak in an ophthalmologist's office, 96:264

Ocular pathology, tear production, and tear lysozyme in rheumatoid arthritis, 95:582

Monocular oscillopsia secondary to lens subluxation, 103:348

### Osteogenesis imperfecta

Correlation of ocular rigidity and blue sclerae in osteogenesis imperfecta, 100:366

## P

### Pain

The eye and face pain, 99:104

### Papilla

Adverse external ocular effects of topical ophthalmic therapy. An epidemiologic, laboratory, and clinical study, 97:812

### Papilledema

Papilloedema in late-onset citrullinaemia, 99:101

Permanent visual loss after shunt malfunction, 99:505

Post-decompression optic neuropathy, 100:869

Transient visual obscurations with elevated optic discs, 99:376

Transient visual obscurations, without papilloedema, 95:132

Unilateral papilledema in "benign" intracranial hypertension (pseudotumor cerebri), 97:542

### Paranasal sinus

Sino-orbital aspergillosis associated with total ophthalmoplegia, 100:364

### Parkinson's disease

"Apraxia" of eyelid opening. An involuntary levator inhibition, 99:748

Blink rates in Parkinsonism, 95:864

Low-contrast letter charts in early diabetic retinopathy, ocular hypertension, glaucoma and Parkinson's disease, 99:625

### Pars plana vitrectomy

Advances in intraocular techniques in the treatment of retinal detachments arising from holes of the posterior pole, 96:419

*Candida albicans* endophthalmitis. Results of pars plana vitrectomy without intraocular antimycotic therapy, 98:392

Prognostic parameters in pars plana vitrectomy, 97:403

Treatment of endophthalmitis with and without pars plana vitrectomy, 100:753

Vitrectomy in severe ocular trauma, 98:834

### Penetrating keratoplasty

Corneal allograft rejection in bilateral penetrating keratoplasty. Clinical and laboratory studies, 104:200

Corneal transplant allograft reaction. Possible predisposing factors, 97:809

Effect of prospective HLA-A and -B matching in 288 penetrating keratoplasties for herpes simplex keratitis, 98:829

Fluorescein angiography of soft contact lens induced vascularization in penetrating keratoplasty, 99:749

Is Urrets-Zavalía syndrome still a reality?, 97:675

Old versus young donor material for penetrating keratoplasties, 98:531

### Penicillamine

Treatment of Wilson's disease, 96:817

### Perimetry

Computer-assisted perimetry in visual pathway disease. Neuro-ophthalmic applications, 99:629

Visual perimetry and glaucoma, 99:628

What is the most suitable grid for computer perimetry in glaucoma patients?, 102:134

### Persistent hyperplastic primary vitreous

Oculo-palato-cerebral dwarfism. A new syndrome, 100:501

### Peters' anomaly

Anterior segment anomalies associated with the fetal alcohol syndrome, 97:675

Autosomal recessive eye and brain anomalies. Warburg syndrome, 96:568

### Phacoemulsification

Phacoemulsification and implantation of posterior chamber intraocular lens in eyes with quiescent proliferative diabetic retinopathy, 104:677

### Phenylephrine

Cross-over study of the cycloplegic effects of a single topical application of cyclopentolate-phenylephrine and routine atropinisation for 3.5 days, 101:506

### Photocoagulation

Grid photocoagulation for diffuse macular edema, 100:754

Krypton red laser photocoagulation of peripapillary subretinal neovascular membranes, 102:131

Longterm results of treatment of central serous retinopathy—a preliminary report, 103:250

Long-term study of morphological and functional developments after central serous chorioretinitis, 96:700

Photocoagulation for proliferative diabetic retinopathy. A randomised controlled clinical trial using the xenon-arc, 98:130

Photocoagulation therapy for diabetic eye disease, 100:869

Red krypton and blue-green argon panretinal laser photocoagulation for proliferative diabetic retinopathy. A laboratory and clinical comparison, 104:202

Retinal branch vein occlusion. A study of argon laser photocoagulation in the treatment of macular edema, 98:258

Sudden severe visual loss associated with peripapillary burns during panretinal argon photocoagulation, 96:819

Transscleral cyclophotocoagulation using a neodymium YAG laser, 101:749

**Photoreceptor cell**

- The visual cycle operates via an isomerase acting on all-trans retinol in the pigment epithelium, **104:454**

**Pilocarpine**

- Botulism—clinical manifestations with emphasis on ophthalmological signs and symptoms, **99:748**
- Individual responsiveness to topical pilocarpine and the effects of variations in application technique, **101:747**
- Oral and topical adrenergic beta-receptor blockers in glaucoma treatment, **99:227**
- Severe symptomatic atrioventricular block induced by pilocarpine eye drops, **104:318**
- Therapy of Adie's syndrome with dilute pilocarpine hydrochloride solutions, **101:749**

**Pindolol**

- Influence of pindolol and timolol treatment on the visual fields of glaucoma patients, **103:735**

**Platelet**

- Central retinal vein obstruction associated with mitral valve prolapse, **96:820**

**Pneumoplethysmography**

- Ocular pneumoplethysmography in carotid-cavernous sinus fistulas, **96:821**

**Polyarteritis nodosa**

- Retinal vasculitis in polyarteritis nodosa, **104:109**

**Polymyxin**

- Efficacy of topical antibiotic therapy in acute conjunctivitis in children, **98:392**

**Polyneuropathy**

- Ocular palsy preceding chronic relapsing polyneuropathy by several weeks, **99:746**

**Polyopia**

- Monocular polyopia, **97:404**

**Posterior chamber**

- Glaucoma triple procedure of extracapsular cataract extraction, posterior chamber lens implantation, and trabeculectomy, **100:500**
- Pupillary block associated with posterior chamber lenses, **99:749**

**Posterior segment**

- Important advance in microsurgery. Zeiss 0° stereo microscope for coworkers, **101:510**

**Prader-Willi syndrome**

Abnormalities of the central visual pathways in Prader-Willi syndrome associated with hypopigmentation, 102:420

**Prednisolone**

Beneficial effects of intensive plasma exchange followed by immunosuppressive therapy in severe Graves' ophthalmopathy, 101:747

Double-blind controlled trial to compare anti-inflammatory effects of tolmetin 2%, prednisolone 0.5% and placebo in post-cataract extraction eyes, 103:348

**Prednisone**

Treatment of temporal arteritis with ocular involvement, 101:748

**Presumed ocular histoplasmosis**

Natural history and reactivation studies of experimental ocular histoplasmosis in a primate model, 96:134

Ocular findings in patients with histoplasmosis, 100:364

**Proliferative retinopathy**

Hypertension. A risk factor for proliferative retinopathy, 103:738

**Proliferative vitreoretinopathy**

Clinical factors predisposing to massive proliferative vitreoretinopathy in rhegmatogenous retinal detachment, 98:262

**Propamidine isethionate**

*Acanthamoeba* keratitis successfully treated medically, 101:508

**Propranolol**

Effect of timolol eye drops in subjects receiving systemic propranolol therapy, 96:129

Oral and topical adrenergic beta-receptor blockers in glaucoma treatment, 99:227

**Proptosis**

Computed tomography of orbital-facial neurofibromatosis, 96:130

Lymphoproliferative disorders of the orbit. An immunological approach to diagnosis and pathogenesis, 97:404

Nasal polyposis with invasion into the orbit, 96:565

Ocular volume measured by CT scans, 99:506

Orbital tumors in children, 98:262

Proptosis and increase of intraocular pressure in voluntary lid fissure widening, 98:670

Proptosis of the eye of an eight-year-old boy, 97:809

Self-induced orbital emphysema as a presenting sign of Munchausen's syndrome, 97:677

**Proteinuria**

Cigarette-smoking as a risk factor for macroproteinuria and proliferative retinopathy in type 1 (insulin-dependent) diabetes, 103:125

Prevalence of retinopathy and proteinuria in type 1 diabetics in Iceland, 95:577

**Pseudoepiphora**

Pseudoepiphora from cerebrospinal fluid leak. Case report, 103:124

**Pseudoexfoliation**

The follow-up in patients with pseudoexfoliation of the lens capsule with and without glaucoma, 103:123

Laser trabeculoplasty as primary therapy in chronic open angle glaucoma, 98:258

Pseudoexfoliation syndrome, 96:421

Pseudoexfoliative material and oxytalan fibers, 99:100

***Pseudomonas* sp.**

Treatment of bacterial ulcers of the cornea in the rabbit. A comparison of administration by eye drops and subconjunctival injections, 96:132

**Pseudopapilledema**

Computed tomographic identification of calcified optic nerve drusen, 96:822

**Pseudotumor**

Lymphocytic infiltrates of the conjunctiva and orbit. Immunohistochemical staining of 16 cases, 98:389

Orbital pseudotumor. Histopathologic classification and treatment, 100:504

Treatment of idiopathic inflammatory orbital pseudotumors by radiotherapy, 97:405

**Pseudotumor cerebri**

Permanent visual impairment in childhood pseudotumor cerebri, 102:811

Sudden visual loss in pseudotumor cerebri due to central retinal artery occlusion, 99:377

Unilateral papilledema in "benign" intracranial hypertension (pseudotumor cerebri), 97:542

Visual loss in pseudotumor cerebri, 104:106

**Pseudoxanthoma elasticum**

Diagnosis of pseudoxanthoma elasticum by scar biopsy in patients without characteristic skin lesions, 104:562

**Psoralen**

Cutaneous and ocular side-effects of oral phototherapy. Results of an 8-year follow-up study, 104:318

Lenticular psoralen photoproducts and cataracts of a PUVA-treated psoriatic patient, 101:259

8-Methoxypsoralen levels in blood in vitiligo patients and in skin, ophthalmic fluids, and ocular tissues of the guinea pig, 102:814

Ocular findings in patients treated with PUVA, 101:142

Ophthalmological study of patients undergoing long-term PUVA therapy, 95:733

Psoralen. Long-wave ultraviolet therapy and human cataractogenesis, 95:412

**Pterygium**

Pterygium and ultraviolet radiation. A positive correlation, 98:529

Pterygium in welders, 98:530

**Pupil**

- Aberrant regeneration of the third nerve following orbital trauma. Synkinesis of the iris sphincter, 97:404
- Afferent pupillary defects in amblyopia, 96:266
- Afferent pupil testing in orbital-facial trauma, 99:101
- Apparent accommodation in pseudophakic eyes after implantation of posterior chamber intraocular lenses. Optical analysis, 99:504

Trichromatic colour vision. Why only three receptor channels?, 96:423

Ultraviolet receptor of bird retinas, 99:104

Underlying medical conditions in young patients and ethnic differences in retinal vein occlusion, 100:366

Uveal effusion syndrome. A new hypothesis concerning pathogenesis and technique of surgical treatment, 97:269

The visual cycle operates via an isomerase acting on all-trans retinol in the pigment epithelium, 104:454

Visual disturbances. An unusual symptom of transurethral prostatic resection reaction, 95:577

Wedge-shaped retinal nerve fiber layer defects in experimental glaucoma. Preliminary report, 101:140

Yellowish flecks in Leber's congenital amaurosis, 99:504

#### Retinal detachment

Advances in intraocular techniques in the treatment of retinal detachments arising from holes of the posterior pole, 96:419

Autosomal recessive eye and brain anomalies. Warburg syndrome, 96:568

Basic aspects and practical considerations in retinal detachment surgery, 102:812

Biometric studies of the eyeball and retinal detachment, 97:808

Clinical and histopathologic study of epiretinal membranes affecting the macula and removed by vitreous surgery, 96:133

Clinical factors predisposing to massive proliferative vitreoretinopathy in rhegmatogenous retinal detachment, 98:262

Electroretinographic studies following vitrectomy and intraocular silicone oil injection, 100:750

New absorbable explants using gelatin and synthetic materials, 97:813

The pathogenesis of retinal detachment with morning glory disc and optic pit, 103:249

Posterior capsulotomy and retinal detachment following extracapsular lens surgery, 98:669

Prevalence of aphakic retinal detachment, 95:865

Recovery of visual acuity after retinal detachment involving the macula, 96:132

Repair of retinal detachments with temporary balloon buckling, 104:109

Results of 100 aphakic detachments treated with a temporary balloon buckle. A case against routine encircling operations, 101:508

Retinal injury and detachment in boxers, 102:291

Retinal pigment epithelial detachments in the elderly. Classification and outcome, 100:751

#### Retinal S antigen

Retinal S antigen identified as the 48K protein regulating light-dependent phosphodiesterase in rods, 100:504

#### Retinitis

Dihydroxypropoxymethyl guanine in the treatment of AIDS related retinitis due to cytomegalovirus, 104:320

Presumed varicella zoster retinitis in immunocompromised patients, 104:563

Treatment of cytomegalovirus retinitis with 9-[2-hydroxy-1-(hydroxymethyl)ethoxymethyl] guanine, 100:868

#### Retinitis pigmentosa

Cu, Zn and SOD determination in patients with retinitis pigmentosa, 102:558

Delayed visual evoked cortical potentials in retinal disease, 95:267

Examinations of color vision in the differentiation of retinopathia pigmentosa, 95:736

Relationship between retinal pigment epithelium and the choriocapillaris, 98:673

Retinitis pigmentosa and deafness, 103:612

Retinitis pigmentosa. A quantitative study of the apical membrane of normal and dystrophic human retinal pigment epithelial cells in tissue culture in relation to phagocytosis, 98:531

Retinitis pigmentosa, ataxia, and peripheral neuropathy, 96:421

Retinitis pigmentosa. Clinical observations and correlations, 97:811

Reversible visual evoked potential abnormalities in vitamin E deficiency, 98:668

Study of retinitis pigmentosa in the city of Birmingham. I. Prevalence, 99:504

Study of retinitis pigmentosa in the city of Birmingham. II. Clinical and genetic heterogeneity, 99:504

Tapeto-retinal degeneration in four Norwegian counties. II. Diagnostic evaluation of 407 relatives and genetic evaluation of 87 families, 101:748

#### Retinoblastoma

Abnormalities of chromosome #13 in retinoblastomas from individuals with normal constitutional karyotypes, 95:268

Acute non-lymphocytic leukemia following multimodality therapy for retinoblastoma, 100:363

Chromosome fragility in patients with sporadic unilateral retinoblastoma, 98:130

Concurrent pineoblastoma and unilateral retinoblastoma. A forme fruste of trilateral retinoblastoma?, 101:143

Differentiation of human retinoblastoma in vitro into cell types with characteristics observed in embryonal or mature retina, 102:810

Ewing's tumor following bilateral retinoblastoma, 96:566

Excess of cancer deaths in close relatives of patients with bilateral retinoblastoma, 98:834

Expression of recessive alleles by chromosomal mechanisms in retinoblastoma, 97:268

Expression of the photoreceptor-specific S-antigen in human retinoblastoma, 102:289

Effect of aging on sensorimotor functions of eye and hand movements, 102:554

**Sickle cell trait**

Alteration of the blood-retinal barrier and vitreous in sickle cell retinopathy, 102:555

Case-control study of the association of sickle cell trait and chronic open-angle glaucoma, 97:122

Effects of sickle cell anemia on conjunctival oxygen tension and temperature, 103:848

Retinal changes in sickle cell/hereditary persistence of fetal haemoglobin syndrome, 97:540

Sickle cell hyphema with secondary glaucoma in a non-black patient, 99:750

**Silicone oil**

Basic aspects and practical considerations in retinal detachment surgery, 102:812

Electroretinographic studies following vitrectomy and intraocular silicone oil injection, 100:750

**Sinus**

Carotid-cavernous fistulas. Embolization through the superior ophthalmic vein approach, 102:293

Orbital phlebography in patients with Tolosa-Hunt's syndrome in comparison with normal subjects, 99:746

Relationship of optic neuritis to disease of the paranasal sinuses, 99:380

**Sjögren's syndrome**

Beneficial effect of artificial tears made with autologous serum in patients with keratoconjunctivitis sicca, 98:390

Lacrimal and salivary secretion in Sjögren's syndrome. The effect of systemic treatment with bromhexine, 98:528

Neuropsychiatric dysfunction in primary Sjögren's syndrome, 100:867

Predictive value of SS-B precipitating antibodies in Sjögren's syndrome, 96:419

Primary Sjögren's syndrome after infectious mononucleosis, 103:850

**Sodium hyaluronate**

Hyaluronate increases intraocular pressure when used in cataract extraction, 101:397

Sodium hyaluronate (Healon) in cyclodialysis, 101:139

**Soemmerring ring**

Ring of Soemmerring in the rabbit. A scanning electron microscopic study, 100:632

**Sorbinil**

Effect of sorbinil on blood-retinal barrier in early diabetic retinopathy, 102:554

Effects of the aldose reductase inhibitor sorbinil on the isolated cultured rat lens, 102:556

Penetration of sorbinil, an aldose reductase inhibitor, into lens, aqueous humour and erythrocytes of patients undergoing cataract extraction, 99:747

**Spasmus nutans**

Spasmus nutans associated with optic gliomas in infants, 99:380

**Spectacles**

Colour perception in pseudophakia, 95:734

Spectacle prescribing among 10-year-old children, 101:627

**Staphylococcus sp.**

Endophthalmitis following intraocular lens implantation. Report of 30 cases and review of the literature, 101:750

Incidence of conjunctival colonization by bacteria capable of causing postoperative endophthalmitis, 103:125

Microbial causes of neonatal conjunctivitis, 99:379

Treatment of bacterial ulcers of the cornea in the rabbit. A comparison of administration by eye drops and subconjunctival injections, 96:132

**Staphyloma**

Computed tomographic analysis of deformity and dimensional changes in the eyeball, 99:380

Subretinal neovascularisation in eyes with localized inferior posterior staphylomas, 99:625

**Stargardt's disease**

Clinical review of Stargardt's disease and/or fundus flavimaculatus with follow-up, 101:629

Stargardt's disease and fundus flavimaculatus. Evaluation of morphologic progression and intrafamilial co-existence, 104:199

**Statistics**

Decision analysis, 103:612

**Stereopsis**

Ophthalmological findings in pupils of a primary school with particular reference to reading difficulties, 95:577

**Stereoscopic vision**

Therapy of Adie's syndrome with dilute pilocarpine hydrochloride solutions, 101:749

**Strabismus**

Afferent pupillary defects in amblyopia, 96:266

Anterior segment anomalies associated with the fetal alcohol syndrome, 97:675

Antiemetic effect of droperidol following outpatient strabismus surgery in children, 97:673

Coats' disease. A study of 62 histologically confirmed cases, 99:229

Comparison of four non-depolarizing neuromuscular blocking drugs in the suppression of the oculocardiac reflex during strabismus surgery in children, 101:627

Extraocular muscle surgery in early infancy—anatomical factors, 98:260

Microtropia, 95:735

Occurrence of strabismus in infants born to drug-dependent women, 104:106

Ocular abnormalities in the fetal alcohol syndrome, 100:630

Oculocardiac reflex. A graphic and statistical analysis in infants and children, 96:820

Paralytic strabismus. The role of botulinum toxin, 101:628

Preferential looking vision testing. Application to evaluation of high-risk prematurely born infants and children, 95:413

Saccadic velocity measurements in strabismus, 97:811

Treatment of periorbital infantile hemangioma with intralesional corticosteroid, 101:263

**Streptococcus sp.**

Microbial causes of neonatal conjunctivitis, 99:379

Sclerodema. An unusual presentation with edema limited to scalp, upper face, and orbits, 95:581

**Superior oblique muscle**

Superior oblique myokymia, 96:818

Tenosynovitis of the superior oblique muscle (Brown syndrome) associated with juvenile rheumatoid arthritis, 100:503

**Suramin**

- Toxic keratopathy associated with suramin therapy, 102:292

**T****T cell**

- Immunohistologic diagnosis of orbital lymphoid infiltrates, 98:128  
Immunology of autoimmune thyroid diseases, 95:415  
Rheumatoid arthritis and sterile corneal ulceration, 98:669  
Thymus-derived lymphocyte enumeration in patients with uveal malignant melanoma, 98:831

**Tear**

- Pathogenesis of tears of the retinal pigment epithelium, 98:831  
Retinal injury and detachment in boxers, 102:291

**Tears**

- Beneficial effect of artificial tears made with autologous serum in patients with keratoconjunctivitis sicca, 98:390  
Different beta-blockers and their short-time effect on break-up time, 102:134  
The eye and face pain, 99:104  
Factors influencing the variability of the tear film break-up time, 97:676  
How do tears exit?, 96:420  
Influence of topical beta-blockers on the breakup time, 98:834  
Non-invasive tear film break-up time. Sensitivity and specificity, 103:246  
Ocular pathology, tear production, and tear lysozyme in rheumatoid arthritis, 95:582  
Ocular surface drying and tear film osmolarity in thyroid eye disease, 96:418  
Origin and biosynthesis of human tear fluid proteins, 96:420  
Physical chemistry of the normal and disordered tear film, 101:263  
Schirmer test values and lysozyme content of tears in acute dendritic keratitis, 97:675  
Tear analysis in contact lens wearers, 101:751  
Tear analysis in multiple sclerosis, 102:133

**Timolol**

- Blind randomised non-crossover long-term trial comparing topical timolol 0.25% with timolol 0.5% in the treatment of simple chronic glaucoma, 96:698  
Bradycardia induced by interaction between quinidine and ophthalmic timolol, 101:397  
Cardiovascular effects of ophthalmic timolol, 101:748  
Comparative efficacy of orally and topically administered beta-blockers for chronic simple glaucoma, 99:626  
Different beta-blockers and their short-time effect on break-up time, 102:134  
Effect of timolol eye drops in subjects receiving systemic propranolol therapy, 96:129

- Effects of timolol, epinephrine, and acetazolamide on aqueous flow during sleep, 101:141  
Flow of aqueous humor in the human eye, 96:132  
Influence of pindolol and timolol treatment on the visual fields of glaucoma patients, 103:735  
Migraine prevention with timolol, 99:229  
Ophthalmic timolol treatment causing altered hypoglycemic response in a diabetic patient, 96:818  
Severe bradycardia due to interaction of timolol eye drops and verapamil, 104:320  
Sexual dysfunction secondary to topical ophthalmic timolol, 100:501  
Systemic absorption of topically applied ocular timolol, 100:365  
Timolol and aceclidine, 101:506  
Timolol ophthalmic solution and respiratory arrest, 102:676

**Tolmetin**

- Double-blind controlled trial to compare anti-inflammatory effects of tolmetin 2%, prednisolone 0.5% and placebo in post-cataract extraction eyes, 103:348

**Tolosa-Hunt syndrome**

- The eye and face pain, 99:104  
Orbital phlebography in patients with Tolosa-Hunt's syndrome in comparison with normal subjects, 99:746  
"Sinister" Tolosa-Hunt syndrome, 101:630  
Steroid-responsive ophthalmoplegia in a child, 100:499

**Toluene**

- Multifocal central nervous system damage caused by toluene abuse, 97:543

**Tonometry**

- Prevalence of increased intraocular pressure in Graves' disease. Evidence of frequent subclinical ophthalmopathy, 95:737

**Toxoplasma sp.**

- Murine model of congenital toxoplasmic retinochoroiditis, 97:403

**Trabecular meshwork**

- Age-related depletion of the cell population in the human trabecular meshwork, 104:560  
Can macrophages cause obstruction to aqueous outflow in rabbits?, 98:833  
Clinicopathologic features of Chandler's syndrome, 96:422  
Immunofluorescence investigations in the human trabecular meshwork, 95:868  
Posterior polymorphous corneal dystrophy. A disease characterized by epithelial-like endothelial cells which influence management and prognosis, 101:751  
Ultrastructural changes of the trabecular meshwork of the monkey (*Macaca speciosa*) following irradiation with argon laser, 99:101

**Trabeculectomy**

- Argon laser trabeculoplasty or trabeculectomy. A prospective randomised block study, 99:630  
Early trabeculectomy in the treatment of chronic open-angle glaucoma in relation to histological changes, 99:229

Glaucoma triple procedure of extracapsular cataract extraction, posterior chamber lens implantation, and trabeculectomy, **100:500**

Trabeculectomy with iridencleisis, **101:628**

### **Trabeculectomy**

Argon laser trabeculectomy or trabeculectomy. A prospective randomised block study, **99:630**

Effects of topical indomethacin pretreatment on argon laser trabeculectomy. A randomised, double-masked study on black South Africans, **101:398**

The laser power needed for optimum results in argon laser trabeculectomy, **103:123**

Laser trabeculectomy and decay effects in glaucoma patients, **98:131**

Laser trabeculectomy as primary therapy in chronic open angle glaucoma, **98:258**

Late failures of trabeculectomy, **103:850**

One- and two-session laser trabeculectomy. A randomized, prospective study, **99:227**

Repeated argon laser trabeculectomy, **103:123**

Short-term effect of laser trabeculectomy on the glaucomatous visual field. A prospective study using computerized perimetry, **99:227**

Some factors affecting the intraocular pressure reduction after argon laser trabeculectomy in open-angle glaucoma, **99:227**

Ultrastructural changes of the trabecular meshwork of the monkey (*Macaca speciosa*) following irradiation with argon laser, **99:101**

### **Trabeculotomy**

In-vitro morphological study of Q-switched neodymium/YAG laser trabeculotomy, **102:289**

### **Trachoma**

Detection of *Chlamydia trachomatis* by direct immunofluorescence in conjunctival smears from patients with trachoma and patients with ophthalmia neonatorum using a conjugated monoclonal antibody, **102:291**

### **Trauma**

Posttraumatic endophthalmitis. The emerging role of *Bacillus cereus* infection, **103:852**

Traumatic myopia: an ultrasonographic and clinical study, **104:451**

Use of soft contact lenses in an eye casualty department for the primary treatment of traumatic corneal abrasions, **104:451**

Use of Teflon in orbital floor reconstruction following blunt facial trauma. A 20-year experience, **103:852**

### **Triamcinolone**

Intralesional corticosteroid injection for the treatment of chalazia, **97:404**

Intralesional corticosteroid therapy of chalazia. A comparison with incision and curettage, **99:377**

Treatment of chalazions with injection of a steroid suspension, **99:377**

### **Trifluorothymidine**

Combined treatment of herpetic dendritic keratitis with blunt spatula debridement and trifluorothymidine, **101:631**

Herpes simplex virus infections of the eye and their management with acyclovir, **97:542**

Viral keratitis, **101:399**

### **Trifluridine**

Corneal epithelial dysplasia after trifluridine use, **95:734**

### **Trigeminal nerve**

Herpes zoster ophthalmicus with contralateral hemiplegia. Identification of cause, **96:818**

### **Trisomy**

Corneal opacities—A diagnostic feature of the trisomy 8 mosaic syndrome, **97:405**

### **Tryptophan**

Serum tryptophan in humans with senile cataracts, **97:543**

### **Tumor**

Bilateral central scotomata due to intracranial tumour, **98:830**

Bone sarcomas linked to radiotherapy and chemotherapy in children, **104:679**

Demonstration of intraocular tumors by means of gamma-radiating radionuclides, **95:271**

Detection of malignant tumors, **103:248**

Intraocular evaluation by computed tomography, **95:581**

Is irradiation a justifiable treatment of choroidal melanoma? Analysis of published results, **104:676**

Method for assessing potential bias among cancer patients recorded as "dead of other causes", **102:416**

Transient uniocular visual loss on deviation of the eye in association with intraorbital tumours, **104:561**

Visual hallucinations associated with pituitary adenoma, **104:109**

### **Tyrosinemia**

Dietary management of oculocutaneous tyrosinemia in an 11-year-old child, **97:264**

## **U**

### **Uhthoff's sign**

Improved optic nerve conduction with ingestion of ice water, **100:363**

### **Ulcer**

Inflammatory mechanisms in corneal ulceration, **101:752**

Ocular infection caused by a biological insecticide, **97:675**

Pathogenesis of Mooren's ulcer. Some new concepts, **98:258**

Rheumatoid arthritis and sterile corneal ulceration, **98:669**

Viral keratitis, **101:399**

29-year-old native of India with bilateral ulcerative keratitis, **99:749**

### **Ultrasonography**

Choroidal melanoma. Comparison of CT, funduscopy and US, **100:871**

Leukemic ophthalmology detected by ultrasound, **96:568**

**Urrets-Zavalía syndrome**

Is Urrets-Zavalía syndrome still a reality?, 97:675

**Uvea**

Bilateral diffuse benign melanocytic tumours of the uveal tract, 100:363

Hematoporphyrin photoradiation therapy for intraocular and orbital malignant melanoma, 98:390

Heterochromic iridocyclitis, 100:633

Neovascular glaucoma after photoradiation therapy for uveal melanoma, 98:390

Prenatal diagnosis of oculocutaneous albinism by electron microscopy of fetal skin, 96:420

Thymus-derived lymphocyte enumeration in patients with uveal malignant melanoma, 98:831

Uveal effusion in Hunter's syndrome, 102:557

Uveal effusion syndrome. A new hypothesis concerning pathogenesis and technique of surgical treatment, 97:269

**Uveitis**

Anterior uveitis associated with *Campylobacter jejuni* infection, 104:561

Bilateral dislocation of the crystalline lens in a patient with presumed syphilitic uveitis, 103:350

*Candida* endophthalmitis presenting as bilateral posterior uveitis, 96:266

Chlamydial immunofluorescence serology in anterior uveitis, 95:733

Comparison of topical acyclovir with steroids in the treatment of herpes zoster keratouveitis, 97:540

Cyclosporin therapy for uveitis. Long-term follow-up, 101:749

Immunogenetic factors in inflammatory eye disease, 95:865

Murine model of congenital toxoplasmic retinochoroiditis, 97:403

Ocular vasculitis in Behçet's disease, 100:364

Progressive subretinal fibrosis and uveitis, 99:228

Relationship between ocular and articular disease activity in children with juvenile rheumatoid arthritis and associated uveitis, 102:812

Review of acyclovir treatment of ocular herpes zoster and skin infections, 97:542

Treatment of intraocular inflammatory disease with cyclosporin A, 96:700

**V****Varicella**

Parainfectious optic neuritis. Report and review following varicella, 96:697

Presumed varicella zoster retinitis in immunocompromised patients, 104:563

**Vasculitis**

Retinal vasculitis associated with HLA DR4, 100:869

Retinal vasculitis in polyarteritis nodosa, 104:109

**Vein occlusion**

Hemispheric retinal branch vein occlusion, 103:736

**Vernal conjunctivitis**

Effect of anaphylaxis on conjunctival goblet cells, 101:141

**Vestibulo-ocular reflex**

Head shaking and vestibulo-ocular reflex in congenital nystagmus, 100:869

Looking with a paralysed eye. Adaptive plasticity of the vestibulo-ocular reflex, 99:102

Outcome prediction in comatose patients: significance of reflex eye movement analysis, 104:561

**Vidarabine**

Early vidarabine therapy to control the complications of herpes zoster in immunosuppressed patients, 95:135

Herpes simplex virus infections of the eye and their management with acyclovir, 97:542

**Vincristine**

Chiasmatic optic glioma treated with chemotherapy, 101:510

**Virus**

Retinal degeneration in experimental Creutzfeldt-Jakob disease, 97:676

**Visual acuity**

Afferent pupillary defects in amblyopia, 96:266

Assessment of visual acuity in infancy and early childhood, 96:418

Assessment of visual function in infants by evoked potentials, 95:580

Binocular and monocular visual function in World Class tennis players, 102:676

Contrast sensitivity loss in multiple sclerosis, 98:392

Contrast sensitivity versus visual acuity in retinal disease, 102:813

Correction of refractive errors with polysulfone corneal inlays, 100:634

Development of visual acuity in normal fullterm and preterm infants, 102:815

Diagnostic value of abnormal eye movements. A pathophysiological approach, 95:132

Effect of age on visual acuity after cataract extraction, 104:451

Effect of glaucoma on central visual function, 99:629

Evaluation of orbital cellulitis and results of treatment, 95:133

20/20 eye in multiple sclerosis, 96:702

Grid photocoagulation for diffuse macular edema, 100:754

Improved optic nerve conduction with ingestion of ice water, 100:363

Infant interocular acuity differences and binocular vision, 100:366

Lithium effects on ophthalmological-electrophysiological parameters in young healthy volunteers, 101:259

- Long-term study of morphological and functional developments after central serous chorioretinitis, 96:700
- Multiple evanescent white dot syndrome. I. Clinical findings, 98:389
- Multiple evanescent white dot syndrome. II. Electrophysiology of the photoreceptors during retinal pigment epithelial disease, 98:390

**Visual response**

Chemistry of vision, 95:271

Fish vision and the detection of planktonic prey, 95:272

**Visual screening**

Comparability of ophthalmic diagnoses by clinical and reading center examiners in the visual acuity impairment survey pilot study, 103:734

Educational attainment of 10-year-old children with treated and untreated visual defects, 101:139

Reliability of ophthalmic diagnoses in an epidemiologic survey, 97:121

Visual development in infancy and childhood, 97:677

**Visual tracking**

Eye tracking dysfunction in Alzheimer-type dementia, 98:131

**Vitamin**

Mortality associated with mild, untreated xerophthalmia, 97:812

Oral vitamin E supplements can prevent the retinopathy of abetalipoproteinaemia, 102:676

Retinopathy of prematurity and vitamin E, 99:230

Retinopathy of prematurity in extremely low birth-weight infants, 99:230

Reversible visual evoked potential abnormalities in vitamin E deficiency, 98:668

Serum, retinal, choroidal vitreal vitamin E concentrations in human infants, 103:736

Tocopherol efficacy and safety for preventing retinopathy of prematurity. A randomized controlled, double-masked trial, 104:322

Vitamin A treatment for night blindness in primary biliary cirrhosis, 98:129

Vitamin E protects against retinopathy of prematurity through action on spindle cells, 98:532

**Vitiligo**

8-Methoxypsoralen levels in blood in vitiligo patients and in skin, ophthalmic fluids, and ocular tissues of the guinea pig, 102:814

**Vitrectomy**

Advances in intraocular techniques in the treatment of retinal detachments arising from holes of the posterior pole, 96:419

*Candida albicans* endophthalmitis. Results of pars plana vitrectomy without intraocular antimycotic therapy, 98:392

Electroretinographic studies following vitrectomy and intraocular silicone oil injection, 100:750

Enzyme-assisted vitrectomy with bacterial collagenase, 100:754

Evaluation of vitrectomy in penetrating ocular trauma, 98:529

Preoperative electroretinograms and visual evoked cortical potentials for predicting outcome of vitrectomy in diabetics, 101:401

Prognostic parameters in pars plana vitrectomy, 97:403

Recurrent proliferations in macular pucker, diabetic retinopathy, and retrolental fibroplasia-like disease after vitrectomy, 101:261

Treatment of endophthalmitis with and without pars plana vitrectomy, 100:753

Visual evoked potential as a prognostic factor for vitrectomy in diabetic eyes, 97:403

Vitrectomy in severe ocular trauma, 98:834

**Vitreoretinopathy**

Enzyme-assisted vitrectomy with bacterial collagenase, 100:754

One-step extracapsular cataract extraction and silicone oil-injection in the management of proliferative vitreoretinopathy, 102:553

**Vitreous**

Acute non-lymphocytic leukemia following multimodality therapy for retinoblastoma, 100:363

Age-related changes in human vitreous structure, 104:451

Alteration of the blood-retinal barrier and vitreous in sickle cell retinopathy, 102:555

Autosomal recessive eye and brain anomalies. Warburg syndrome, 96:568

Basic aspects and practical considerations in retinal detachment surgery, 102:812

Clinical and histopathologic study of epiretinal membranes affecting the macula and removed by vitreous surgery, 96:133

Clinical factors predisposing to massive proliferative vitreoretinopathy in rhegmatogenous retinal detachment, 98:262

Coats' disease. A study of 62 histologically confirmed cases, 99:229

Comparison of the effects of continuous and intermittent systemic administration on the penetration of gentamicin into infected rabbit eyes, 95:868

Gravity-dependent distribution of retinal pigment epithelial cells dispersed into the vitreous cavity, 102:679

Human retinal pigment epithelial cells in the vitreous of the owl monkey, 103:349

Oculo-palato-cerebral dwarfism. A new syndrome, 100:501

- Postoperative emesis in vitreoretinal surgical patients, 97:406
- Production and mechanism of ghost cell glaucoma in the cat and primate, 101:141
- Progressive subretinal fibrosis and uveitis, 99:228
- Pupillary block associated with posterior chamber lenses, 99:749
- Regional specialization of retinal glial cell membrane, 98:261
- Syneresis of vitreous by carbon dioxide laser radiation, 96:131
- Traumatic retinal vasculopathy, 103:250

In addition to members of the Editorial Board, the following scientific referees contributed generously of their knowledge, expertise, and time to review and to evaluate the suitability of typescripts submitted for publication to The American Journal of Ophthalmology between November 1, 1986 and October 31, 1987. The Editorial Board is ever mindful of their generous contribution to the integrity and accuracy of The Journal. If your path crosses that of one of these referees, express your appreciation.
